

Ladies, You Ought to Be Hand And Glove With Us These Days.

You probably know all about our kid glove stock. It is matchless in extent, unsurpassed in quality and unequalled in correct styles. These are great points for glove buyers which few can afford to slight, for there is not a lady's hand in Scranton that we cannot glove to perfection. Enough said on desirability, for that cannot be called in question.

Now as To Price

We have determined to reduce stock and offer the following numbers at the reduction named. The goods are regular, fresh, and in no way jobbish.

Sale In Full Swing

Sale Price, 59c

Notice

Sizes are complete in all of the lines named above, but quantities are restricted, therefore sizes once sold out will not be duplicated at the special sale quotations.

GLOBE WAREHOUSE.

PLENTY OF RAIN AT CAMP JOHN GIBBON

Soldier Boys Were All Hunting for Cover Last Night.

INSPECTIONS HAVE COMMENCED

Thirteenth Put Through the Regimental, Battalion and Company Drills That Will Be Part of Tomorrow's Inspection--Minersville Man Drowned While Bathing in the Juniata--Notes About the Campers.

By United Press.

Camp John Gibbon, Lewistown, Pa., July 20.—This has been a day of hard work for the first brigade, as the organizations have been put to a severe test in the inspection drills. The inspections were conducted under the supervision of Governor Hastings, and by Inspector General Morrill, Adjutant General Stewart, Colonel S. Sumner, and Captain Leydon, of the regular army and the corps of national guard.

The troops were put through regimental, battalion, extended order and company drill, and created a fine impression, on account of appearance and maneuvers. The Third regiment under Colonel Babson, was out at seven o'clock, and after their inspection the Second regiment under Colonel Porter, went out in the drill field. The first regiment got out at 11 o'clock, the sixth regiment at 2 o'clock, the state fencibles at four o'clock and the invincibles at six o'clock.

The inspections were considered excellent and it was thought that there was an advancement shown. The personnel of the troops was, however, first-class, and elicited the commendation of the officers. This was especially so of the First and Second regiments and the Fencibles.

COULD NOT BE EXCELLED.

General Wiley, commander of the Second brigade, remarked of the First regiment that the personnel of the command could not be excelled. Colonel Sumner, the regular army inspecting officer, said that while it was not his place to speak in praise of a particular command, the First regiment certainly presented a fine appearance. Governor Hastings also spoke highly of the commands of the brigade, and Colonel Sumner, Lieutenant Aultman and Captain Leydon, of the regular army, spoke in terms of the highest praise of the First brigade.

The first death in camp was reported today. John A. Brennan, a stableman of the Third brigade, from Minersville, was drowned while bathing in the Juniata. He was drowned in five feet of water and all efforts to save him were unavailing. Battery C turned out and tried over the river to raise the body, but unsuccessfully. Brennan was only twenty-one years old.

Surgeon General McCandless, accompanied by Surgeon Eagle, of the Third brigade, today inspected the quarters of the commands of the brigade and put the various hospital corps through their drills. The surgeon general was pleased with the good showing made. The troops of the regular cavalry had a drill today, and later on all the cavalry will give a drill under the supervision of Major Lobo, commander of the detachments of the regulars. The two cavalry troops will be on the flanks of the national guard troops, and the drill will be in close order.

BRIGADE OFFICERS OF DAY.

Major Williams will be first brigade officer of the day tomorrow. Major Watts, of the Eighth regiment, was brigade officer of the day today. Third brigade, Lieutenant Colonel Wehrlich was division staff officer of the day and Lieutenant Colonel Graham, of the Fourteenth regiment, was division field officer of the day. Lieutenant Colonel Elverson and Lieutenants Chergel and Kessler, of the regular army, were guests of Colonel Good and Major Williams and Kessler of the First regiment. Tonight rain is falling heavily and the soldiers are hunting cover.

EVENTS OF DAY IN CAMP.

Patrick Brennan, of Minersville, Drowned in the Juniata. Special from a Staff Correspondent.

Camp John Gibbon, Lewistown, Pa., July 20.—Today a hard, steady rain descending and scarcely a sound of military life arises from the plain along the Juniata. The only evidence of a camp is a faint glow of light ascending from each of the three brigades. Of noise there is none, as the soldiers have been forced by the rain to take refuge within the sea of tents. The day has been uneventful, excepting the afternoon drill in formation and movements preparatory to Wednesday's inspection and the drowning of a man in the river. The drowning accident set the Third brigade camp on fire.

