M'KINLEY AND REED THE BATTLE CRY

The Plan of the Cleveland Republican Managers.

MAINE MAN FOR SECOND PLACE

The Vice-Presidential Nomination Is to Be Forced Upon Mr. Reed Whether He Desires It or Not -- The Bangor Platform.

New York, June 2.—Many indications today point to a concerted attempt upon the part of the McKinleyites to force the vice-presidential nomination

upon the part of the McKinleyites to force the vice-presidential nomination upon Speaker Reed with or without his acquiescence.

At Cleveland this is well understood to be the plan.

A poll of congress made by the Philadelphia Press, an active McKinley organ, shows a strong congressional preference for the Maine man.

On the other hand Lesson, H. Manpreference for the Maine man.
On the other hand, Joseph H. Manley, Mr. Reed's campaign manager, expressly disclaims any purpose on his principal's part of taking second place. Cleveiand, June 2.—The McKinley poeple are going to support Reed for vice-president, no matter what Mr. Manley says. They assert that no man has yet declined that office when a convention has once nominated him. Hence they are going to nominate Reed by acclamation. This is the programme, and Mr. Manley's card has not changed a bit.
Senator Quay believes that the ticket

not changed a bit.

Senator Quay believes that the ticket will be McKinley and Reed. And Quay generally knows what he is talking about. The point to observe in Mr. Manley's card is that the Maine gentleman does not deny his first intention of coming here. Candidates for the vice-presidency

are very numerous. Old Virginia, the "Mother of Presidents," is now anxious to be the mother of a vice-president, and her sons are now working for Colonel William Lamb, of Norwalk, Va.

The list now covers a baker's dozen from each state.

There is a good deal of speculation as to whether or not the anti-McKinley-ites will make a fight in the convention over the contested delegates. The news from Washington today is that the contests will not be made. The bosses and "boys" are getting together as fast as possible, and it begins to look now as if there will not be enough of Hanna's strawberry shortcake to go round. Already his short cake palace on the lake is running full time, and yet the harmony list increases to such an extent daily that he cannot be gin to feed the muititude of hungry visitors that come here.

BANGOR CONVENTION.

The Republicans of Maine are in favor of the restoration of that Republican policy of protection taught by Lincoln, illustrated by the signal prosperity of the country for thirty years and rounded out country for thirty years and rounded out by the reciprocity of Bidine—a policy anapted to the business of the country and adjusted, from time to time, to changed conditions. With confidence and prosperity restored, revenue will be made adequate to the support of the government and the issue of bonds ostensibly for the maintenance of the redemption fund, but really to meet deficiency, will cease. We are opposed to the free and unlimited colrage of silver, except by international agreement, and until such agreement can be obtained we believe that the present gold standard should be maintained.

We believe in the maintenance of the

3.95 present gold standard should be maintained.
4.75 We believe in the maintenance of the highest national credit by the utmost faith toward the public creditor, not for the sound reason that the most valuable possession of any nation in time of war or distress, next to the courage of its people, is an honorable reputation. Whoever pays with honor borrows with ease. Sound finance and certainty at the treasury and protection for the producers will mean prosperity and peace.

We are in favor of a foreign policy which shall be at all times and with all nations firm, vigorous and dignified, which will preserve the national honor at home and abroad.

We are in favor of measures for the sound abroad.

with preserve the national bonor at home and abroad.

We are in favor of measures for the restriction of limmigration.

We are in favor of a just administration of all pension legislation. We congratulate our delegation in congress that their ions-continued efforts in behalf of American shipping have at last aroused an interest throughout the country that promises to restore this great industry so important to national defence to its former prominence. We join our fellow-Republicans of the thirteen states in the advocacy of discriminating duties in favor of American ships, a policy approved by Hamilton, the father of American protection, and which gave up our carrying trade in the enriy days of the republic. We renew our unswerving loyally to that great champion of protection and sound money, the Hon. Thomas B. Reed, in the hope that this coming national convention will recognize the urgent demand of the business interests of the country for his nomination. We render our cordial appreciation to our distinguished representatives in both branches of congress for their able representation of the state at the national capitol.

The Hon. Liewelyn Powers, of Houlton, v. unanimously nominated for governor and the convention then adjourned.

KENTUCKY SILVERITES.

