WEST SIDE EVENTS.

of James R. James from Late Home on North Hyde Park Avenue.

A gathering of people which in itself was a testimonial to the respect in which the late James R. James was neld, assembled yesterday to pay their last tribute of respect. The services were conducted at 3 o'clock at the late home of the deceased, on North Hyde Park avenue. Rev. J. B. Sweet, pastor of the Simpson Methodist Episcopal church, preached a sermon. In it he traced the life of the deceased and paid an eloquent tribute to his worth. Rev. Hugh Davies, of the Welsh Calvinistic Methodist church, also spoke.

He told in a simple and effective way of the Christian life of the de-ceased. Rev. William Matthews, of Olyphant, was also present. A quartette from the Simpson church, con-sisting of Professor William Jones, Mrs. J. B. Sweet, Miss Minnie Rinker and W. N. Chase, sang several sacred selections. The interment was made in the Washburn Street cometery. The dl-bearers were John Hale, Thomas Bevan, Reese Powell, H. D. Jones,

Morgan P. Daniels and E. D. Jones. Those from out of town who attended the funeral were: David Thomas, Yandling; Grand President of the Ivorite Order Reese Powell and wife, of Wilkes-Barre, Mr. and Mrs. John Mor gan, George W. Edwards and Mrs. Jones, of Kingston; Mrs. Mary Roberts and daughter, Mr. and Mrs. William Scriver, of Olyphant; Mr. and Mrs. M. D. fice, making this city his head-ters," says the Pittston Gazette.
"Mr. Potter is by no means a stranger here, he having been the designer of the sewer systems for Pittston and West Pittston, and having spent con siderable time here during the past two years. That he is well qualified for the important work to which he has now been assigned is evidenced by the now been assigned is evidenced by the fact that he has designed and constructed water works in all of the fol-lowing cities and towns: Orville, O.: Winchester, W. Va.; Piedmont, W. Va.; Monroe, N. Y.; Montgomery, N. Y.; Cornwall-on-Hudson, N. Y.; Sietusville, W. Va.; McDonald, Pa., and other places. He has also designed water places. He has also designed water works for the following places: Evans-ville, Ind.; Corry, Pa.; Elkin, W. Va.; Grafton, W. Va.; Cape Vincent, N. Y.; Reafena, Ontario; LeRoy, N. Y.; High Point, N. C., and other places. Be-sides, Mr. Potter has designed sewer systems for no less than thirty places.

HIS GREATEST TASK. The work which he has now under taken is the greatest he has ever had, and he naturally takes considerable pride in the fact that he was selected from a host of applicants. Mr. Potter will have charge of all engineering work for the supply company, with sev-eral corps of engineers at work under his direction. The work thus far laid out consists of the construction of the pumping station for the river bank in West Pittston, the laying of the new 30-inch main for nine miles down the west side of the river, the laying of a big extra main across the river at this

big extra main across the river at this place, and the construction of new storage dams at Spring Brook.

"Some of this work is already under way. Mr. Potter said this morning that he would be on the ground personally for at least six months. He has at :resent as his chief assistant John Pownall, of New York city. Several engineering corps are now in the field at Spring Brook, but before Mr. Potter goes there he will get the plans Potter goes there he will get the plans completed for the new pumping station on Susquehanna avenue, West Pittston.

'The site of the new pumping station presents a lively appearance. A large gang of men are at work, and with two steam derricks and horses and carts are rapidly excavating for the pump house. The detailed plans are being made at Mr. Potter's office at New York, but an idea can be given of the general SIZE OF THE PUMP HOUSE.

"The pump house will be 40x60 feet size. There will be concrete foundations, and the walls up to the level of the street will also be of concrete. The remaining story will be of brick and iron, and one corner will be set off with some neat design, so that the building, it is hoped, will add to, rather than deiract from the appearance of the neighborhood. "The botler house on the lower side

of Susquehanna avenue will also be of brick, Susquehanna avenue will also be of brick, about 65x40 feet in size. LAWN MOWER.

Is fitted with an improved Cutter Bar of solid tool steel tempered in oil.

The Knives have a positive "shear" cut and are regulated by a patent improved "Micronometer Adjustment."

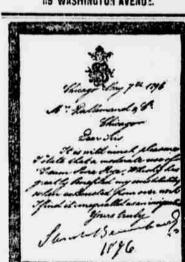

The Shaft runs in Phosphor-Bronze bearings, adding greatly tosmoothness in running. This machine has a new malleable iron handle brace in one piece.

In simplicity of construction, ease and accuracy in operation, durability and finish, this mower is undoubtedly the best "light" mower in the market.
