CHAPTER OF ACCIDENTS.

hree Men Seriously Hurt Yesterday Afternoon Yesterday afternoon Frederick Mills was seriously hurt at his planing mill by a heavy timber falling upon him.

Mr. Mills was working on a building in the yard when some irons bosened and caused the timber to fall. The irons

struck him across the back of the head and made several scalp wounds. The timber inflicted the most serious injuries and it is feared some are in-ternal. He is resting a little easier to-day but is still in great pain.

Another unfortunate was Patrick Mulianey, who fell into the pit at the head of No. 20 and broke his arm. His right shoulder was also dislocated. He was taken to the hose that was taken to the hospital where he is doing nicely. George Porter, of Berkett street, a

brukeman on the Delaware and Hudson road, was quite badly hurt at 7.10 Wed-nesday night near Uniondale. He fell from the engine while it was going quite rapidly and sustained two broken ribs. He was also badly bruised about the body but they are not serious. Dr. Bailey attended him.

COLUMBIAS' RUNAWAY.

Things Were Made Lively by Their

Big Gray. Yesterday morning the large gray horse owned by the Columbia Hose time caused considerable excitement
dust before the horse reached Church
street the wagon collided with a telegraph pole and the horse broke loose
and was soon centured. The wagon,
however, was completely demolished.
The cause of the runaway was the unfastening of a tug near the collar which
caused the animal to become unmanageable.

MARKET AND STOCK REPORT

Wall Street Review

New York, May 14 - Duilness was the predominant feature at the Stock Exchange today, but the market while quiet, was decided firm throughout. London was mainly responsible for the higher range of prices, foreign houses having purchased between 10,000 and 12,000 shares of various stocks and fair amounts of railway bonds. The reduc-tion in the posted rates for sixty day exchange induced local operators to buy while the commutation of the sentences of the Transynal conspirators seemed to exert a good effect on foreign traders A belief that a sound money candidate will be nominated at the St. Louis convention gained ground and this also had its influence. The New York city 3½ per cent bonds recently purchased by Vermilye & Co., of this city, and men's edition of the The Scranton Tri-bune should place their orders with Walter Switt, who has charge of the reported in certain quarters that the loan had been over subscribed, but others contended that the bonds had not been taken with avidity. Late in the day the matter was settled by press advices that the loan had been barely taken on a 3 per cent, basis. The Massachusetts loan sold rapidly for the reason that the vendors were content with a fair profit. The successful plac-ing of the loans referred to and the recent purchases of railway securities by European bankers ought to have an important influence on the gold export movement. The improvement in the general run of active stocks was equal

to kal per cent and was well dis-tributed. A few of the specialties scored exceptional gains, Buffalo, Rochester and Pittsburg rising 34 to 6014 and Bay State Gas 214 to 3034. Specu-lation closed firm. Net changes show gains of Wal per cent, outside of Bay State Gas and Buffalo, Rochester and Pittsburg preferred, which advanced 2¼ to 4% per cent. Total sales were 108,565 shares.