They Will Not Be Aggressive but Will

Proceed with Moderation. Lexington. Ky., June 2.—Nearly all the Democratic delegates to the state convention, which meets here tomorrow, have arrived. They were hard at work all the afternoon, agreeing on a policy to pursue tomorrow. The silver men scored a greater victory than they anticipated, and at first they were very aggressive, but Senator Blackburn counselled moderation. He finally decided to call a meeting of his supporters. Accordingly about fifty silver leaders assembled in Blackburn's headquarters, and for two hours the discussion was kept up.

quarters, and for two hours the discussion was kept up.

After two hours' debate the conference decided not to censure President Cleveland and Secretary Carlisle by name in the platform, but to condemn the national administration in as strong language as possible. They agreed that on the money question the resolution should instruct the delegates to support a free silver advocate for Democratic candidate for president.

FOR SILVER LITERATURE.

The Reform Press Association Will Push an Energetic Silver Campaign. Push an Energetic Silver Campaign.

Minneapolis, Minn., June 2.—Some time ago the Penny Press, the only silver paper in the Twin Cities, issued a call to the silver editors of Minneapolis to meet in convention in this city on June 2. As a result of the call fifty editors were on hand when the meeting was called to order this morning. Free silver Republican editors

were chiefly in evidence, although there were representatives of all parties.

As a result of the meeting an organization to be known as the Reform Press association of Minnesota was formed. The objects of the organization will be co-operation in securing form and free silver literature and an energetic campaign for the free silver cause.

Mr. Canda, of New York, who acts as the national committee architect, and S S Beman, the local committee's architect, submitted a plan of the seating arrangements which the committee adopted. There will be \$15,000 seats in the part of the Colissum which is to be used for the convention. Only a few seats are to be put in the galleries, because the committee considers 15,000. because the committee considers 15,000 a big enough audience to handle, considering the animation which is ex-pected to permeate the deliberations of the Democratic hosts.

MURDER AT BLOCKLEY.

Peter McNally Is Killed by Bernard

O'Toole, an Insane Patient. Philadelphia, June 2.—Although Peter McNally was killed in Blockley almshouse over a week ago nothing of the ar air was given to the general public until Corener Ashbridge held the inquest in the case today and then it was learned that the man who had caused his death was one of the most violent insone natients who had ever been soninsane patients who had ever been con-fined in the institution.

McNally was slaty years of age and Bernard O'Toole, who killed him, is sev-eral years younger. The former had never been in the hospital before, but O'Toole is what is known as an "old timer." He has been sent there a number of times and has always given the attendars and physicians the greatest

sort of trouble.

ST. LOUIS' APPEAL.

The City's Municipal Assembly Asks Aid from the East-The Number of Dead Largely Reduced.

St. Louis, June 2.—Both houses of the municipal assembly of St. Louis last night adopted resolutions asking out-side aid for the cyclone sufferers. The appeal calls attention to the calamity which has befallen the city, rendering many artisans destitute and homeless. and asks for all the aid that can be sent. All donations are to be sent to the mayor or police commission of St. the mayor or police commission of St.

may have charge of the relief funds.
This action is not in accord with the
position taken by the mayor in declaring that outside aid is not needed.

a discussion of the misunderstanding that has gone abroad concerning the attitude of the committee on the subject of outside relief. A statement for the press will be prepared which will endeavor to show the gentlemen who called the meeting for today that at no time has any outside assistance been refused when it was offered, but the issuance of any appeal from the city to the outside world for help will be

strenuously opposed.

Mr. Spencer, president of the Merchants' exchange, said:

"St. Louis cannot afford to go on record as begging for funds. We have nearly \$112,000 collected, and it may get to \$200,000. Long before that time we will have matters in shape to know approximately how much we will need. If it becomes necessary to call for as-sistance from the outside we will do it, but the necessity is not now appar-

The loss of life in East St. Louis, which has been generally excessively estimated, has assumed far less serious proportions as the days have passed. Instead of being nearly 200, as is claimed by many, the list of dead numbers 100 identified, with two—a man and women—unknown. In addi-tion to this one man is missing and eight are so severely injured that they will probably die.

CASH APPROPRIATION.

CASH APPROPRIATION.

The lower house of the municipal assembly today passed the bill appropriating \$100,000 for the relief of the tornado sufferers. The general fund footing up tonight is \$129,000.

Mayor Walbridge has not refused to accept moneys sent from outside cities, and has turned \$15,000 thus secured to the relief committee. The mayor, however, believes that St. Louis should be equal to the task of caring for the afflicted.

The sun shone but ten minutes today and frequently showers and falling temperature kept up the strain of misthe relief stations long lines of men and women waited their turn to receive the daily allotment of food. Destitution in East St. Louis is hourly increasing. The ladies' relief committee made a tour of the city today and report 570 families absolutely homeless and destitute. Two thousand five hundred people were breakfasted by the committee today. One hundred families who found homes in freight cars, were turned out in the rain today.

