#### BUSINESS BREVITIES.

BIG COAL CONTRACT .- A contract for 140,000 tons of Nova Scotia coal has been closed by the Canadian Pacific railway with the Dominion Coal com-Canadian Pacific used last year, and indicates that the road expects to have considerable traffic this year. The Grand Trunk has contracted for 130,000 tons from the same company, 70,000 tons in excess of last year's contract. Of the whole amount, 100,000 tons are to delivered at Montreal and 20,000 at

ANTHRACITE TRADE.-The anthracite coal trade, while very quiet, is as firm as a rock. Quite a good deal of tonnage was contracted at the April This is being moved and will last of the month. There is enough to meet all demand, and for this reason very little new business is being offered. This creates the impression of a dead-The production thus far this year to June 1 will be 15,750,000 tons. During the corresponding five months of 1895 the production was 16,900,000 tons, or over a million tons more. Therein lies the secret of the stability at the present time. It is probable that the month of June will run three and one-haif million tons, making seventeen and one-fourth million tos for the six months. On a basis of 45,000,000 per year this would mean 23,000,000 tons for the next six months, when the demand is best and grices always the highest.—Philadel-phia Times.

#### WON HIS CASE.

#### A Philadelphia Litayer's Idea of Thrift and How It Worked.

Over in Philadelphia dwelt a young tw student who fell in love as he was about to be admitted to practice, say the New York Journal. The girl's father also belonged to the profession and was reckoned pretty smart, as Philadelphia lawyers go. The old fel-low gave a partial consent to the young man's pleadings, but concluded he would try the student and see if he was worthy to be his son-in-law. So he

"The case of Blank against Blank has been on the calendar several years. It has been tried, appealed, decision reversed, tried again and comes up again for argument at the next general term. I am counsel for the plaintiff. I have had the case four years but now I turn it over to you. Here are the papers; see what you can do."

The young man took the papers and went to work with a vim born of lovefor if he won the case should he not
also win the bride? At last life seemed
to him worth the living. He studied the
case thoroughly. He consulted the authorities and was loaded and primed for
a brilliant argument when the court a brilliant argument when the court convened. He made his plea and won the case without any trouble. With a heart overflowing with joy

he returned to his prospective father in-law and, slapping down the papers

See here, sir: the case is won! These are the proofs. What you tried for years to do I have accomplished at a single term of court. Now, may I have

single term of court. Now, may I have your daughter?"
The old fellow looked up with a smile upon his face as he replied:
"I think you a fool and you can't have my daughter. But I will just give you a little gratuitous advice: It is true I had the case for four years without winning it, and it is also true that I wads thousands of dellars out of it. made thousands of dollars out of it. But you have gone and settled it; and what have you made? About \$50. No. sir, you can't have my daughter!"

#### SHERMAN ARGUES FOR THE TARIFF

Issue of More Certificates.

SOME WARM WORDS IN THE HOUSE

Mr. Walker Interrupts Mr. Dalzell and the Latter Retorts With Interest. Immigration Question Disposed of. The Corliss Bill Agreed To.

Washington, May 20.—The last but one of the general appropriation bills— the one which provided for fortifications and other works of defense—occupied the attention of the senate today, and was passed before adjournment. It carries nearly eleven millions of dollars. about five million more than it carried when it passed the house. The princi-pal item of increase is the one of \$3,115.-000 for gun and mortar batteries. There was little or no controversy over any of the provisions contained in the bill; that a rather important discussion was precipitated by an amendment offered to the bill by Mr. Gorman (Dem., Md.) This amendment proposed to authorize the issue of one hundred millions of treasury certificates to indebtedness, bearing three per cent in order to meet the expenditures called for by the appropriation bills of th present session, the agregate of which Mr. Gorman put

at \$600,000,000. The amendment was opposed by Mr. Sherman (Rep., Ohio) who declared that never before had such a proposition been made to meet the current ex-penses of the government in a time of profound peace, and who argued that the proper course for the senate to pur-sue was to take up the tariff bill passed by the house in the early part of the session, leave off the free silver amendment, which the senate had attached to it, and then pass it with such of the manufacturer to as at the height said that he would tear up all the apof the season is that their factory at propriation bills rather than make such propriation bills rather than make such a confession of bankruptey. Mr. Gor-man argued that the deficiency in the treasury could not be met in any other way that that which he proposed. At the close of the discussion the amendment was laid on the table by a vote

RIVER AND HARBOR BILL. Earlier in the day a conference report on the river and harbor bill was presentde by Mr. Frye (Rep. Me.) and an effort was made by him to get immed-iate action on it. That was resisted however, by Mr. Bacon (Dem. Ga.), who had learned that the appropriation for the harbor of Brunswick, Ga., has been struck out in conference, and who wanted time to argue the matter before the senate, and so Mr. Frye rather reluctantly consented to have the report go over till tomorrow. The only ques-tion that was not settled in conference is the one relating to the deep sea har-bor in Southern California. In the preliminary discussion there was some sharp criticism of the disposition of Every lady should take advantage senators to adjourn congress without attention to the grave and important questions regarding action.