Patrick Brennan, of Minersville, a hostler in Battery C, was bathing in the river this morning with two companions and sank despite their efforts to save him. The three were swimming in the middle of the stream, about a quarter of a mile above where the Thirteenth camp is located. Hundreds of the soldiers crowded the bank during the day watching the unsuccessful efforts to recover the body. A cannon was fired near the spot for several hours in hopes of starting the remains to the surface by concussion and the river was waded and dragged. Tomorrow a whole battery of dynamite will be used in an effort to raise the body. The accident will, it is understood, cause a division order prohibiting bathing except during certain hours.

THIRTEENTH PREPARING.

At 4 o'clock the Thirteenth was put through the regimental, battalion and company drill that will attend Wednesday's inspection. Concerning today's inspections of the First regiment, the Thirteenth's only rival, Colonel Courten was heard to remark, "If no more difficult drill is required of the Thirteenth I would be willing to have my boys attempt it on a half-hour's notice." The First was practicing the drill all day Sunday, showing that the colonel knew in advance what the test would be, yet the regiments of the Thirteenth, which will be inspected tomorrow, have not received any advance notification nor is it expected

FUNERAL OF GOVERNOR RUSSELL.

Final Services in Shepard Memorial Church Are Largely Attended.

Cambridge, Mass., July 20.—The funeral services over the remains of ex-Governor William E. Russell were held today. At 10 o'clock the services were conducted at the late residence of the deceased by Rev. Dr. Alexander McKenzie, of Shepard Memorial church, the late governor's pastor.

The body was then placed in a hearse, and the hearse, preceded by sixteen Cambridge patriots in military uniform, proceeded to the Shepard Memorial church. The front rows of the centre aisle were reserved for the family and immediate friends. Behind the right centre aisle sat President Cleveland, Acting Governor Walcott and two members of his staff, while the front rows of the outside aisle were occupied by members of the press. Directly behind the president and governor sat the justices of the superior court of Massachusetts and the members of the executive council. Behind these were seated members of the Cambridge city council, and in the rear of these were seated the members of this year's senate and house, this year's members of the Cambridge city government, with the members of the Boston city government and the commissioners of city governments of outside cities of the commonwealth.

ETTA ROBBINS' CRIME.

A Bloodthirsty Young Woman With an Axe Nearly Succeeds in Wiping the Call Family Out of Existence.

Cincinnati, July 20.—A special to the Post from Huntington, W. Va., says: Six miles from above here, at the mouth of Three Mile Creek, occurred one of the most horrible murders ever known on the upper Ohio waters. The scene was on a shanty boat, and the killed are A. J. Call, 45; Nettie Call, his daughter, 24; Lottie Call, another daughter, is fatally injured. Those in a critical condition are Grace Call, 11, and Otis Call, 12.

Last night Call and his family retired. Etta Robbins, aged 24, was at their house and retired with one of the daughters. A little boy who was sleeping with his father makes the following statement, he being the only one outside the house who saw the murder:

"At three o'clock this morning I was awakened by Etta Robbins cutting my father with a double bit axe. My sisters, Lottie and Nettie, ran into our room and Miss Robbins turned on them. She killed Nettie and cut Lottie several times, when Lottie fled from a window into the river. She then cut several of us children and threw the axe at Lottie, who was swimming to the shore."

The woman acknowledged the killing of A. J. Call, but denies killing the others. Call's head was almost cut off and his heart was taken from a wound in his breast. The head of the girl killed was also almost cut off and her heart cut out. The children were cut in a dozen places. A coroner's jury was impaled. The verdict was that Etta Robbins committed the murders. The boat was cut loose and brought here and the woman placed in jail. The feeling is very strong, and thousands of excited persons line the river bank and many threats are heard.

EVENING TELEGRAPH'S FUND.

Over Two Thousand Dollars Raised for the Pittston Sufferers.

