The New York, Ontario and Western Railroad company will build a new passenger and freight depot at Mayfield in a short time. The passenger and freight traffic has largely increased in Mayfield and to accommodate the same requires new quarters. Several complications have arisen, however, in regard to where the new depot shall be built. One faction wants the depot on Chestnut street, while the leading merchants of the place wish it built on the site of the old hotel. The merchants say if their request is refused they will immediately change their patronage from the Ontario and Western road to the Delaware and Hudson company, as the latter's depot is much nearer their stores, thus making the cost of transportation less. The outcome will be watched with great interest by the people of Mayfield.
