EASTERN LEAGUE BASE BALL GAMES

Albany Wins the First Game and Keeps in the Lead.

HEINRICH GRUBER WAS IN EVIDENCE

In the Box for Buffalo he Pitched Weyhing to a Standstill—Yesterday's Postponed Games Here and in Wilkes-Barre to Be Played Today.

Yesterday's Results. Albany..... Syracuse..... 8 Buffalo..... Rochester..... 7 Springfield at Scranton, rain. Providence at Wilkes-Barre, rain.

Albany (late Toronto) made a good beginning yesterday against Syracuse. The latter had the game won until the seventh when the Pittsburgh farmers scored five runs and bagged the game. They will not hold the lead however, if they lose today and Providence wins at Wilkes-Barre.

Heinrich Gruber, the "Jolly Dutchman," released by Springfield, signalled his return to the league by pitching Gus Weyhing to a standstill in the Buffalo-Rochester game.

Today's games in Wilkes-Barre and Scranton will be given an added zest for the fact that the Grays, who play at Wilkes-Barre, are determined to close the short gap between them and Toronto, while Wilkes-Barre, Scranton and Springfield will fight desperately to keep out of last place.

Percentage Record. Albany..... P.C. 285 Rochester..... 244 Syracuse..... 244 Buffalo..... 244 Scranton..... 157 Wilkes-Barre..... 157 Springfield..... 156

Today's Eastern League Games. Springfield at Scranton. Providence at Wilkes-Barre. Syracuse at Albany. Rochester at Buffalo.

Syracuse-Albany. Albany, July 9.—Albany turned out in great numbers today to welcome the new base ball team which up to last evening was known as the Toronto. There were 1,800 persons present and the game was a rout for the new Albans. Score, R.H.E. Albany..... 01000150—7 8 2 Syracuse..... 000002300—5 7 3 Batteries—Dunn and Casey; Mason and Hess.

Rochester-Buffalo. Buffalo, July 9.—The Buffalo again defeated the Rochester. Herr Gruber, late of Springfield, twirled his first game for Buffalo and did it nicely. Weyhing was almost demolished in the fifth, being batted all over the field. Score, R.H.E. Buffalo..... 00117201—12 16 2 Rochester..... 000029014—7 8 2 Batteries—Gruber and Smith; Weyhing and Boyd.

SPRINGFIELD HERE TODAY.

Johnson and Berger Will Be the Scranton Battery. Johnson and Berger will be the Scranton battery. Rain prevented the second game of the present series with Springfield yesterday and the game will be played this afternoon, an open date. Johnson and Berger will be the Scranton battery. Manager Griffin will play center field in place of Meany, who will not join the team until tomorrow at Springfield.

NATIONAL LEAGUE.

Cleveland administered an overwhelming shut-out to Baltimore yesterday and shoved the latter down to a tie in second place with the Cincinnati who did not play. The Phillies were easy victims for Louisville and drop to eighth, below Washington.

Percentage Record. P. W. L. P.C. Cleveland..... 52 30 .578 Baltimore..... 44 22 .527 Cincinnati..... 40 24 .500 Boston..... 35 27 .565 Pittsburgh..... 35 29 .554 Chicago..... 34 24 .588 Washington..... 31 31 .500 Philadelphia..... 28 35 .443 Brooklyn..... 27 35 .474 New York..... 24 37 .422 St. Louis..... 22 38 .365 Louisville..... 14 48 .223

At Chicago—R.H.E. Chicago..... 00007002—7 10 3 New York..... 10000000—1 9 3 Batteries—Terry and Donohue; Sullivan and Zerfos. Umpire—Emsale.

At Cleveland—R.H.E. Cleveland..... 10300120—7 11 3 Baltimore..... 00000000—0 7 3 Batteries—Young and Zimmer; Pond and Clark. Umpire—Hurst.

At Pittsburgh—R.H.E. Pittsburgh..... 00400300—7 8 2 Brooklyn..... 01020002—5 9 3 Batteries—Killen and Sugen; Kennedy and Burrill. Umpire—Bets.

At Louisville—R.H.E. Louisville..... 51101002—10 10 4 Philadelphia..... 01002000—3 8 4 Batteries—Hill and Dexter; Keener, Grady and Clements. Umpire—McFarland.

At St. Louis—R.H.E. St. Louis..... 00223110—7 12 1 Boston..... 10030000—7 11 3 Batteries—Donohue and Murphy; Sullivan, Stivets and Bergen. Umpire—Lynch.

The Cincinnati-Washington game postponed, rain.

STATE LEAGUE.