The house disposed of the immigration question today by passing the Mc-

Call educational test bill together with the Corliss bill, intended to protect the lake cities from Canadian competition. The latter was agreed to, 121 to 45, and the amended bill passed 195 to 26. A record of the vote by yeas and nays was refused, only 36 members rising to second the demand by Mr. Fitzgerald (Dem. Mass.) therefor. The consular inspection bill, proposed by Mr. W. A. Stone, (Rep. Penna.) was rejected 75 to 131. He, too, was unable to get a vote of record. The debate on the question in by Dem., S. C.) and Danford (Reb., Ohlo) in support of all the bills; by Messrs. McCall (Rep., Mass) and Bartholdt, (Rep., Mo.) in support of the educa-tional test bill; and by Messrs, Mahany (Rep., N. Y.) and Hendrick (Dem., Ky.) against any additional restrict ons. The continuation of the debate was preceded by a sensational outbreak in the Republican ranks against the management of the majority. It was pre-cipitated by the presentation of an order from the committee on rules, by Mr. Henderson (Rep., Iowa) setting aside Thursday and Friday (private bill under the rules) for the consideration of measures reported from the commit-tee on labor. It was opposed by Messrs. Walker (Rep., Mass.), Pickler (Rep., S. D.) chairman of the committee on invalid pensions, and Mahan (Rep., Pa.) chairman of the committee on war claims, who protested against depriv-ing the house of the opportunity to con-sider and dispose of the bills on the

MR. WALKER EXPLAINS. Mr. Walker vehemently denounced the "leaders" and asserted that their reign would come to an end with this congress: that in the next house, rules would be adopted by which business could be transacted in accordance therewith, or nothing would be done. He condemned in hitter terms the policy which prevented the government from paying its honest debts, denouncing it as a shame and disgrace such as no other country in the world labored un-der, and asserted that the same policy had been pursued in all the congresses of which he had been a member, by de-sign of the leaders, "although I have been a member of congress for eight years," he dramatically exclaimed, "I get no more consideration than a dog." Mr. Mahan gave notice that in the next session of congress no bills would be passed by unanimous consent, that they

must all take their chances on the consideration of the calendars.

The management of the house was defended by Messrs. Cannon (Rep., Ill.). Henderson (Rep., Ia.) and Dalzell (Rep., Pa.) While the latter was speaking, Mr. Walker interrupted him to say "that demagogery won't go,"whereupor Mr. Dalzell retorte,d white with pas-

sion, "I will not suffer myself to be in-terrupted by the impudenc of the gen-tleman from Massachusetts." Mr. Mahon's motion to recommit the order with instructions to give the comnittee on labor next Tuesday instead of Friday, was defeated 55 to 128, and President Cleveland's message veto-

ing the bill to pension Lydia A. Taft, the divorced wife of a deceased soldier. was read and referred.

#### IRON AND STEEL TRADE.

Resume of the Industries From Bulletin of the American Steel Association-Product of 1895.

of the American Iron and Steel asso-ciation this week in its resume of the ciation this week in its resume of the iron and steel trade, says: "While the demand for iron and steel in the early months of 1896 has declined, as compared with the demand in the summer and in the closing months of 1895, influences have been at work which have thus far prevented a ruinous shrinkage in prices. In September, 1895, the price of Connelsville furnace coke was adof Connelsville furnace coke was advanced from \$1.35 to \$1.60 per ton, and in December it was still further advanced to \$2 per ton, which is the pres-ent quotation. Early in the present year an understanding was reached by the producers of Lake Superior fron ore which closely foreshadowed a material avandce in oron ore prices, and in March these prices ware definitely fixed for the year at an advance averaging over \$1 per tone above the prices of 1895. These advances in the price of raw materials compelled the manufacturers of Besseiner pig iron to increase their prices late in March, and the ad-vance then secured has since been fair-ly well maintained. Early in April an understanding with regard to prices was also reached by the producers of Bessemer steel billets, by which the price of billets was promptly advanced, this advance being rendered necessary by the increase in the price of Bessemer pig iron. Other iron and steel prices have shown varying tendencies in April and May. The improvement in the de-mand for iron and steel in 1895 and the increase in iron and steel prices were accompanied by a general advance in the wages of iron and steel workers, coke workers and coal miners. This advance was almost without exception voluntary on the part of the employers

and it was also spontaneous. "The recovery of our iron and steel industries in 1895 from the prostration of 1893 and 1894 was not only complete, but it was remarkable in the megnitude of the results that were attained. In most branches of these industries the largest production ever recorded was achieved in 1895. Steel rails form the only notable exception to the r ule of largest production in that year.

"A summary of the leading results

established by the statistical details to be presented hereafter is worthy of the prominence that is here given to it. In 1895 the United States made 9,446,308 gross tons of pig iron, 4,909 128 tons of bessemer steel ingots; 1,137,182 tons of open hearth steel, and 6.114,834 tons of steel of all kinds and rolled in all 6,189,574 tons of finished iron and steel, including rails; there were also shipped in the same year 10,438,268 tons of Lake Superior fron ore and 8,244,488 net tons of Connellaville coke. The year 1895 was the champion year in the produc-tion of American fron and steel."

#### END OF RAYMOND CASES.

Verdicts of Not Guilty Rendered in Case of Middletown Bankers. tions.

He assaulted Fisher with a club and revolver, nearly killing him, and then attempted to kill the girl. The evidence now shows that he set fire to the house while crazed with liquor, having fired five shots into the lounge, which caught
