DR. HERZ'S CASE.

Extradition to France.

London, May 3.—In the Bok street police court yesterday morning Sir John

Bridge, the presiding magistrate, heard

arguments upon an application for the extradiction of Dr. Cornelius Herz, who wanted in France to answer charges

of having made threats by letter or otherwise with intent to extort money.

Dr. Herz, who was alleged to have

before the close of the week.

WOOL.-The wool year, says Dun, ended May 1 with more wool in the country than ever before, and probably much more than the entire consumption Washington, May 3 .- In the senate to much more than the entire consumption for the coming twelve months.if not another pound should be imported. Es-timating on the number of sheep of-ficially reported, with weights of fleece. In each state as given by the Manufac-turers' association last year, the clip of 1896 would be about 275,000,000 lbs. Imports in twelve months have been, including wool waste, about 280,000,000 in any year, while the demand for con-sumption is now at least 10 per cent. of two days. The only item that is ex-pected to cause trouble is that providing for the construction of a deep sea har-bor at Santa Monica, California, which is being antagonized by the California senators, and upon which a lively fight is being waged in favor of the rival harbor of San Pedro. So many and di-verse interests in favor of the river and harbor appropriations that no serious difficulty is anticipated in putting them in any year, while the demand for con-sumption is now at least 10 per cent, below the maximum for goods, domestic and foreign together, and the foreign imports of goods represent about 150,-000,000 libs, more raw than in the years difficulty is anticipated in putting them through the senate, notwithstanding the large addition to the drain on the of greatest production and prosperity. These facts would indicate a domestic consumption not exceeding 200,000,009 lbs., unless the demand materially inthe large addition to the drain on the treasury made by the upper chamber. The District of Columbia appropriation bill comes next in order, and after that shall have been disposed of there will only be the fortifications and the gen-eral deficiency appropriation bills to be acted upon by the senate. Republican managers intend, if they can, to put all the appropriation bills through the senate by May 15. creased, while the past year's consump-tion must have left in the country much more than 225,000,000 lbs, old wool. With a supply so vastly exceeding probable requirements, even present low prices can hardly be maintained. Resales by manufacturers who have taken wool against which they get no orders, have formed a considerable part of the sales in March and April, and April sales at the three chief markets have been the smallest known for many ears in any month except in the name months June senate by May 15. This, according to the programme, will leave two weeks clear in which to discuss and adjust in conference the differences between the house and sen-ate as to particular items of appropria-tions, and will open the way to an ad-journment by June 1st. # Fatal \* Pneumonia.

That dreaded disease that temporarily compels a cessation of the work of all the greater organs of the body, thus stopping the digestion of food, the creation of new tissue, brings the patient to a point where the flickering flame of life is blown out like the light of a burnt-out candle. To make recovery probable, keep up the patient's strength - give him

# Bovinine

that great concentrated essence of the vital principles of lean beef, the strength of which is enhanced by our special cold process method of manufacture, it can be retained by the weakest stomach, and in every instance makes blood, flesh and strength. Dr. Charles Wilson, Atwell Ave., Providence, says; "My wife suffered a severe attack of pneumonia; after passing the acute stage fearing heart failure, I gave her freely Bovinine and port wine, equal parts. I have never seen such good results. I am a hearty believer in Bovinine for quick nutrition." Over 25000 other physicians endorse

Even at present prices they are not making money if proper sinking funds are charged against coal extracted to reimburse the owners of the properties for capital expended in the purchase and improvement of collieries. It is figured by people who have gone very deeply into the anthracite question that coal sold on the basis of less than \$4.50 per ton for stove at tide-water is

that coal sold on the basis of less than \$4.50 per ton for stove at tide-water is being mined and sold at a loss. Very few of the companies charge a sinking fund against coal extracted, but all should. There is only a certain amount of coal in the ground, and when any is taken out it can never be replaced; yet, in solite of this, some companies are adding year by year to the capitali-zation of their collieries, notwithstand-ing the steady process of exhaustion that is going on.

### RIOTING IN BILBOA.

Socialists Help Themselves to Liquor and Become Wildly Drunk."

Madrid, May 2.-Serious rioting occurred in Billao yesterday. The So-cialists, who were celebrating May day, attacked a number of miners who were at work, and stoned them until they were driven away from their posts, The rioters then looted a number of shops and canteens, smashed in the heads of wine casks and tarrels, and became madly intoxicated. One man who was acting as care

taker of a canteen, was shot dead as the penalty of his resistance to the rioters.

#### BICYCLES AS BAGGAGE.

BICYCLES AS BAGGAGE. From the Philadelphia Press. New York state has passed a law re-guiring railroad companies to carry bley cles as baggage. Both law and justice re-guire this in all states. The baggage prin-ciple is clear and simple. A common car-rier transporting a passenger is bound to give carriage to what ordinary need and mare as the board of trade. And usage make the accompaniment of a trip. This varies at different times. The small haircloth trunk which was once packed in the back of a coatch has been enlarged and increased in weight with new means of communication. Lord Salisbury's Cabinet Does Not Share His View That It Is Coming.

London, May 3.-Prime Minister Sal-isbury's arrival at the belief that at an early period woman suffrage will

be conceded, as shown in a speech de-livered by him on last Wednesday, does not mean that the duestion is before the cabinet. On the contrary, it is improbable that the present govern-ment will even consider the question. A majority of the ministers strenuously oppose the granting of the franchise to Mr. Arthur J. Balfour, First Lord of the treasury, is the only mem-ber of the cabinet who sided with Lord

Salisbury in this matter. Cardinal Vaughan, archbishop of Westminster, has written to the Women's Suffrage committee, saying that the franchise ought to be granted to them. It would be just and beneficial, he adds, and would tend to raise the character of legislation.

and, on the other hand, a degree of secrecy will be maintained as to con-certed action: this in view of hostile sentiment easily aroused by movements of so-called "trusts." Moreover, the York legislature is still in session, and to be reckoned with until its ad-
