

EASTERN LEAGUE BASE BALL GAMES

Scranton Had an Important Part in a Very Poor Game at Rochester.

WILKES-BARRE WAS FORTUNATE

Successful in Taking a Game from Syracuse by a Narrow Margin. Where the Clubs Play Today. Standing of Eastern and National League Clubs—Amateur Base Ball Notes.

Yesterday's Results. Rochester, 20; Scranton, 5; Wilkes-Barre, 5; Syracuse, 3; Springfield, 6; Buffalo, 10; Providence, 16; Toronto, 4.

Scranton was slaughtered at Rochester yesterday. Johnson was batted out of the box in the second inning and the game throughout was featured by very bad playing on the part of the club that represents this city.

Wilkes-Barre increased its percentage by defeating Syracuse. Springfield defeated Buffalo.

Percentage Record. Rochester, 20; Syracuse, 3; Springfield, 6; Buffalo, 10; Providence, 16; Toronto, 4.

THIS IS NOT HARD LUCK.

Scranton Lost Because It Could Not Play the National Game Even a Little Bit.

Special to the Scranton Tribune. Rochester, May 26.—The Scrantons added another to their long string of defeats and put up one of the poorest exhibitions of the national game ever seen in this city this afternoon.

Johnson was batted out of the box in the second inning. Brown succeeded him, but he did no better, and the home team kept right on plucking bunches of swath. The visitors fielded poorly. A strong wind blew across the diamond and helped make doubles out of singles and raised dust which somehow or other must have imbedded itself in the eyes of the Pennsylvanians.

Board, Dooley and Johnson also placed the ball where they wished. Boten, who is ordinarily a left handed batter, turned the other way in facing Brown, who is a "south paw."

The visitors obtained three runs in their half of the second. After Hornor had gone out Raftery made a double. McGuire drew four bad ones, and both were advanced a base after Johnson flew out on Latham's single, eventually scoring on Hutchison's single to right.

Meaney sent Latham across the plate with a single, but Ward flew out. The Scrantons obtained no more runs until the seventh inning, when two bases on balls and singles by Meaney and Raftery netted two runs. That ended their run getting.

WILKES-BARRE WINS ONE.

Victorious in the Game with the Syracuse Stars Yesterday.

Syracuse, N. Y., May 26.—Free batting by both teams and some good work in the outfield made today's game with the Wilkes-Barre pleasant to watch if it did result in the downfall of the Stars.

The advertising rates are \$5 an agate line, or \$20 an inch, and the advertising space is limited to fifteen columns. Mr. Leonard tells me that the Youth's Companion stands second of all papers in the world for circulation and has nearly 1,000,000 paying subscribers.

The Ladies' Home Journal of Philadelphia is third with nearly 900,000 copies, and Mrs. G. M. Warren's, with over 600,000 issued monthly. Curiously enough Mr. Gannett and Mr. Munsey used to be neighbors in Augusta and Mrs. Gannett's magazine was published in the same building.

Mr. Munsey was working a key in a telegraph office at the Maine capital.

A SUBSTITUTE FOR BLOOMERS. They Were Neither Costly Nor Fashionable, But He Thought They Would Do.

From the Chicago Post. He was a mean man—a very mean man for nothing else admitted.

"You want a pair of bloomers?" he said, inquiringly. "I really ought to have a pair," she replied. "All the ladies in our bicycle club intend to wear them this summer."

"Of course," he returned. "And you very naturally want to be in the swim. I don't want to be the only one in skirts when we turn out as a club," she answered.

"But bloomers," he suggested a minute later, "are rather expensive, I suppose?" "Attractive ones are not to be had for nothing," she admitted.

"Attractive ones are not to be had at all," he replied promptly. Then he added hastily, "But of course that's my idea and has nothing to do with the cost."

"Some of them are attractive," she protested. "We'll pass that question," he replied, "and come to the main point. You think you ought to have a pair of bloomers, but you don't know exactly where they are coming from, as you have already spent your regular allowance for clothes."