At Lancaster—R.H.E. Lancaster..... 11400101—8 11 4 Potteville..... 01120000—14 9 3 Batteries—Shepard and Young; Stommel and Rogers. Umpire—West and Talroy.

At Cincinnati—R.H.E. Athletics..... 50004001—10 9 1 Reading..... 00002000—2 6 4 Batteries—Hess and Schaub; Smith and Westlake. Umpire—Felan. Called on account of rain.

DIAMOND DUST. Springfield this afternoon. Brown is slated to pitch the opening game at Springfield.

Catcher Howerman will report at Springfield tomorrow. Including Rafferty, the four Scranton catchers are nursing injuries. The more on Berger's leg has not healed and "Dutch" will wear a cricket pad today. Gruber, the pitcher released by Springfield, has signed with Buffalo. Gruber

opened negotiations with Scranton, but Griffin didn't want him. The straining of Outcall's knee and the spiking he sustained in Wednesday's game has not seriously crippled the big catcher, but the accident will prevent him from playing until early next week. Manager Griffin will have his damaged thumb placed under the powerful light while the accident where a Rochester apparatus is being used. It is positively ascertained that a bone in the thumb is splintered, broken or cracked. The injury will be treated accordingly. Umpire Gray, my advised Griffin to box the thumb and now the latter is waiting to get even. Catcher Eddie Rafferty was yesterday given the usual ten-day notice of release. This was due to an unfortunate accident which has kept the honest little player out of the game for so long a time that manager Griffin does not deem it worth putting him back in the game and thus weaken the team work while he is getting into form. Before Rafferty's hand was injured he ranked fourth among the league's hitters.

The famous Casey, who is perhaps the greatest favorite on the Toronto base ball team, has had an experience with Rochester on Monday nearly two weeks Casey has been troubled with a dislocated thumb, and the fact that it did not get any better troubled him considerably. Saturday he visited Dr. Edmund King, and the application of the X-rays showed that the bones at the first joint were nearly a quarter of an inch apart. Now that the case has been diagnosed it is thought that Mr. Casey's gait will soon be well again.—Ex.

AMATEUR BALL NOTES.

The Olyphant Browns will play Larry Keaton's Indians on the Olyphant grounds this afternoon. The Nonpareils, of Dunmore, accept the challenge of the Lilies, of Archbald, to a game July 11, at 3 o'clock on the Archbald grounds. The Minooka base ball club challenges the West Side team of the Eureka for a game on Minooka grounds Sunday, July 12. Answer in Tribune, P. J. Philbin, captain.

The Railroad Young Men's Christian association base ball team accept the challenge of the Senators on the latter's grounds Saturday, July 11, at 3 p. m. John J. Cavanaugh, captain.

The Olyphant, will start on a tour Monday through New York state, taking in some of the large towns, such as Sydney, East Windsor, Deposit, Corning, Elmira and Utica.

The Nonpareils, of Pricburg, challenge the Lilies, of Archbald, to a game of base ball on the Nonpareils' grounds July 12. If satisfactory answer in Saturday's Tribune. J. H. Wetland, manager.

ROBBED AT DUTCH GAP.

Two Polanders Held Up by Five Men. One Robbed of \$15 and a Silver Watch, the Other of \$16.

At 12:30 this morning Steve Herrilick and John Lagunas, of Pricburg, met Patrolmen Martin Gurrell and Conrad Marker on Washington avenue. Herrilick was hatless and there was a large lump on his head. He said he had been robbed of his hat and \$15 Lagunas's face was peeled and his nose and lips besides being swollen were bloody. His tale of woe was that \$15 and a silver watch worth \$8 were gone.

They are young men and work in Stur's shaft. Yesterday was pay day. Late at night they started from their boarding house to come to Providence for some beer, and at Dutch Gap, they claim that five young men held them up and robbed them. Because they offered any resistance the highwaymen assaulted them. They were unable to give any information that would lead to the identification of their assailants.

FOO SAM KNOCKS AT THE DOOR.

Celestial Merchant Wants Admission to a Baltimore Exchange. Baltimore, Md. July 9.—A Chinaman made application today for membership in the Corn and Flour exchange. It is one of the rules of the chamber that applicants for membership must have the indorsement of at least one member in good standing, and as none of the members have thus far seen fit to stand for the son of the Flowery Kingdom, it is not likely that he will have his desire gratified. This is the first time in the history of the organization that a Chinaman has applied for membership.

SYRIANS ARRESTED.

Three Sons of the Desert Are Accused of Stealing Books of Record. Special to the Scranton Tribune. Scranton, Pa., July 8.—Three Syrians were arrested today by Constable Judson North at the instigation of A. I. Welch. They were brought before Justice Courtwright charged with larceny and forcibly breaking into Welch's office, located near the creamery of Seiler Bros.

