OUGHT TO GET 100 YEARS.

Terrible Array of Charges Preferred Against a Prisoner.

Begging money from pedestrians and police officers, begging pineapples and then selling them and abusing people who refused to buy, also drunk, disorderly and creating a disturbance are few of the entered and implied charges which Patrolman Parry prefers against a youth whom he arrested on the corner of Lackawanna and Franklin avenues last night.

The young fellow didn't mind being arrested a bit, shouting in great glee all the way up to the station house and tipping his hat to all the ladies he met. When he wakes up though and learns what he has been guilty of, especially begging money from a policeman he will feel differently.

MARKETS AND STOCKS

Wall Street Review. New York, June 25.-Speculation in sugar certificates saved the stock market from being one of the dullest on record. The transactions in sugar aggregated 104,400 shares, leaving only 75,218 shares for the balance of the list. the total sales having been 179,618 shares. The market opened with a fair degree of strength in sympathy with the receipt of slightly higher quotations from London, but the traders who had the market practically to themselves, were bearishly inclined and when sugar again started on the down track they proceeded to hammer the list. Despite their efforts, however, comparatively little impresion was made upon prices, the decline at the lowest varying from 14 to % percent, outside of Manhattan, Laclede Gas and Linseed Oil which dropped anywhere from 11/4 to 2 per cent. During the afternoon there was a rally of % in Manhattan and leading stocks like the Grangers, Louisville and Nashville and Western Union recovered 14 @ 1/2 percent. The coal shares were noticeably firm, especially for Jersey Central and Delaware and Hudson Scranton & Pittston Trac. Co. ... which moved up 1% @ 21/2 points to 107 % and 127 % respectively on very light offerings. General Electric and Hocking Coal were also strong features. The referred stock of the latter jumped 514 to 554; all the movements noted however, fell into significance when contrasted with the striking fluctation and remarkable activity in Sugar. This stock after opening 1/4c. higher at 115 1/4 declined rapidly to 113. Subsequently on the announcemtn that certain grades of refined sugar had been advanced one siteenth the stock got back at 113 %. According to usually well informed brokers an immense amount of long stock has been marketed during the past few days. The market closed barely steady in tone. Net changes show losses of 14 @ 1/2 percent., Jersey Central, and Reading scored gains of 2 per cent., while Sugar lost about as much on the day.
