HERNDON WAS WILD.

Herndon, who started to pitch for Buffalo, was very effective for five innings, though he gave evidence of wildness, which came in unmistakable form in the sixth. In that inning, after giving three bases on balls and permitting a double by Griffin, a home run by Ma-guire and a three-bagger by Hutchinson, he was taken out and Wadsworth was substituted. The latter was wilder than he had any license to be, giving five bases on balls in five innings and a half.

guire made homers on drives to the left field corner. There were two threebaggers and six doubles.

Latham's base on balls, and stolen base and a fly to the outfield, and Gremminger's failure to stop it when it came in, gave the Barons one for a starter.

The Bisons made two on two double and a single in the first, and in the second scored four times on four singles. a hit by pitcher, a steal and Maguire's error when but two runs were in and a chance was offered to retire the side.

We earned one in the third on Latham's force hit and steal and Hutchinson's single. The Bisons made four, sending the score up to 2-10. Hutchin-son made a fumble and with one out made another which with a single, a force hit and Field's homer gave the visitors their four.

SIX SCRANTON RUNS.

The Barons made the score 8-10 in the fourth. Griffin's double, a walk to Eagan and Maguire's home drive pulled in three runs. Bases on balls to Ber ger and Harper and Hutchinson's triple supplied two more. Meaney had two balls and no strikes on him when Wadsworth entered the box. Meaney got his four and when he started to steal and drew the ball Hutch scored. Meaney was run down on the line. The Bisons increased their lead and

 Cleveland and Baltimore were the only two of the first division tost and all the tailenders, Louisville excepted, lost. Booklyn, Pittsburg and Chicago are head and head. Hawley pitched a fine game for Pittsburg, holding the Brooklyns down to one run. The game at Washington was about as tedions and uninteresting a contest as has probably been played by a major league club in years. The colts winning in the last inning. Cleveland made it three straight from Philadelphia.

PROFIT ON EXTRA GRADES. Now, if you wish a wheel particular-

ly fine, with the best of finish, full of artistic lines, and suited to the most cultivated taste, you are the man the dealer is looking for. You will pay more money and much more profit for such a wheel. You pay \$125 or \$150, and such wheels cost more to produce than the

foregoing figures show The rims may cost \$1.25, the tires \$12, the saddle \$4, and the pedals \$1.60. Then the finish will be better than the standard wheel, and there will be more nickle plating on it.

finally have to be settled by the board of mangers of the National league. Rusie's Of course, you may go in silver or gold plating, or into solid silver or gold, and extend the cost to any figure you wish: but the further you go the greater pro-portionate profit you will pay.

On the other hand you may indulge in the false economy of going to the other extreme and buying the cheapest wheel to be found, but even then you are paying about the same percentage of profit. You may go below the standard mark of \$100, a dollar at a time, through the scale of prices, until you reach the lowest figures. At the upper end of the scale there is not much difference in quality and often it is simply in the amount of profit the seller is willing to accept; but the price of much cheeper wheels is made possible by the grade of material

used and the class of workmanship. There are tires that cost \$2.50, saidles that cost 80 cents and peopls that cost 40 cents. The second-hand, and second, even third and fourth rate materials,

is sometimes used. The work of assembling the parts is another factor. It may be done with The Sunsets, of the South Side, will play skilled labor that costs \$5 for each

The Sumers, of the South Sale, win pay the Harmonics on next Sunday afternoon on the Hollow grounds at 3 o'clock. The Dalstes, of Willow street, challenge any club under 12 years of age. Answer through The Tribune. John Getts, manawheel, or by boys who simply "throw" the wheels together. Inquiries among the dealers for single

parts of the bicycle developed the fact that there was quite a variation in the prices put on the articles, but an average shows that the original cost price is multiplied by five.

A saddle, for instance, which cost at the factory 80 cents, is sold for \$4, and one which cost \$2.50 for \$7. Handle bars that cost from \$1 to \$1.50 are sold for \$5 and \$7. Similar articles listed in the factory cost at three, five, seven, eight, ten and twelve cents, cost from 25 cents to \$1. The 28, 30, 40 and 80 cent articles

are sold at from \$1.25 to \$3.50. So it goes through the list. If a man anxious to experiment should purchase all the various parts of an ordianry \$100 wheel, one at a time and pay an expert for putting them together, his wheel would cost him about \$178.

Arales Face Powder is superior to any face powder ever manufactured. Used and com-manded by leading soci-ty and professional beauties, because it gives the best possible effect and never leaves the skin rough or scaly. Trice 50 cents.
