LEADER'S PRICE, 49c.

WAR ON MORTON.

to Him for Vice-President.

St Louis Mo., June 16 .- The McKinley league of the state of New York held a meeting this evening to protest against the attempt to force upon the convention the nomination of Governor Morton for the vice presidency. Resolutions to that effect offered by John F. Milholland and which, he said, had been approved by McKinley's friends here, were adopted. The grounds for their opposition were that the purpose of the movement was to weaken the convention; that it would drag into national politics the factional fight in New York and that it was an insult to the friends of McKinley in New York. They therefore asked all the friends of McKinley to join is opposing the attempt to nominate Morton or any other New Yorker, for the second place on the ticket.

"Dodgers" reading as follows were subsequently scattered all over the

"Colored Republicans: Can you afford to support for vice president a man who, while occupying that office resigned his place as presiding officer to a Democrat when the Lodge election bill came up before the United States No, of course not,"

"Then you cannot entertain the idea for a moment of giving the second place on the ticket to Levi P. Morton of New York.

The Lodge election bill, had it be come a law, would have given two millions of colored Republicans in the south the right of franchise guaranteed by the constitution, but was withheld owing to the treachery or dough-faced leadership of such Republicans as Thomas C. Platt's candidate for vice

president "(Signed) Rev. Ernest Lyon, D. D. pastor St. Mark's church, New York; Rev. Daniel Wisher, pastor Mount Olivett Baptist church, New York; Rev. CANTON DECORATING.

Citizens at McKinley's Home Prepar-

ing to Spread Red Paint. Canton, Ohio, June 16.-Canton has begun decorating in anticipation of the demonstration with which the news of Major McKinley's expected nomination for the presidency at St. Louis is to be received. A rain which began at noon, threatens to interfere with the progress of the preparations, but all will be in readiness, doubtless, when the time comes. One hundred rounds of ammunition were received this morning, to be used in the brass cannon, mount-

ed on the public square. The cannon being connected by wire with convention hall, it will be fired imultaneously with the announc of the nomination. At that signal the fire alarm bells will be run, whistles of the factories in this and surrounding towns will be blown. If in the day time all business of whatever kind will be suspended in Canton, and the citizens, rrespective of party, will assemble on he square, march to Major McKinley's ence and congratulate him.

WORK AT ST. LOUIS

[Concluded from Page 1.]

At the close of the chaplain's prayer, Chairman Carter said:

"This convention is assembled in com cliance with the terms of a call issued by the national committee on the 14th December, 1895, which call the sec-

tional committee I present for your apthe week some of the most extraordi- proval for your temporary chairman, Hon. Charles W. Fairbanks, of Indi-

Mr. Fairbanks, a tall and very slim gentleman, with a dark, close-cropped beard and moustache, came forward and in a clear and distinct tone, with only one occasional reference to his notes, delivered the following address, which was frequently applauded:

FAIRBANKS' SPEECH.

The Republican party is the party of convictions and it has written its con-victions in the history of the republic with pen and sword. With it the supreme question has always been not what is merely "politic," but what is everlasting, ly "right." The great men we have given to the nation and to history, the mighty dead and illustrious living, are our inspir-ation and tower of strength. If we are but true to their example we cannot be false to our countrymen. Fairbanks referred to the prosperity of the country under the laws enacted by the Repub-lican party during its control of the gov-ernment, saying that on Nov. 8, 1892, there was work for every hand, gread for ev-ery mouth. We had reached high water mark. Labor received higher wages than ever and capital was profitably secured.
The national revenues were sufficient to meet our obligations and leave a surplus in the treasury. The foreign and domestic trades were greater in volume and value than they had ever been. The foreign balances were legred; in our fever of the balances were legred; in our fever health of the surplus of the sur value than they had ever been. The for-oign balances were largely in our favor. European gold was flowing toward us. But all this is changed. The cause is not hard to seek; reaction began when it was known that the legislative and executive branches of the government were to be Democratic. The Democratic party at Chicago condemned the protective tariff principle as unconstitutional and solemn-ly pleaked itself to overthrow to destrucly pledged itself to overthrow to destruction the McKinley law and to the adop-tion of free trade as the policy of the United States.

