Remember THIS

Goodness and cheapness go hand in hand at this Clothing Store. It is a combination that appeals to every kind and condition of

humanity. Even rich men don't want to pay more than they have to. The poor can't afford it. Both desire good Clothes. Careful buying on our part is responsible for the high grade of Clothing we sell-great purchases secured direct from the makers are responsible for the low prices.

Clothing On Credit

People in general have a wrong idea that credit means two prices. Credit with us means the lowest possible price and the best possible Clothes. A large part of the business of the world is carried on through credit. There is no reason why the same principle should not be applied to the selling of Clothes. We have applied it and the consequence is that a great many men in Scranton are now wearing our stylish

garments and paying for them at the same time.