Philadelphia, July 20.—The Evening Telegraph's two shift fund has reached the sum of \$2,225. The Telegraph today devotes a page to the catastrophe and an appeal for a permanent relief fund. Mayor Warwick issued a call today for a meeting of the Citizens' Permanent Relief association, to take into consideration the distress that prevails in Pittston and the means to allay it. The meeting will be held at the mayor's office at half past twelve o'clock tomorrow. It is likely, too, at the same time, there will come up for consideration the appeal recently made for aid by the Amble sufferers.

"The members of the committee are said to be very anxious to aid the movement in behalf of the families of the engulfed miners, which was begun by the Evening Telegraph and there is little doubt that the fund will be substantially helped by their contribution. There is a balance to the credit of the fund, but it is more likely that a further appeal will be made."

TO PREVENT GOLD HOARDING.

Kansas City Banks Have Censored Paying Out the Yellow Metal.

Kansas City, Mo., July 20.—All Kansas City banks today ceased issuing gold either in exchange for bills as payment of checks, or withdrawals of deposits. Cashier Rule, of the bank of Commerce, who returned from St. Louis this morning, said the banks there will take the same action.

The reason given by the bankers here for this move is the credit of the country, and the intention of many depositors to withdraw their deposits in gold and hoard the yellow metal in the belief that it will go to a premium.

Venezuela's Brief.

Washington, July 20.—Venezuela's brief, prepared by Counsel Storror and presented to the Venezuelan commission, as well as to the British consul today is the most important paper that has so far appeared in the case. For the first time a true division line is laid down and Lord Salisbury's contention as to settlements is shown to be a mere diplomatic quibble, utterly unsupported by law or fact and unworthy of any consideration by the commission.

Steamship Arrivals.

New York, July 20.—Arrived: Aller, from Bremen; Kaiser Wilhelm II, from Gibraltar; Sailed: Christine, for Copenhagen. Arrived out: Sallie, at Bremen; Emma, at Gibraltar; State of California, at Glasgow. Sailed for New York: Patria, from Hamburg; Sighted: München, New York for Bremen, passed Newark Point; Alesia, Naples for Pavia, passed Gibraltar.

COLORADO WILL SUPPORT BRYAN

Boiling Silver Republicans Come Out for the Democratic Ticket.

RESULT OF SESSIONS AT MANITOU

A Manifesto is Issued in Which All Silver Advocates, Especially Republicans, Are Urged to Vote the Democratic Ticket--Plan of Operation.

Manitou, Col., July 20.—The committee of boiling Republicans who have been in session here for several days, late this afternoon made public the following manifesto:

We deem it fitting that we who have heretofore affiliated with the national Republican party and who have rejected the platform of the platform adopted at St. Louis and refused to support the nominees of the convention should state our position in the present crisis and give our views on the silver question.

When certain delegates repudiated the financial plank of the platform and withdrew from the convention, we determined that we would give our support to such candidates as should appear most willing and capable of aiding in the restoration of silver to its rightful place as standard money.

The Democratic party has at its Chicago convention taken a position in its platform so pronouncedly favorable to silver and has taken a position in its platform so pronouncedly favorable to bimetallicism, that we believe to be the cause of humanity, of civilization, and the paramount question now before the American people.

We therefore announce that we shall by voice and vote support Messrs. Bryan and Sewall for president and vice president, and we appeal to all citizens, especially Republicans who feel as we do, that gold monometallicism would be of lasting injury to the country, to act with us in securing their election.

The Democrats who believe in the gold standard are announcing their intention to support McKinley or proposing to put a third candidate in the field for the office of president, and the Democrats who believe in the gold standard are announcing their intention to support McKinley or proposing to put a third candidate in the field for the office of president, and the Democrats who believe in the gold standard are announcing their intention to support McKinley or proposing to put a third candidate in the field for the office of president.

A CRITICAL PERIOD.

This is a critical period in our national history. Our industrial and financial independence of other nations is involved in this campaign and we firmly believe there will be no return of prosperity until we shall have changed our financial system so as to restore the bimetallic system established by the fathers of the republic, and so believing we urge all friends of gold and silver to stand money and the interests of our country.

It is our belief that the only way to give Mr. Bryan and Mr. Sewall their hearty support, in advising this course we do not consider it necessary that they should abandon or surrender their present views on other questions.