Mr. Welch stated that he missed a book of record which was decidedly valuable and supposed that the lodgers had taken it. They were, however, discharged as no evidence was presented to convict them.

HERE'S ANOTHER TICKET.

The Socialist Labor Party of New York Is Now in the Field. New York, July 9.—The national convention of the Socialist Labor party this afternoon nominated Charles H. Muehett, of Brooklyn, for president of the United States.

Alderman Matthew McGuire, of Paterson, N. J., was unanimously nominated for vice-president.

Arraigned on a Serious Charge. Michael Blewitt and Laura Talbert were arraigned before Alderman Howe yesterday on a charge of keeping a disorderly house and selling liquor without a license at No. 17 Lackawanna avenue, but as the prosecutor, Patrick Walsh, failed to put in an appearance, they were discharged.

We Believe. We have the very best 50 cent corset to be found in the city. That in our Hosiery department you can buy men's, ladies' and children's Hosiery cheaper than elsewhere. That we are giving the best values in knit and muslin underwear. Come and see for yourselves. MEARS & HAGEN.

BICYCLE NEWS AND COMMENT

Peculiar Pace-Making Methods on European Tracks.

AMERICAN RACERS IN FRANCE

Small Tracks Are a Drawback at First—Triplets Are Used Almost Exclusively for Pacing—People Who Wait for the Prices of Wheels to Lower.

American racing men who visit France for the first time to race are surprised at the pace-making methods in vogue in that country. Banker Wheeler and other American riders aver that the pace-making system in that country is perfect. The small tracks are something of a drawback to the American rider at first. A well-known rider, in speaking of the pace-making customs in France, says: "There is no country where pacing is carried out upon such a scale as it is in France. One firm alone has about forty 'quads' and triplets that are used exclusively for this purpose, and a whole army of pace-makers who receive \$4 or so for each meeting, and it is really difficult to see how the makers can support such a heavy charge in addition to the big force paid by the cracks. But the fact remains that several of the manufacturing companies are doing it, and they would not continue the system if they did not find it to their advantage. The one thing aimed at now is to get the maximum of speed out of the pacing machines, and until it is found possible to use electric or petroleum bicycles, the only thing to do is to increase the gear and the power employed."

"From tandem there was a transition to triplets, and then to 'quads,' but the attempt to use quintuplets has not been a success. Besides the fact that they can only be used on the largest tracks, they are very liable to the troubles, which cause a lot of inconvenience to the men paced. The preference is, therefore, pretty equally divided between 'quads' and triplets, and then it is a question whether the latter are not better suited for the purpose. To go further, it may be doubted whether the triplets are superior to the tandems. In fact, it is very well to put up four or five men to push a tremendously high gear, but in practice it is found that a good tandem crew can make circles around such a machine. The difficulty lies in getting men who work together properly on the multicycles, and I am bound to say that the only way to do this is to have four or five men who can form a homogeneous crew and get the maximum speed out of the machines. They should work as much in harmony as the parts of the machine itself. Only a very few men are capable of doing this in France, and prominent among them are the brothers Farman, who can beat any multicycle in the country. But these men are all 'classy' riders, who can make more out of racing than pace-making, though they do occasionally take a turn at helping their friends along, and it is generally recognized that the man who happens to be behind the brothers Farman has a big advantage over others who may be paced by half a dozen 'quads.'"

There has been a cry that the number of fatalities that have befallen wheelmen has been largely on the increase. Pessimists who look upon the sport with not kindly eyes do not appreciate that every day sees the number of recruits added to the ranks. Men, women and children of all sexes and nationalities have taken to the wheel in a way that has steadily augmented the membership of the big order. Accidents must necessarily be on the increase. There is no way to prevent them, for accidents will happen among those who follow any kind of pastime. It is natural. Scorchers are the most dreaded of all evils which terrify the wheeling element. But decided steps have been taken to abate the nuisance, and the consequence will be that shortly the low-backed fiends will be run to earth and suppressed entirely.

Many people have waited for the time when a \$100 bicycle will sell for \$25. They are waiting yet. The best steel and workmanship. So are all the metal parts. The cork in the handles come from Spain. The wood in the rims is of special growth. The rubber in the tires comes from South America. The bearings are closer and truer than anything else the world has. The crank will figure out how a bicycle is made for \$20, and worse than that, some newspaper that ought to know better will print what he says. Did you ever consider the constituents of a bicycle? The frame is of the best steel and workmanship. So are all the metal parts. The cork in the handles come from Spain. The wood in the rims is of special growth.
