## MARKETS AND STOCKS

Wall Street Review.

New York, May 22.—The market at the Stock Exchange was one of specialties. Today Sugar, Tobacco and admination were the favorites of the room traders who still control the limited speculation. Sugar gained nearly two points, moving up to 12% on buying by brokers, who, it is said, are acting for the Havemeyer interests. The recent decline in refined and the passing of the new sugar bounty bill by the Bundrath, made a number of bear on the stock and the short interest was quite large up to yesterday. The rally then and the further advance today rather alarmed the bears, who were among the heaviest buyers in the closing dealings. Tobacco rose 23 per cent. to 672 and closed at the top figure. Some of the huying was hased on the idea that a settlement with the western competitors of the company was not far off. Manhattan rose from 102½ to 16%, the refusal of the appeliate division of the Supreme court to confirm the rapid transit commission report, having started up a lively demand for the stock. The decision practically kills the underground rapid transit scheme. The railway list started off weak on lower cables and the withdrawal of \$1,00,000 gold from the sub-treasury for export. The loss, however, was merely fractional and in the afternoon session higher prices were the rule. An impression prevals that McKinley or those in charge of of his canvashave assured the banking interest of the east that he is in favor of the gold standard. This, with statements by bankers that exports of the metal are likely to dwindle to small proportions in the near future contributed to the good feeling which prevailed in the late dealings. The statement of the Northwest road for April showing an increase of 303,000 strengthment of the Grangers. Speculation for A. P. LENA & C.O., correspondents for A. P.