THE WILSON BILL

Before the work of demoiition actually begun a run was started upon the treasury reserve which the Republican party had wisely accumulated for the protection of the government credit. The drain upon the reserve for the redemption of green-backs and treasury notes greatly surpassed all prior experience and emphasized the discredit into which the Democratic administration had fallen. An utter want of confidence in the administration possessed the people. He reviewed the conditions that have prevailed since the incoming Democratic administration, the passage of the tariff law which Cleve-land was unable to approve and that fails oposition was made to its being read to provide sufficient revenue resulting in a daily growing deficiency leaving the treasury and public credit in constant peril. We are now sending aboard millions of dollars for wool, which were paid our farmers under the McKinley law. The reciprocity which the Wilson bill struck down, was one of the highest achievements of American citizenship. No measure was ever enacted which more directly advanced the interests of American farmers and manufacturers. The substitution of ad valorem for specific duties has opened to provide sufficient revenue resulting in a ad valorem for specific duties has opened the way for systematic wholesale frauds McKinley League of New York Object upon the treasury and producers and employes of the country. Thus we lost millducers have been enabled to unfairly pos sess our home markets. The Democratic party's revenue legislation has been a mittee on resolutions tonight resolved great and original factor in breaking down to recommend to the committee on reso-

willing workers.

Having attempted to reverse the tariff policy of the United States with the iamentable result that the Democratic party since the now proposes to reverse the currency as gold. policy. It turns to the currency as the parent of our ills. Its effort to ship the re-sponsibility will deceive no one; its record of inefficiency and insincerity is a part of the unfortunate history of the repub-lic. The present currency system is fruit of Republican wisdom. It has been equal national agreement with the leading to all our past necessities and if incor-rupted will meet our future requirements. Our greatest prosperity was attained when the Republican currency laws were in full operation. When the Republican party was in power our currency was good. It was made as good as the best on the globe. We made sound money and we also made an honest protective tariff go with it. Sound money and honest protective tariff go hand in hand together, not one before the other. The very foundation of the sound currency system is a solvent treasury. If the people doubt the integrity of the treasury they will question the soundness of the currency. Recognizing this fundamental fact the Republican party always provided ample revenue for the treasury. The Democratic party hadn't in fifty years advocated financial policy that was the best for the American people.

USE OF SILVER. The Republican party has not been un friendly to the proper use of silver and has always favored and favors today the use of silver again as a part of our circulating medium, but it favors that use under such provisions and safeguards as not to impair the present national standard. The policy of the party is to retain both. The policy of the free coinage of silver leads to certain immutable law that two moneys of unequal value will not circulate to-gether and the poorer always drives out the better. Those who profess to believe that this government can independently of the other great commercial powers open its mints to the free and independent coinage of silver at a ratio of 16 to 1, when the commercial ratio in all great markets is 30 to 1 and at the same time not drive every dollar of gold out of circulation, but deceive themselves. Great and splea-did and powerful as our government is, it cannot accomplish the impossible. It can-

ter's Acad in cotton-plant ursain on every to THE M. K. FAIRBANK COMPANY, Thicago, New York, Philadolphia, Pittabura

not create value. It has not the alchem-ist's subtle art of transmitting unlimited silver into gold, nor can it by omnipo-tent flat make fifty cents worth a hundred ents. The attempt to compel unlimited foliars of such unequal value to circulate at a parity is bad in morals and vicious in

Long before he had finished his lengthy address Mr. Fairbanks' voice, in the effort to accomplish the impossible task of reaching every part of the immense auditorium, became painfully retary will now proceed to read."

The secretary did so, in a voice which was inaudible at ten feet distant, and those in the distance waved their fans amid frequent cries of "louder." Chair-in unison with the applause of those in man Carter then said: "Gentlemen of the convention, by direction of the na-ity of compelling 59-cent dollars to circulate in unlimited numbers on a parity of applause, while Senator Teller smiled sardonically and one of the western delegates in the rear emitted a dismal owlcall. His reference to Blaine produced genuine demonstration, the conven-

APPLAUSE FOR CUBA.

