Decision of Alderman Blair in Case o of Williams Against Richards---Legislative Fight in First District.

"It's the law, but it's mighty hard medicine to take," remarked Alderman Blair in reference to that case of Will-iams against Richards, in which he iams against Richards, in which he was called upon to make a decision. The case was mentioned in The Tribune. A 4-year-old son of David Williams, of North Hyde Park avenue, threw a stone through a window in the residence of George Richards, on North Main avenue. Richards swore out a warrant for the arrest of the boy's father, charsing him for the son's misther, charging him for the son's mis-behavior and asking for damages to the extent of a few cents over \$1. At-torney W. R. Lewis represented the defendant. The alderman withheld his decision for two days in order to give the attentive to charge his the attorney a chance to prove his e, that the father was not re-de. Here is the opinion of the alderman founded on Attorney Lewis'

law quotations;

"The general rule is that a father is not liable for the torts of his junior child. • • • A parent cannot be held liable for the wilful trespasses of his infant children when he neither as-sents to or ratifies them. • • On the whole it may be stated that as a rule a father is not liable in damages for the torts of his child, committed without his knowledge, consent, par-ticipation, or sanction, and not in the course of his employment of the child."

IN THE FIRST DISTRICT.

There are at present about six promi-nent candidates in the field for the Republican legislative nomination in the First Legislative district. Three are from the North End; three repre-sent Hyde Park. Harry Hatton, Isaac Jones and M. E. Sanders are from the upper part, and E. E. Robathan, H. D. Jones and Hon. John R. Farr are the likely West Side men. There is not much popular interest in the contest at the present time. Seldom is it men-tioned in conversation among the voters, save when the activity of some of the candidates calls for comment.

General Orders, No. 7.
Comrades:—The thirtieth day of this month will mark the thirtieth anniversary of Memorial Day. Yes, comrades, for thirty years the Grand Army of the Republic with its friends have gathered the first flowers of spring, and scattered them with sacred thoughts on the graves of our fallen comrades. The cycle of time has again brought us to the hour when we open the chambers of memory, and look back on the oid camp-ground, and into the faces of our young comrades; stand with lingering thought, as we look over the battle Aleld, and point in memory to where our comrades fell. We that lived to return, have for thirty years gathered God's choicest flowers in the springtime, and have placed them on the graves of those who fell in battle's front, died in prison pen, and those who since the day of peace have received their final discharge and have entered upon their duties in the spirit world. It is, therefore, fitting and proper that we should, according to our custom of the past, pay a tribute to the moral worth, Christian devotion and heroic service of those who are camping in eternity.

### MARKETS AND STOCKS

Wall Street Review.

Wait Street Review.

New York, May 27.—There was a c'approach to absolute stagnation at stock exchange today, total sales for ing up only 65,051 shares. At interval business came nearly to a complete standstill, the sales between 1 and 1.30 o'clock amounting to 1,000 shares. In the time mentioned not a single transaction was reported in the Industrials, which is something very unusual. The indisposition to make new ventures is still due to the uncertanty regarding the standing of the leading candidate for the presidential nomination and the fear of hostile legislation by the senate in the matter of nomination and the fear of hostile legislation by the senate in the matter of government bond issues. On the other hand the continuance of the gold export movement and the low prices of farm products caused a little liquidation in certain securities. There was no outside business to speak of, and the operation for the control of the c products caused a little inquination in certain securities. There was no outside business to speak of, and the operations for foreign account cut no figure in the dealings. The changes except in rare instances were confined to narrow limits. General Electric scored the greatest variation among the usually active stocks, and fell from 35% to33% on the announcement of the organization of the Walker company with a capital of \$5,000,000 to manufacture electrical appliances by ex-Governor Flower and associates. Illinois Central sold at 92½ against 97, the last previously reported transaction. Only 300 shares of the stock changed hands and the decline was ascribed to a lack of demand rather than to any material alteration in the condition of the property. Reading and Missouri Pacific were somewhat lower on poor traffic statements, but the loss in either case was slight. Sugar ranged between 122% and 124, closing at 123, while Tobacco ranged between 66% and 71%. Distillers was without sale. Pacific Mail was another stock which was neglected. The preliminary report for the year was made public today and it was a comparatively good one. Net earnings decreased slightly as compared with the previous year, but cash on hand increased over \$400,000 and now stands at \$610,439. Just near the close Sugar developed a bit more activity and the traders sold the railway list. As a rule speculation closed barely steady in tone. Net changes show losses of \(\frac{1}{2}\) per cent.