"That's it," she said. "Unless I help you out you will have to devise some scheme for getting them for me," he said.

"I thought perhaps you might suggest some way," she began hesitatingly. "I don't think much of such things, but I will put my feelings to one side and be generous."

"If I help you, would," she cried. "Yes, I will be generous," he repeated. "You may have my old pajamas. Now wasn't that a cruel man?"

TWO EXTREMES IN SKELETONS. The Largest Is Over Eight Feet and the Smallest Two Feet.

The largest and smallest skeletons of humans ever preserved are kept in the museum of the Royal College of Surgeons, in Lincoln's Inn Fields, London. One is 8 feet 4 inches in height. The other is less than 2 feet.

Charles Byrne, the famous Irish giant, who was more generally known as O'Brien, died in 1783, when he was 22 years old. He occupied his leisure in keeping with his huge physical proportions. So keen was his anguish over losing all his property—to wit, a pair of boots, that he drank a cask of ale one day. The day following he was dead.

Byrne had a great dread of becoming a dissecting room subject. He begged his surgeon to let him be buried in the channel and throw it overboard.

Hunter, the English surgeon, learned of this arrangement, and by paying the body a sum of £50 he prevailed upon them to carry out their bargain to the letter, but to attach a rope to the body and drag it up again after it had been immersed. The fishermen served two masters and Hunter got the body.

The tiny skeleton is that of Caroline Crachami, the Sicilian dwarf, who was exhibited in Europe in the early part of the century. The child did not grow after birth, and before she reached her teens she died.

Her body, it is said, was sold to a British surgeon by her parents. Beside the giant's frame stands one of the boots he wore when he died. The skeleton of the dwarf can be slipped into it as easily as a pipe stem.

GREW WEALTHY ON \$1.25 A DAY. Competence Amassed by a Frugal Laborer from the Green Isle.

New Castle, Pa., May 25.—Bernard Carville has solved the problem of getting rich on \$1.25 per day. Thirty-three years ago he arrived here from Ireland without a cent, and today he is worth \$30,000. Since his arrival he has toiled incessantly in a factory, and he has made his fortune by strict economy, and by investing his savings in real estate.

Until last week he lived in the most frugal manner, but becoming ill, his physician pointed out the folly of a man 70 years of age, with a wife and a family, to hoard treasure. Carville has decided to quit work, and tomorrow will leave for Iowa to see his wife and children in the palace car. He will then go to New York, where he will sell his real estate.

Carville's life is a lesson to every man who will inherit his wealth.

THE LARGEST CIRCULATION. It is Commanded by a Monthly Magazine Called Comfort.

W. E. Curtis, in Chicago Record. I met yesterday Mr. Leonard, one of the managers of the paper which has the largest circulation of any publication in the world, although I had never heard of it before.

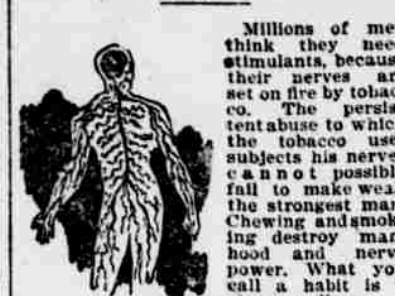

It is a monthly, published in Chicago, Mo., and has reached 1,250,000 circulation this spring, which is distributed through every state and territory of the union. The paper is called Comfort, and it was started only nine years ago by W. H. Gannett of Augusta, who, when he began to prepare the copy for the first issue, he never had the slightest experience either as an editor or a publisher. No line from his pen had ever appeared in print until the first copy of Comfort came off the press.

He had failed as a farmer and as a merchant, and thinking that journalism was his sphere, he decided to invest what money he had left in a paper for country people, and fixed the subscription price at 25 cents a year. Every line in the first seven or eight numbers he prepared himself, and he did everything else connected with the publication except setting the type and running the presses, which he could not do because of his ignorance of the printer's art, but he made a hit and now employs first-class contributors, and runs a business that is better than a gold mine. The paper always contains a

TOBACCO-TWISTED NERVES.

