# IT IS GETTING SPIRITED. Politics in the First Legislative distriet is assuming a familiar shape. Patrolman Thomas V. Lewis has practic-

ally withdrawn from the fight, while M. E. Sanders, of the Truth, is entering into the contest with great spirit. He is after the nomination with a will and be is showing that will. Campaign cards, with his picture and a sketch of promises and intentions have been widely circulated during the past week. There are other candidates, but their methods are wordless and noiseless.

Lewis has been in town and vicinity for a week past soliciting for the Reporter-Journal. In the meantime he was canvassing the political field in favor of Professor H. S. Put-

He has been with ua for three years, and has won a host of friends in this place and vicinity, who regret to hear of his departure. He has been a great help in the young people's society and with his efforts he has succeeded in organrising a Junior Christian Endeavor so-ciety, and has greatly encouraged them in their work. While there are min-isters, as well as others, who do not consider the young people any great consequence to a church, we do not boast in saying that Rev. Davis has been the cause of a great increase in such work by the younger ones, and has prepared a good start for them in succeeding the older ones. Wherever our former paster goes he carries with

him the best wishes of doing more con-tinued good for the Master and the upbuilding of the church in charge,

# MARKET AND STOCK REPORT

Wall Street Review.

New York, April 21.—The receipt of higher quotations from London which were accompanied by buying orders from that center led to a streng opening for stocks at the local board today. Foreign houses it is estimated by competent authorities bought fully ten to fifteen thousand shares of St. Paul, Louisville and Nashville and the low-priced southwesterns, which ought to pue an end to the sensational talk on Venezuelan affairs at least for a time. As a matter of act, foreign investors and speculators appare to be paying more attention to earnings of our railways than to our politics just now. For instance, the statements of the St. Paul and Omaha, Louisville and Nasaville. Southern Railway and some of the smaller southwesterns just submitted for the third week of April and for the month of March all showed good increase, and this, in a measure, explains the foreign andu local commission house buying. The advance in the railway group was equal to laa2's per cent. Omaha Common leading with sales as high as 4%. St. Paul berlington and Quincy and Rock Island all sold at the best figures for some time past. Manhattan was strengthened by the belief that the company will receive important concessions from the city shortiy and advanced to illigation. In the Industrials Sugar was the great feature. The stock lirst rose from 12't to 125, then fell to 123's and recovered to and closed at 121's. Recent short sellers on reports of adverse congressional action were the most eager louyers. The afternoon break was due to a raid by a prominent operator, who, it is said, was misled by last week's rumors from Washington about the abolition of the 's cent differential, and who attempted to get back his stock. American Tesaco was in domad and moved up from 71'2 to 73'1472'2'. Chicago Gas and Lead were also slightly higher. The advance in the posted figures for sterling exchange of 's cent differential, and who attempted to get back his stock. American Tesaco was in domad and moved up from 71'2 to 73'1472'2'. Chicag