When Cuba was referred to flags were waved and there was considerable hand | terson, of Illinois. clapping. This applause was redoubled in recognition when his closing tences declaring that the fight of 1896 was between free trade and free silver against honest money and protection. At the conclusion of Mr. Fairbanks' speech Mr. Carter proposed the appointments of the secretary, assistant secretaries, sergeant at arms, official stenographer and other officials and the persons so named were declared duly appointed. W. Lamb, delegate from Virginia, offered a resolution which was agreed to, that until a permanent will be governed by the rules of the last states and territories be now called and | York. that the chairman of each delegation announce the names of the persons selected to serve on the several committees as follows: (1) On permanent orbusiness; (3) on credentials; (4) on resolutions.

Also that all resolutions in respect to the platform shall be referred to the committee without debate. The states were then called for their selection of delegates as members of the several committees.

SENATOR TELLER RECOGNIZED. When the name of Senator Teller was mittee on resolutions for his state there | gold men. was a small outburst of applause, after which the call was proceeded with.

When Massachusetts sent up the name of Senator Lodge as its representative on the committee on resolutions there was a counter demonstration on the part of the gold standard men. Hon, Joseph B. Foraker was sent up as the representative of the state of Ohio on the committee on resolutions and when it was read at the clerk's desk it was hailed with cheers.

When the reading of the roll was completed Mr. Clayton, of Arkansas, sent up a resolution which he desired and it was referred without reading. It related to the determination of election contests. Another resolution from colored peo-

ple of Illinois affecting their right as a race was treated in a like manner. After an announcement of the places and times of meeting of the four committees, the convention at 1.47 adjourned man on the committee. From such a to tomorrow at 10 a. m.

THE FINANCIAL PLANK.

St. Louis, June 16.-The sub-committee on resolutions tonight resolved confidence, checking progress, emptying lutions the following financial plank:
the treasury, causing continued deficits and enforced idleness among millions of for sound money. It caused the exact "Republican party is unreservedly for sound money. It caused the enactment of the law providing for the re-sumption of specie payments in 1879; since then every dollar has been as good | received a telegram from Mr. Morton

"We are unalterably opposed to every rency, or impair the credit of our counfree coinage of silver except by inter- is still in the field for president." commercial nations of the world, which the existing gold standard must be prerency now in circulation must be maintained at parity with gold, and we favor States and all our money whether coin tion of the earth."

were voted down. First, Mr. Teller again for the vice presidency." proposed a straight-out plank for free coinage at 16 to 1. This was followed by a proposition to coin the American product, although Mr. Teller frankly confessed that he did not endorse this proposition, but would take it if it were possible to get it. The third proposition of Mr. Teller was a resolution declaring for free coinage accompanied by rea that the protective tariff system could not be maintained on a gold standard The fourth proposition was a resolution submitted by Mr. Teller at the request of Mr. Fowler, of Wyoming. It provided for the coinage of the American product and a tariff on all silver and silver ores imported into the United States.

Mr. Teller, having been defeated all along the line, said that he was willing to leave the construction of the rest of the platform to the rest of the committee and started for his rooms for the purpose of getting a good night's rest. It was at Mr. Teller's request that the committee decided to make public the financial plank upon which it had

The committee on credentials tonight efused to seat the Addicks delegation from Delaware by a vote of 29 nays to 20 ayes and seated the Higgins delegation by a vote of 31 to 17.

VICTORY FOR HIGGINS.

COMMITTEE ON RESOLUTIONS.

Governor Foraker, of Ohio, Is Elected

St. Louis, June 16.—The committee on resolutions, when the convention adjourned, proceeded at once to the Lindell hotel and organized. Lodge, of Massachusetts, called the convention to order and nominated Mr. Foraker, of Ohio, as chairman. Teller, of Colorado, placed Mr. Dubois in nomination. Forty-one persons answered to their names. Governor Foraker was elected, 35 votes being cast for him and four for Dubols. Those who voted for Dubols were the members from Colorado, Montana, Nrth Carolina and Utah. Neither Foraker nor Dubois voted, the former announcing that he refrained from voting as a mat-

ter of principle and not because of his lack of personal esteem for his com-petitor. A similar statement was made by Mr. Dubois, whereupon Mr. Foraker took the chair.

