HAHNEMANN MONUMENNT

Pour Thousand Dollars Appropriated for the Foundation.

One Amendment Bitterly Contested. Members of the House Vote to Put Themselves on Equality With Senate in Matter of Yearly Clerks.

Washington, May 8,—Among the dozen or more bills which were passed by the senare today because they were unobjected to, was one permitting the erection in Washington of a monument in honor of Samuel Hahnemann, the founder of the medical school of homoeopathy, and appropriating \$4,000 to defray the cost of the foundation. The only restrictions imposed in the bill is that the monument is not to be

placed in the capitol grounds.

The consideration of the river and harbor bill was concluded with the exception of one amendment involving the bitterly contested question of the loca-tion of a deep water harbor in southern California. The committee on com-merce reported an amendment to the bill providing for a breakwater and outer harbor at Santa Menica; while the two senators from California and Mr. McLachlan, the representative from the Los Anxeles district, oppose that location and favor the selection of San Pedre, having on their side of the questhen the reports of two boards of army engineers specially sent out to examine the matter. Senator White Oben, Cat) addressed the senate in opposition to the committee amendment and had not finished his argument when the senate at 5.15 adjourned until to-

YEAR AROUND CLERKS.

After several years discussion and as many unsuccessful attempts, members of the house today voted—130 to 108—to place themselves on an equality with the senate in respect to the matter of providing themselves with clerks the year around instead of for the sessions. year around instead of for the sessions of congress only. It was not until 1853 that the house went even so far as that. Today's action was preceded by an anmiated debate of an hour or more, in which a dozen members took part. in which a dozen members took The principal opposition to the retion introduced by Mr. Hartman (Rep., Mont.) and reported by the committee on accounts, without recommendation, was upon the ground that the treasury was not in condition to meet the inwas upon the strong the strong was not in condition to meet the increased expense, bu two or three members suggested that the services of clerks were not needed. The resolution advanted by Messrs. was warmly advocated by Messrs, Hartman and Henderson (Rep., Iowa). Before being passed the resolution was amended so as to exclude representatives who are chairmen of committees having annual clerks.

BILLS PASSED.

Among the bills passed during the session were the following: To quiet titles of certain bona fide purchasers of public lands. To quiet titles to lands in Aredondo Grant, Columbia county, Georgia. Authorizing the construction of life-saving stations at Point Bonito, Cala., and Port Huron, Michigan. Ap-propriating \$5,000 to enable the president to deport about 500 Canadian Creek Indians in Montana to the border and deliver them to the Canadian author-Twenty-four private pension

At 4.20 o'clock the house took a recess until 8 o'clock, the evening session to be for the consideration of private pension bills. At the close of that, the house adjourned until Monday.

FINANCES SOUND.

Encouraging Reports from the Business World-Monetary Conditions Not Disturbed by Large Shipments of Gold.

New York, May 8.-R. G. Dun & Co in their weekly review of trade tomor-row will say: That exports of \$5,850,000 gold this week have produced no monetary dis-turbance is at once proof of the sound-ness of the financial conditions and of

the prevailing confidence in better things to come. It does not matter whether the gold is required for Russia or anywhere else: it would not go from this rather than other countries if there were not balances to be met. Much of the hesitation at present

is due to temporarily reduced demand in some industries, and in iron and steel the power of the new combinations is being generally tested by refusal of orders, so that production exceeds consumption, but consumption exceeds new buying. The general irregularity of prices and slackness of demand for finished products do not prevent the marking up of prices by combinations, but are largely due to doubt whether such prices as are fixed can be maintained. Pig iron is weaker at the east and also at Pittsburg, and most fin-ished products are weaker with re-markably narrow demand. Minor metals are inactive, with copper weak tin stendy and lead slightly lower, and tin stendy and lead slightly lower, and American tin plates 39 cents below for-

eign.
For textile manufacturers the situation is trying. Cotton mills have a fair-ly active d mand, though not equal to ly active demand, though not equal to their normal output and for many mouths have been accumulating goods, hoping for better things, so that some are now stopping, although the demand for some grades, with higher prices for cottons, has helped to a small ad-

vance in prices.

Cotton speculation has lifted the spo prices to 8.31 cent and profits have been realized from the men who have sold cotton they did not own, but it is still the fact that the outlook for next fall's erop is unsually favorable, while socks here and abroad exceed all possible demands until Sept. 1.

Failures for the week have been 238 in the United States against 227 last year and 24 in Canada against 34 last