The Unavoidable Result of the Continued Use of Tobacco.

Is There a Sure, Easy and Quick Way of Obtaining Permanent Relief from the Habit?

Millions of men think they need stimulants, because their nerves are set on fire by tobacco. The tobacco user subjects his nerves to a torturing and nerve-choking process. Chewing and smoking destroy man's power. What you call a habit is a nervous disease.

To tobacco in the majority of cases deadens the feelings. You may not think tobacco hurts you, but how are you ever going to tell how much better you would feel without it, unless you follow the advice of Postmaster Holbrook:

CURED BY CIGARETS OUT OF ME. Holbrook, Nev., June 13. Gentlemen—The effect of No-To-Bac are truly wonderful. I had used tobacco for forty-three years, a pound plus a week. I used two boxes of No-To-Bac and have no desire for tobacco since. I gave two boxes of No-To-Bac well and strong by West who had used tobacco for forty-seven years, and two boxes to Mr. Williams, and neither of them have used tobacco since and they say they have no desire for it. Over fifty that know of have used No-To-Bac through my influence, and I only know of one case where it did not cure, and then it was the fault of the patient.

I was 60 years old last week. I have gained seventeen pounds in flesh since I quit the use of tobacco. You can use this letter, or any part of it, as you wish. Yours respectfully, C. E. HOLBROOK, P. M.

You say it is wonderful. Indeed, it is. No-To-Bac cured over 300,000 cases just as the patient saw. It is a man named No-To-Bac. Your own druggist guarantees a cure. Get your booklet, "Don't Tobacco Sell and Buy," and you will receive a written guarantee of cure and free sample, mailed for the asking. Address The Strong Remedy Co., Chicago or New York.

FLIRTING IS DANGEROUS. In Sicily It Often Results in the Death of the Man.

From the Queen. In Sicily young men who are eligible parties have to exercise extreme care in their demeanor toward young unmarried ladies. To dance with them so often as to be remarked, to attempt to talk to the alone, is to use the ingenious expression of an Italian friend of mine, to be expected to make you a matter of life and death.

"You think you ought to have a pair of bloomers, but you don't know exactly where they are coming from, as you have already spent your regular allowance for clothes."

"That's it," she said. "Unless I help you out you will have to devise some scheme for getting them for me," he said.

AT MUSIC HALL TONIGHT.

First-Class Boxing Exhibition Is Promised. John Gilbride, of the South Side, called at the Tribune office last night and wished to have it announced that he is willing to put the gloves on with either Billy Vernon or Hayden at Music Hall tonight for three rounds.

Vernon and Hayden will give a 6-round exhibition, and those who claim to know say that it will be worth witnessing. A programme has been arranged that will furnish first class entertainment. Harry Zeigler, of Philadelphia, will be on hand to display his skill in light weight boxing and some one will be secured to go in against him.

The first bout will be introduced at 8 o'clock sharp. The exhibition has been arranged for the purpose of giving Hayden a chance to show his ability, since his match with Champion Judge has been canceled on account of Mr. Judge's sprained ankle.

MRS. H. G. BACON DEAD. She Was a Member of Scranton Typographical Union.

Mrs. H. G. Bacon, of 506 Lackawanna avenue, died at 2.30 yesterday morning. She had been ailing for some time but was not seriously ill until a few days ago. Her husband and a family of five survive her. The latter are John, Charles, Myra, Lida, and Martha.

Mrs. Bacon was a member of Scranton Typographical union. The funeral will be held tomorrow afternoon at 3.30. Services will be conducted at the Gospel Tabernacle church, Dunmore, and interment will be made in Forest Hill cemetery.

A Self-Proclaimed Ass. A story is told of a certain committee meeting in which the proceedings commenced with noise, and gradually became uproarious. At last one of the disputants, losing all control over his emotions, exclaimed:

"Order! Order!" said the chairman gravely. "You seem to forget that I am in the room."—Household Words.
