ARCHBALD.

Patrick Moran, of the East Side, was seriously injured at work near White Oak breaker yesterday morning. He was employed at the foot of the culm plane and was struck by an empty car as it was descending. Mr. Moran had his back to the car and did not hear it coming until it was too late to get out of the way. He was thrown on the coming until it was too late to get out of the way. He was thrown on the track with such force that three of his ribs were broken and he was also injured internally. Mr. Moran is quite old and it is feared that he will not recover from the shock he sustained.

Constable McHale yesterday arrested a young man named John Beans, of New York state, for hearing on a charge of theft made by Anthony Curman, of Rock Terrace. Lately Constable McHale learned that Beans was in Wilkes-Barre and he traced him from that city to the Hampton breaker where he was captured. He was taken for a hearing before 'Squire Gildea and was committed to the county jall to await trial. Beans admits the stealing of the money.

The remains of the late Michael Murray, of the East Side, were laid to rest in the Catholic cemetery on Sunday afternoon. At 2.30 o'clock the body was borne to St. Thomas' church where the pastor, Rev. T. J. Comerford, held services and made a brief address in culosy of the deceased.

Geraldine, a little daughter of Michael Daly, of South Main street, was eriously burned on Monday afternoon. While playing with matches her clothing caught fire and she was burned severely about the body. But for the timely arrival of her elder sister she would probably be burned to death.

Lawrence O'Hara bought from Father Comerford the old parochial residence and will move it across the creek to his lot on Pine street, opposite Cosprove's.

CAVE-IN ON THE WEST SIDE. Property Damaged by the Sinking of the Earth.

There has been two quite bad cave-ins on the West Side lately in which property has been damaged consider-ably. One of the settlings occurred in the garden of Mrs. Gill and is about

fifteen feet in diameter.

The hole is about thirty feet deep.
At a little distance from this cave-in is another much larger one, a plot about thirty feet in diameter, having gone down twenty-five feet.

The Old Homestend.

It is not at all wonderful that "The Old Homestead" retains its hold upon the American public. With every recurring year this genuine American play returns and every year it is cordially greeted and as heartily enjoyed as ever. One cannot help loving homely old Joshua Whitcomb, the big hearted New England farmer; he is so real, so human. Every year the people so human. Every year the people flock to see "The Old Homestead," to keep themselves in the brisk New Eng-land air that pervades the play and re-fresh themselves in the wholesome atmosphere Denman Thompson has so ably presented.

To Improve the Park.

The trustees of Alumni park have decided to make many improvements at the park this summer. Among other things a grand stand capable of holding three hundred and fifty persons will be but up and a quarter-mile bicycle track built. This will add much to the popularity of the place. There is already some talk of having the league games of baseball played there as it will bring many persons from Jermyn and Archbald who otherwise would not attend.
