ALANSON YARRINGTON DEAD. mother of the Pioneers in This Region

Passes Away. The death of Alanson Yarrington on Saturday morning marks the removal of another of the ploneers of this re-gion. His death was due to old age.

gion. His death was due to oid age, and was very unexpected. Mr. Yarrington resided with his daughter, Mrs. Adam Kagler, 43 Wayne street. Friday Mr. Yarrington seemed to be as well as ever and retired to bed at the usual hour. Early in the morning a slight noise was heard in his room, and upon going to see the cause, he was found to be dying.

The deceased was a pioneer in this district, and has been a resident of

Carbondale for many years. He was born in Wilkes-Barre ninety-two years ago, from where he went at an early age to Dundaff. In 1860 he removed to this city, where he engaged in the lumber trade

The last few years of Mr. Yarring-ton's life have been spent quietly at the home of his daughter, where his health has lately been failing. No unusual change had taken place, however, so his death was very unexpected.

A sister, Mrs. Benjamin Geary, survives him and four children, Mrs. Adam Kagler and Mrs. Christopher Schultz, of this city; H. C. Yarrington, of For-est City, and Mrs. Ann Munson, of

LACKAWANNA PRESBYTERY.

The Lackawanna Presbytery will neet here next week at the First Presmeet here next week at the First Pres-byterian church, the meetings com-mencing today. The meetings will probably be well attended, as the busi-ness to be transacted is very impor-tant. Among other things the records of each church in the Presbytery will be examined; a new church at Forty Fort received; four young men who are applying for licenses to preach will probably receive them; three others taken into the ministry; two ministers taken into the ministry: two ministers from other denominations received, and commissioners to the general assem-

bly at Saratoga elected.

The evening will be of powerful interest to the public. Prominent preachers will speak each night. On Wednesday evening Rev. Dr. C. E. Robinson, of Scranton, will speak on "Requirements for Church Membership," and Rev. Dr. James McLeod, of Scranton, will discuss "What Ought a Church Member to Do and Be?"

at the Park. The next two days will be full of de-light for the base ball lovers, for there will be a fine exhibition of the national game on each day. The Syracuse team of the Eastern league will meet the local club and a battle royal is expected. This year's club of Syracuse is one of the strongest in the Eastern league and the strongest that that

city has yet possessed. Hence the games are expected to be very close and exciting.

There will be some change in the make-up of the club today. Luby going in the box and if his health permits Staltz will be in his usual place. These games will be the only ones this week and none should miss them.

THE JOINT DEBATE.

A Fine Programme Prepared for Wednesday Evening

The joint decate between the pupils of the high school of Scranton and those of this city will probably draw a large attendance from down the valley. A large section of the opera house has been reserved for the Scranton people.

Speaking of rames of towns in Susquehanna there is another section, Smoky Hollow. This place is so called from the fact that a class of dusky people settled there and for years lived in a primitive fashion, cooking in the open air. The smoke from this and camp fires filled the valley and therefore it was called Smoky Hollow.

Severance was charzed with larceny by bailee and the judge charged the jury to find the defendant not guilty. The case was a peculiar one. H. SENATOR HARDENBURGH, OF HONESDALE.

Senator E. B. Hardenburgh, of Hones dale, was in Montrose for the confer-ence on Thursday, when the conferees of the Fifteenth congressional district

met.
The senator is a tall man, very good looking and withal genial and happy. You would not imagine that he was a senator until he began to talk of state affairs and then it is at once apparent that he is thoroughly conversant with the subject in general. "Yes," said he after greeting your representative, "our district is to be congratulated upon the unanimity of opinion and the existing harmony in this, the presiden-Will Open Today at the First Presbyterian so little friction and it seems to me as if every Republican was bent upon doing all in his power to bring abou the desired result. I consider the nomination of the present congressman, Hon. J. H. Codding, of Towarda, a happy ending of this conference. It will be a great year for Republicans and consequently Republicans will be

great."
Senator Hardenburgh is well known here, and to say that he is popular would hardly express it. He has not been negligent of his duties but on the contrary an indefatigable worker and thus is the reason clear.

HONESDALE,

The will of the late Rev. J. J. Doher-ty was admitted to probate Saturday afternoon and not a week ago, as stat-ed in many papers. The bequests are practically the same as already published. Most of his estate goes to his niece, Miss Ella Doherty, of this borough. This consists principally of his residence and furniture and other estate in the borough and Texas township, a note for \$6,000. The second codicil contains the following, which has been published and re-published in all the daily papers and all of them have been in error. The codicil reads: "I direct my executors to pay \$20,000 to my direct my executors to pay \$20,000 to my niece. Ella Doherty, for the erection of a hall on the corner opposite Henry Russel's mansion in Honesdale, to be called St. John's hall, and to be used for any purpose of profit consistent with the religion and morals of the Catholic church." The papers have all designated this hall an opera house, but in all probabilities it will not be so that the catholic church in the papers have all designated this hall an opera house, but in all probabilities it will not be so. but in all probabilities it will not be so used. ASTROLOGICAL

The Influence of Taurus.

The Sun entered the sign of Taurus yesterday and will continue in the same until May 29. Taurus is one of the intellectual signs of Zodiac and belongs to the cerebellum and neck, which control the lamphatic system of the body, that is, the fluids of life, Children born under the sign of Taurus are usually very determined and unylelding. As a rule they are bound to have their own way at any cost. They are best suited to literary pursuits, but are usually imitators rather than originators. They can readily adapt themselves to any condition of life, and are up to become leaders through their keen perception and ability to understand the demands of the people. General Grant, Louis Kossuth and S. F. E. Morse, the electrician, are among the noted men born under Taurus. While they are determined and stubborn when opposed, they are easily led by persons for whom they have affection. This is their greatest weakness. They are very apt to be misled by evil associates when young. They are liable to dropsy from over vitality caused by eating too much, and getting too fat. They are also subject to diseases of the throat and heart. Of persons born under Taurus the ancient astrologers speak as follows: "Those persons born when the sun is in this sign doth make them bold and fortunate in attempting hard and weighty affairs and business; a victor or conqueror of his enemies, and a great traveller, and he will travel from his native country. Also servile, familiar, very passionate when put out of temper, but more in youth than in age, for age shall take away all incommodities and displeasures, and shall bring riches by marriage, by which means he shall be made joyful and glad. For if he go about to marry in youth he will be subject to disappointments in marriage; howbelt, age doth not take away sickness, but increaseth sadness and melancholy, and causeth hurds, as by biting of a dox, and that about the twenty-eighth or thirty-fifth year of his age. These times once passed, he shall dourish again and live The Influence of Taurus.
