MAKING CHANGE FOR TWO-FIFTY. t Will Break Up the System of the Average Cashier.

It was only a little two-dollar-and-a-half gold blece, but it is surprising the amount of trouble a little thing can

ometimes make.

The young man had handed it to the cashier in the restaurant, and was waiting for his change, while behind were two or three other people wait-ing for him to get out of the way.

By for him to get out of the way.
But cashiers are methodical, and, furthermore, nine-tenths of them have one certain way of making change that involves dealing in even dollars, as a general thing. No matter what the size of the bill, they take the amount of the purchase out of the first dollar, if it is below that figure, and then hand over the rest of the money in dollars or

over the rest of the money in dollars or bills of larger denomination.

That was what puzzled this cashier.

"Oh! Two dollars and a half!" she said, while she was trying to make a mental calculation, according to her usual system. usual system. "That's what it is," replied the young

man.
"Of course," she returned, slipping it of course, she returned, suppose a into the drawer. "Check, 40 cents," and she counted out 60 cents in order to get on the dollar basis as soon as possible, after her usual fashion; "one dollar, two dollars, three dollars-no; that's not right." She was red in the face as she drew the money back and began over again

If I didn't get started in before I knew it, so that I want to see how his miserable story comes out, I wouldn't tolerate his bad grammar and worse sense for a minute. And when I'm doing my best to be patient and bear with him, to have him come along an' pat me on the back and call me 'gentle reader' gets me riled, and I can't help showing it!"—Washington Star.

MARKET AND STOCK REPORT

New York, April 22.—The revival of the Venezuelan war scare in London was promptly reflected in a decline at the local stock exchange of anywhere from 4 to 1½ per cent. in prices. In the decline Sugar and the interna-

tionals were most conspicuous. The selling for foreign account played di-rectly into the hands of the sold-out rectly into the hands of the sold-out bulls and the latter attempted to force further liquidations. They met with little success, however, as commission houses bought liberally at the decline. As a result of this buying the Grangers, Missouri Pacific, Michigan Central. Lake Shore, Jersey Central and New York Central sold at the best figures attained since the current bull movement was inaugurated. In the last hour of business Tobacco suddenly broke to of business Tobacco suddenly broke to

69%. Early in the day the stock brought 74%. The slump was due to an unconfrimed rumor that an injunction had been obtained restraining the payment of the scrip dividend recently declared. The break in the stock had but little influence on the general list, which held fairly steady to the close. Net changes show losses of 1/411/4 per cent., Sugar leading. The Grangers, however, show slight gains for the day. Tobacco lost 4 per cent. Total sales were 279,399