The fight for the necessities of life

is a desperate one. The relief commit-tee is having a hard time controlling the poor and making equal distribution. At present they are spending about \$1,000 a day for food, clothing and cots. They need \$500 a day more.

ANTI-BOND BILL PASSES SENATE

The Measure is Approved by a Vote of _ 32 to 25.

THE HOUSE DISREGARDS A VETO

The River and Marbor Appropriation Bill Passed in the House Over the President's Stamp of Disapproval. Other Notes of the Capitol.

Washington, June 2.—An eight hour's session of the senate was wound up to-day by the passage of the bill to prohibit the issuance of interest bearing bonds without the consent of congress. All amendments with a motion to post-pone were voted down by a majority of seven and the bill passed by a like majority—32 to 25. A speech was made early in the day by the chairman of the finance committee. Mr. Morrill (Rep., Vt.) on the Dingley emergency tariff bill. In his remarks he intimated that Democratic senators were so much afraid that the Populists were going to get the betterofthem that they hurried to become Populists themselves by voting for the free coinage substitute to the Dingley bill. This substitute, he characterized as a "legislative whim," illustrating the old apothegm that "men are but children of a larger growth." growth."

The conference report on the Indian appropriation bill (as to Indian citizenship) was discussed from the close of Mr. Morrill's speech until 1 o'clock when the morning hour expired and the bill to prohibit the issuance of bonds wihout the consent of congress was

taken up.

To that bill an amendment was offered by Mr. Aldrich (Rep., N. H.) to add the words "unless in case of an emergency, it is necessary to preserve the public credit."

The bill was advanted by Sentered

gency, it is necessary to preserve the public credit."

The bill was advocated by Senator Brown (Rep., Utah), and Teller (Rep., Col.) and was opposed by Senator Allison (Rep., Iowa) and Chandler (Rep., N. H.). Mr. Cannon declared that the great beating heart of the inter-mountain states was for the free and unlimited colonage of sliver and took for its leader Henry M. Teller, of Colorado, not John Sherman, of Ohlo. Mr. Allison characterized the risk of a relapse into the condition which prevailed between 1861 and 1879 as a most unwise and unjust thing; and said that no part of the people of the United States could be benefitted by such a relapse.

Mr. Chandler appealed to the Democratic senators not to vote a want of confidence in the president of the United States and that the secretary of the treasury, who were men of their own party and of their own choice.

Mr. Teller said that he did not believe that the gold people need have any, or had, any fear of McKinley, or of his attitude on the money question, Speeches against the bill were also made by Senators Burrows (Rep., Mich.), and Palmer (Dem., Ilis.)

Then the voting began. All the amendments were voted down; the

OVER PRESIDENT'S VETO. The river and harbor appropriation bill was passed over the president's veto today by the unexpectedly heavy vote

of 220 yeas to 60 nays.

There were comparatively so few votes in the negative that it was found impossible to pair absent members in favor of the bill. The Republicans, with practical unanimity, and 39 Demofavor of the bill. The Republicans, with practical unanimity, and 39 Democrats with one Populist, made up the affirmative vote, while the negative vote was about equally divided between the Republicans and Democrats, five Populists voting with them. After hearing the report of Chairman Hooker, reciting the arguments in favor of passing the bill over the veto, the house by an overwhelming vote refused to listen to any debate, despite the vigorous protest of Mr. Dockery (Dem., Mo.), who denounced the course taken as "unjust, unfair and unmanly." The remainder of the session, mainly, was taken up with the argument on the contested election case of Mitchell vs. Walsh from the Eighth New York district and voting upon it. The report of the majority of elections committee, No. 2, recommending the seating of Mitchell (Rep.) in place of Walsh (Dem.) was agreed—yeas, 162; nays, 39.

By this action the Democratic strength in the house was reduced to 97, and that of the Republicans increased to 249.

A resolution was agreed to fixing the

Chicago, June 2.—D. P. Armour's trial before the directors of the Chicago boar's of trade on the charge of uncommercial conduct in the allegd act of issuing "shorts" warehouse receipts for grain in storage, his elevators having been declared irregular, began this afternoon. At a late hour tonight the directors had not reached a vote, the result of which may mean the expulsion of the member whose fortune is put at \$50,000,000. Many members of the board of trade said Mr. Armour was too important a member to be convicted and the grain inspection department would be condemned for "making mistakes." P. D. Armour's Trial.