Mr. Merriam, of Minnesota, moved that a sub-committee be appointed to draft a platform and present it tonight to the full committee. his suggestion was opposed by Messrs. Teller and Dubols, the leaders of the silver movement, on the ground that it was better to discuss the financial plank in full committee. If its consideration were left to a sub-committee, they contended the argument against a gold standard plank, which they understood was to be adopted, would have to be made twice. They thought it advisable therefore with gold was greeted with loud bursts that, so far as that particular plank was concerned, the sub-committee might be excused from considering it. Mr. Merriam's motion was carried and the chair appointed a committee consisting of Messrs. Foraker, of Ohio, chairman ex-officio; Lodge, of Massachusetts; Merriam, of Minnesota; Fessenden, of Connecticut; Teller of Colorado; Warmoth, of Louislana, and Pat-

MR. BURLEIGH'S PLEA. A t this point, Mr. Burleigh, of Washington, arose and entered a strong plea in favor of giving the Pacific slope

a representative on the committee. This brought Mr. Darlington, of Pennsylvania, to his feet with a declaration that the two great eastern state, New York and Pensylvania, which represent in the aggregate one-fourth of the population of the country, were not represented on the committee and he thought for that reason that the Pacific slope organization is effected the convention | could also remain unrepresented. After some discussion, however, the commit-Republican convention. Mr. Lamb also | tee was increased by the addition of two offered another resolution which was other members. Mr. Burleigh, of Washalso adopted, ordering that the roll of ington and Mr. Lauterbach, of New

A motion to adjourn until eight o'clock this evening was carried, the understanding being that the sub-committee would meet at 5 o'clock and begin at ganization; (2) on rules and order of that time the formulation of the platform. If they have not concluded at 8 o'clock, when the full committee meets they will at least report progress and go again into executive session to complete their work. The silver members of the committee are displeased at the meagre representation given them. They complain also that several members of the committee whom they had regarded as bimetallists have "fallen down" as they announced as a member of the com- phrase it, and joined the ranks of the

THE COMMITTEE.

The committee was appointed by the chairman after conference with Senator Lodge. It consists of seven gold men, one sound money man, and one silver man. An analysis of the personel of this committee shows that it was carefully selected and for a specific purpose. Governor Merriam, of Minnesota, is the author of one of the staunchest gold planks offered for the consideration of the committee. The standing of Senator Lodge, of Massachusetts, Mr. Fessenden, of Connecticut, Mr. Lauterbach, of New York and Mr. Patterson, of Illinois, is unequivocal. Mr. Burleigh , of Washington represents the state that was among the last to pass gold resolutions. Mr. Foraker, although preferring the omission of the word "gold" accepts the situation and will vote for that standard. Ex-Governor Warmoth. of Louisiana, will fall into line, this leaving Mr. Teller the solitary silver committee the character of the plank can be readily discounted.

MR. PLATT'S DENIAL.

Agreed to Accept Vice-Presidency. St. Louis, Mo., June 16 .- T. C. Platt said to a representative of the United Fress this afternoon: "Mr. Morton is still a candidate for the first place on

In answer to a question as to a statement published that he (Mr. Platt) had today expressing his willingness to accept a nomination as vice president if measure calculated to debase our cur- it were offered him, Mr. Platt said: '1 can positively deny having received any try. We are therefore opposed to the such telegram. I repeat, Mr. Morton

From another source it was learned however, that many of the leading we pledge ourselves to promote, and manipulars think it is practically deuntil such agreement can be obtained, cided that Mr. Morton will be nominated for vice president after Major served. All our silver and paper cur- McKinley has been placed at the head of the ticket, and that assurances have been received that Mr. Morton will ac all measures designed to maintain in- cept. One of the most prominent of the violably the obligations of the United eastern delegates said this afternoon: "The ticket will be McKinley and Mor or paper, at the present standard, the ton. You may put that down as setstandard of the most enlightened na- tied. An understanding has been reached which will bring about that The adoption of the above plank was result. Matters have been drifting that not concurred in until four different way for some time and unless the unpropositions submitted by Mr. Teller for seen happens Mr. Morton will stand
