#### WEST SIDE EVENTS.

West Side Wheelmen Excited About the Way Their Scranton Brethren Acted Tuesday Night During Parade.

The West Side Wheelmen met last aight in regular session. The talk of the night was on what the boys call "the come-together" of themselves and the members of the Scranton Ricycle club who attempted to steal the right of line in Tuesday night's parade. The West Side club was regularly given the lead by order of the grand marshal. All went well until the parade was coming down Washington avenue. When Vine Wards and Edith Plahards street was reached the Scranton riders pushed ahead and turned to the right, soing down Vine and up Wyoming avenue, thus getting first place when the parade reached that point. But the West Side boys objected. A scrimmage ensued in which Ben Evans, of the West Side Wheelmen, was struck in the face by a Scranton man.

Six new members were received into the wheelmen last night. A house janitor was engaged.

Columbus Council Will Hold a Special Meeting Sunday Afternoon to Assist the Pittston Sufferers.

A special meeting of Columbus counell, Young Men's Institute, has been called for Sunday afternoon at 2 o'clock to take action on the Pittsten mine disaster. The object of the meeting is to decide whether to appropriate a sum from the treasury, or to levy an assessment on each member of the council. It is requested that every member who can will attend.

Eight of the men entombed in the Twin shaft belonged to the Pittston institute. Columbus council has a membership of about 125, and they wish to subscribe a handsome sum to the fund.

#### EPIDEMIC IS ABATING.

Less complaint is now heard concerning the scourge of dysentery which a veek ago had assumed the proportions of an epidemic. A majority of those affected with it have recovered, and the death rate has been low, fortunately. There is danger, however, that the reappearance of sweltering weather may cause a revival of the scourge.

#### FUNERAL OF THE GREEK.

Nicholas Pidage, who was killed Wednesday morning near the blast furnace by being run over by a trip of cinder cars, was buried yesterday after-noon. Services were conducted at 3 o'clock by Rev. N. Chanath, paster of the Greek Catholic church, and interment was made in Minooka cemetery. The dead man boarded on South Washington avenue, but when Undertaker G. A. Miller spoke about conveying the body there, the wife of the boarding boss almost went into hysterics. A relative took the body in and kept it until the hour of the funeral.

Conference of Members of the Board Health and Milk Dealers.

COWS ARE TO BE INSPECTED

Tuberculine Is the Substance Used to Determine the Presence of Tuberthe Condition of the City's Water Supply -- Various Reservoirs Visited

A special meeting of the board of health was held yesterday afternoon, at which were present the large milk dealers of the city for the purpose of discussing the tuberculosis question and agreeing upon some action to guard against the contamination of the milk supply.

Veterinary research has discovered recently that cattle can be infected with tuberculosis and appear in fine physical condition; that a cow may possess all the outward show of a creature in the best of health and at the same time be

"rotten at the core."

That is not it. Tuberculosis does its or five years for it, after attacking a healthy cow, to develop to the extent that the external appearance of the anihas been proven that the germs are infectious, so that a drove of cattle might take it from one.

Tuberculosis affects the human as well as the animal, and for this reason it is that the cows that supply milk to cities should be examined to discover whether or not any taint of the disease exists. The milk of a diseased cow is necessarily impregnated with tuberculosis germs, and the use of such milk is dangerous to the health of the community.

MILK DEALERS PRESENT. M. J. Kelly, president of the board,

called the meeting to order. The other nembers present were Dr. W. E. Allen, Dr. W. A. Paine, H. J. Ziegier and Secretary Briggs. The milk dealers in attendance were: George Carpenter, of the Scranton Dairy company; C. H. Shedd, of Spruce street; William Conrad, of Green Ridge: Stoll & Seward, of the North End Milk company; T. W. Hankins, of Cedar avenue, and George Schreiber, of Pittston avenue.

Food Inspector Thomas said that 4 .-000 cows are necessary to keep up the supply of milk which comes into Scranton from the farms every morning. Statistics have shown that two per cent. of the cows of the state are affected with tuberculosis, and at that ratio 80 of the cows supplying the imported milk

to Scranton are diseased. The members of the board and the milk dealers talked the matter over and decided that a resolution be passed directing the owners of cows on milk farms to have them inspected and those put to death which are affected with the disease. It was estimated that the cost of examination would not be more

#### AMOUNT OF WATER USED.

The patrons of the Gas and Water company use daily from twelve to fourteen million gallons of water. The dams have a capacity of 3,250,000,000 gallons and within six months a reservair will be built at the Burnt Bridge in Roaring Brook township which will have a volume of 1,400,000,000 gallons. ### MARKETS AND STOCKS

Wall Street Review.

New York, July 17.—The liquidations which have been such a conspicuous feature of the trading at the stock exchange during the past few days, continued during the early sessions. It is true that at the start the market was irregular in its course and in some cases there was more disposition to buy, but the advances which took place were soon lost and the selling toward 11 o'clock was vigorously renewed. Re-ports of heavy gold exports, the illness That Was Appointed to Investigate of a third ticket in the presidential race were all used with effect against the market. As on yesterday there were signs of demoralization and the sales of holders whose margins had been exhausted formed an important part of the transactions. Lake Shore tumbled 514 to 137%, while the other prominent issues fell anywhere from ½ to 3½ per cent. Nickel Plate second preferred, a Vanderbilt stock, brought 23 against 30 the last previously reported sale. About one o'clock there was a let up in selling from all quarters and the market began to recover. Confidence slowly returned and in the last hour the market exhibited greater strength than at any other time for the day. The recovery was the result of reports that the gold shipments to Europe on Saturday will fell below previous estimates, that the sound money Democrats had given up work very slowly and it may take four the idea of nominating a third ticket and that the Morgan Belmont syndicate stood ready to take bonds in sufficient amounts to protect the treasury gold mal will denote that she is unsound. It reserve. Short sellers were the heaviest buyers in the late trading and their purchases led to a recovery/of 14 to 5 per cent., the latter in Jersey Central. Speculation closed firm in tone. Net changes generally show gains of 140% per cent. Total sales were 430,837 shares.
