Coroner's Jury Exonerates Company for Death of Nicholas Pidage.

In Coroner Longstreet's office last night testimny was taken in the case of Nichlas Pidage, the Greek, who was killed Wednesday morning by a trip of cinder cars at the blast furnace. It was proved that there was a passenger car on the rear of the trip for the accommodation of the men going up to work at the company's reservoir and that Pidage persisted in riding on the bumpers between two cars after he had been warned to get off and go back in the last car. The jury returned the following verdict:

"We, the undersign... jurors find that the said Nicholas Pidage came to his death from injuries received by being run over by an ore car on the Lackawanna Iron and Steel company's tracks. We furthermore find that the accident was due to his own carelessness and exonerate the employes from all blame. A. E. Yorhis, G. A. Miller Jacob Demuth, A. J. Winebrake, and

Eight Scranton bootblacks were put off the train at Pittston Junction, but turned up smiling at Kingston where they were put off again. At Shickshinny they, by some means, were still free passengers and no one will be surprised to find the knights of the polish guests of the regiment when Lewistown is reached.

OFF FOR CAMP.

That the Thirteenth Regiment for losing none of its popularity was attested last night by the immense throng which gathered at the Delaware, Lack awanna and Western station to see the boys off for their annual seven day's encampment which takes place this year at Camp John Gibbon, Lewiston The platform, plaza and street about the station were literally packed with people, the girls predominating two to one, and it was with no little difficulty that a passageway was made to the train for the soldiers.

The central city companies, A, B, C, and D marched down from the armory at 9 o'clock to the strains of "The Girl I Left Behind Me" and were met at the train by Company F, of the West Side: Company E, of Honesdale: Company H, of Providence, and Company G, of Montrose. Very little time was lost in getting aboard and at 9.30 the train pulled out amidst a general cheering and waving of hands and handker-

There were eleven cars on the train ten coaches, a combination baggage and smoker and a stock car for the elever horses, which the principal officers require. The first battalion composed of Companies E, F, G, and H, occupied the first four coaches. The headquarters car came next and the sixth, seventh, eighth and ninth coaches were occupied respectively by Companies A, C and D, comprising the second battalion. The smoking department of the combination car was taken up by the crew and the grooms.

Prevented Cholera Feeding on Lactated Food.

There is no security against these sum-ner disorders so reliable as lactated food. High temperature makes it difficult for baby's stomach to digest any but perfect Unusual precautions must now be taken

or the weak, sickly babies fall victims to cholera infantum.

The splendid success of lactated food in keeping babies strong through the sum-mer is explained by its composition. Na-ture's food for babies, healthy mother's milk, is the model of lactated food. The baby takes it with relish, and digiests and assimilates it easily.

Bables are safely and readily weaned during the summer months on this spien-did nutritive. It is marvellously adapted for carrying children safely through their teething troubles. And for the same rea-son that lactated food is by far the best diet for young children, so it is peculiar-ly fitted to the needs of nursing mothers as well as invalids and the aged. Here is a letter from Mr. Henry Rowe,

Keep a close eye on baby's food and of Lewiston. Me., which is but one of thousands of similar letters that have been published indiscriminately through the United States within the past five weeks.

Wells, Richardson & Co. Gentlemen: I herewith enclose you one of our baby boy's photographs. We call him our Lactated Food baby, because he has eaten nothing but lactated food since he was born.

We commenced using lactated food when We commenced using lactated food when living in Fall River. Our next oldest boy to the baby was born there, and my wife, who is not very strong, nursed him from the breast as she had nursed four before him, but she became very sick and Dr. Gifford, who attended her, persuaded her to try lactated food. We did so and found to try lactated food. We did so and found it was better than the mother's breast, and the doctor told her never to nurse another baby. We followed his advice, and we can say that this baby is the fin-est of his age we have had."

DELAYED PAYMENTS MADE.

City Employes Throng Office of City Clerk Lavelle.

City Clerk Lavelle's office was thronged yesterday afternoon by street employes who came to get their mea gre earnings for which they have been kept waiting over a week by the refusal of the Democrats to make a quorum at the last preceding meeting of select council. It is customary to pay on Saturday, but as these men had been kept waiting so long the city clerk and controller put aside every other bust ess yesterday and attended to the en dorsement of the warrants.

The resolution killed in select council Thursday night, making it possible to pay these warrants without the en-Millinery. Don't read our advertisements dorsement of councils, purported to be boon for the horny-handed son of toll, but in truth was nothing more or less than a scheme of the Democrats to permit continued adjournments without bringing down upon their heads the wrath of these city employes. The Republicans saw through the cheme and promptly blocked it.

MONROE AVENUE PAVING.

Contract with Dunn Bros. Executed Yesterday.

The much discussed contract for paving Monroe avenue, between Pine and Myrtle streets, was yesterday executed with Dunn Bros. The estimate cost of the work on the four blocks is \$20,880.20. It will not reach this amount, however, as the engineer figured on the basis of \$2.58 per square yard, and Dunn Bros. propose to do it for \$2.23 per square yard. The work will be commenced as soon as the city engineer can give the grade lines. The contractors gave bond of \$3,000 for the faithful performance of the

contract. M. H. Dale and G. A. Fuller

are sureties.
