MARKETS AND STOCKS

Wall Street Review.

New York, June 27.—Liquidations were the order of the day at the Stock Ex-change and the lowest figures of the change and the lowest figures of the week were made in a number of instances. At the opening the market was inclined to firmness because of higher cables from London, but the improvement was unimportant. The firmness was short-lived, and before the expiration of the first half hour of business the entire list was on the down grade. The lack of demand from outside sources was again quite pro-

down grade. The lack of demand from outside sources was again quite pronounced and the dealers for foreign account insignificant.

This left the market practically in the hands of the traders and as this class is bearing for the moment, prices yielded anywhere from ½ to 3 per cent. Business was more active, the sales aggregating 118,807 shares, a fair total for a half holiday. All the prominent leaves participate. day. All the prominent issues participated in the downward movement, but the greatest losses were made by the Indus-trials, the Grangers and the Internation-als. Sugar fell 2% to 113%; Burlington and als. Sugar fell 2% to 113%; Burlington and Quincy, 2% to 74%; St. Paul, ½ to 75%; Rock Island, 1½ to 68½; Northwest, 1 to 101½; Louisville and Nashville, 1½ to 48%; Manhattan, 1½ to 101½; Tobacco, 1½ to 33; Tennessee Coal, 1½ to 22; Leather Preferred, 1½ to 57½; do. Common, 1 to 17; Jersey Central, 1½ to 105½, and Reading, 1 to 14½. The heaviness of the market and the increased disposition to assume the short side of the account was ascribed to the great strength shown by the free silver advocates and the belief that they will be in absolute control at Chicago. The duliness of general business and the preduliness of general business and the pre-vailing low figures for cereals were much commented upon by the bear traders. The Grangers were depressed by reports that the May statements of the Burlington and Quincy and St. Paul will make a poor showing. In the case of Rock Island members of the so-called directors party were conspicuous buyers at the decline. In the active issues Rubber Preferred brought 73½ against 79 yesterday.
