

A CONFEDERATE VICTORY. A Texas Colonel Conquers a Life Long Foe.

Story of a Struggle for Years, Ending in Success at Last—The Hero's Own Statement.

Hurrah! Another victory won. And after a life of fighting, in youth, men reckless, acquire habits, which for a time they can easily manage. But as time goes on the struggle becomes one of life and death, and in the case of the tobacco vice the fight is almost hopeless. He who allows the time to go by when he can still say "I'll quit," and do it, is in a serious position; brain deadened with constant irritation; brain deadened with everlasting tobacco poison; sexual power destroyed, leave man but an emaciated wreck who knows not what life is.

When tobacco has a hold on a man he has but one hope—No-To-Bac. This has been the salvation of 300,000 such cases, and is curing thousands every day. If the tobacco victims will but know what it is to once more firm of step, bright of eye, full of energy, manliness and vital force, No-To-Bac will eradicate the tobacco habit from the veins of mankind. Hear what Colonel McClary has to say of his glorious victory, caused by No-To-Bac's timely appearance on the battle field:

Gentlemen—For an old broken-down Confederate to give his experience in the use of No-To-Bac, June 1st, 1885, in one box of it from John Foster, druggist, to try as an experiment, I quite the use of tobacco "instantly." I took the first box in ten days—taking eight per day. Now for the result. For two months (June and July) I have had no desire for tobacco. I now loathe and detest and hate it! I am 66 years of age—smoked and chewed at the same time regularly for about twenty years. I have been a regular tobacco-chewer for fifty years.

No-To-Bac will do it for you, quickly, easily, permanently, if you will only do your share. Begin today. You take no risk whatever if you buy from your own druggist under absolute guarantee to cure. Get our booklet "Don't Tobacco Spit and Smoke Your Life Away." Written guarantee, and free sample mailed for the asking. Address The Sterling Remedy Co., Chicago, or New York.

NEW ATHLETIC CLUB.

The Rooms are Now Complete in Every Detail. The new athletic club will probably open its rooms on May 1, as all the necessary paraphernalia and equipment, as one look at the fixtures will satisfy. The rooms occupy the entire third floor and the change which has taken place during the last few weeks is indeed great. The floor is divided into smoking room, parlor, gymnasium and bath rooms. Everything is furnished in the best possible manner. At the head of the stairs is the cosy smoking room, and back of this are the number one bath rooms. At the front, facing the street, are the large parlors, which have been fitted up in a most elegant manner. Probably what will be of the greatest interest to many is the gymnasium, which is very large. It has been fitted up in the most complete manner. Among other things are seen parallel bars, lifting machines, punching bag, horizontal bar, kicking apparatus, climbing poles and many more. On the side of the wall are the india-rubber, dumbbells, foils and masks and boxing gloves.

READY FOR THE FRAY.

We Do Not Expect to Be Beaten This Afternoon. The game between Carbondale and Scranton will come off this afternoon and there promises to be a large crowd from this city who will witness the fray. Scranton seems to be a little downhearted just at present and their backers do not seem so confident as they have. On the other hand the Carbondale team seems to have gained confidence and there are some who would back them against anybody. Of course we have not had the advantage of so many games as Scranton but their men are changed around so much that they are not likely to play well together. Anderson will probably be in the box for Carbondale and either Patchen or Lucy will catch. This will give us a strong battery and it will be hard to beat.

A. S. BARNES MANAGER.

Will Assume Charge of the Carbondale Laundry. A change has just been made in the management of the Carbondale laundry. A. N. Barnes of Scranton, having assumed charge of the business, Mr. Barnes was connected with the Carbondale laundry in that city and has made a name for himself in that line. He is considered one of the most expert laundrymen in this section of the country and he will at once make several changes in the establishment here. This means better work and therefore large patronage which he will no doubt easily secure. Mr. Barnes says that the greatest care is taken so that very few pieces are

MEETING WITH SUCCESS. Many subscribers Received for the Telephone Exchange.

The work of canvassing the city for subscribers to the new telephone exchange seems to be meeting with great success. So far, there has been no trouble in getting subscribers, especially among the professional men, and this shows how badly a telephone system was needed in this city. There is no doubt as to the exchange being a permanent thing. The work of the exchange has proved satisfactory in every manner and the operators are becoming quite expert.

CONDUCTOR HURT.

A painful accident occurred to Eugene Hudson, one of the conductors on the Traction Company's line yesterday afternoon. Hudson had charge of an open car when he was walking along the foot-board when he leaned too far out and his head struck one of the poles. It was thought at first that he was badly hurt but on examination it was found that there were only several bad bruises.

IMPROVEMENTS COMMENCED.

The improvements on the various school properties have been commenced. Contractor Bryce R. Blair having made quite a big progress in the work. As yet the work has been finished here and will begin on the Brooklyn and South Main street schools where he has also secured the contracts.

SPECIAL TRAIN SERVICE.

Those from this place who attend the baseball game at Scranton today will be glad to hear that the Delaware and Hudson train which leaves this place at 3 o'clock will stop at the Carbon street junction to let off those who so desire. The train from Scranton will also stop to enable passengers returning from the game to get on.

DROWNED IN THE RIVER. A Boat Goes Over the Nanticoke Dam. One Man Rescued.

Between 3 and 4 o'clock Monday afternoon a small skiff with two men in it went over the Nanticoke dam, a fall of about ten feet. One of the men, Walter Drobinski, was drowned and the other, Stanislaw Radowski, clung to the boat which caught on a rock in the middle of the river. Two Pennsylvania railroadmen, Hantz and Welliver, with considerable difficulty, brought Radowski safe to shore. The rescued man said that he and Drobinski started from a place across the river between 10th Street and Sunday to go to Danville in search of work and stopped in Plymouth over Sunday night regarding their trip down the open car and was standing on the deck when he was asleep in the bottom of the boat and that his companion was eating a lunch and probably did not notice that they were in the dam. He also stated that Drobinski had between \$400 and \$500 in his clothes when he was drowned.

It is now stated that 10,000 new seats have been received for the new train, and the new train will be ready to be announced when the floor goes on the road.

Some men were trimming the trees and a falling limb struck the children as they were passing under it. Miss Harvey's face was considerably bruised and she was unconscious for some time. Miss Payne's elbow was dislocated. In this case no one was on the lookout and the children were permitted to pass unattended under the trees. It was falling. They might have been killed.

* Yields Quickly as do other diseases caused by an impoverished condition of the blood, when Bovinine is used. It is not a medicine, but the most perfect food product, containing all the vital principles of lean, raw beef. It is quickly assimilated, and by its wonderful power of creating new flesh tissue and enriching the blood, soon puts the patient, in a physical state where disease can find no footing.

BOVININE.

besides its wonderful effect as a food, is invaluable in such cases as an external application, nourishing by absorption, and creating new, healthy flesh, where the disease is manifested. Dr. H. M. Sanger of Providence, R. I., says that he effected very rapid cures with slight spreading and no suppuration in three cases of erysipelas, two by simply applying gauze saturated with, and the third by injecting Bovinine at the border of the inflamed patch.