Profoundly impressed with the importance of this campaign, we respectfully submit the foregoing to the candid consideration of the American people. H. M. Teller, Fred D. Dubois, Lee Mantie, Chas. S. Hartman, Edgar Wilson, John F. Sharf, A. M. Stevenson, Committee.

Manitou, Co., July 20, 1896.

TRAMPS INVADE AN IOWA TOWN.

General Campaign Committee Started in Favor of McKinley's Interests.

Philadelphia, July 20.—A business men's general campaign committee has been started in this city for the purpose of promoting the election of McKinley. The promoters, who are well-known merchants and business men, claim that the replies received from the circular inviting co-operation indicate that 5,000 names will be enrolled here by the end of this week. Similar organizations are to be effected in all principal cities of the country and very early, a leading merchant, will go to Boston tomorrow night to confer with gentlemen there with the view of organizing in that city. Later in the week he will go to New York.

The circular sent to business men here says: "In view of the magnitude of the interests at stake, co-extensive with the boundaries of our country and involving the most serious questions that have ever been presented to the people for settlement at the polls, and which today constitute a grave menace to the welfare of our country and very honor of our government, we ask you to join this committee."

BANKERS TO THE RESCUE.

New York Houses Will Put Up \$20,000,000 to Replenish Treasury.

New York, July 20.—The banks of New York will come to the aid of the government and supply gold to the treasury from their vaults in exchange for legal tenders. The movement to this end was started by Frederick D. Tappan, president of the Gallatin National bank, who said:

"It is hoped that something definite will be done tomorrow. I have been stirred at the liberality with which bank officers have responded to the request to co-operate in replenishing the treasury gold reserve."

President Tappan late in the day secured pledges from New York banks to contribute in the aggregate \$15,000,000 in gold to the United States treasury in exchange for legal tenders. It is possible that the amount will be increased \$20,000,000 tomorrow.

HE TOOK TOBACCO CURE.

Aged Habitual Devotee of the Weed May Die as a Result.

Lansing, Mich., July 20.—Charles W. Chittenden, of this city, a habitual user of tobacco, attempted to break the habit, and may die as a result. Mr. Chittenden, who is 70 years of age, made an effort to cease the use of the weed by taking one of the "tobacco cures."

He became insane as a result, and in his delirium last night jumped out of a second-story window, breaking his leg and injuring himself internally, so that he may not recover.

whose products have left him no return for capital invested and work performed, and last, but not least, let the grand army of laboring men, so called, the artisan, the merchant and the miner, and every one who depends upon his daily labor for his daily bread, look about them and observe the great number of those who vainly seek for a chance to work upon the great army of enforced idlers, and one and all resolve to try, not an experiment for a moment, but an experiment, but rather return to a policy that throughout the vicissitudes of our nation's infancy, through the interminable struggle of its manifold battles, has made of us a prosperous nation, in which the labor was not only respected and employed, but was so compensated that want and distress such as now weigh upon us was unknown. Let the lesson of history, too recent and too plain to be gained or denied, be heeded and let there be no fear that a system that so wonderfully protected labor, developed business enterprise and secured to the nation a contented and prosperous people in the past, will do aught but bring to us a return of like prosperity. The defeat of the leader of our opponents to the contrary notwithstanding. In Mr. Bryan the Chicago convention placed at the head of the ticket, a gentleman of exceptional ability and high character, no man of his age was better known throughout the United States than he. A member of congress for four years, he commanded the admiration and respect of all his associates in that body as a scholarly statesman and profound thinker. No man has ever assailed his character or in any way questioned his integrity or moral worth. His character is a fit example for the young men of this country. He has shown in all his public utterances that he lives his country and his countrymen, and that he sympathizes with them in their distress. He has also shown that he believed the standard system which makes gold the standard of value was in a great degree the cause of the present distress throughout the country, while the present money system is a cause of the distress. He has shown that he believed the standard system which makes gold the standard of value was in a great degree the cause of the present distress throughout the country, while the present money system is a cause of the distress.

MR. BRYAN CANNOT ANSWER LETTERS

The Boy Orator is Clogged by a Flood of Mail Matter.

SENDS A STATEMENT TO FRIENDS

Enthusiastic Advocates, I Angry Healers and Others Are Advised to Consult State and National Committees--The Candidate Is Now in Need of a Manager.

Lincoln, Neb., July 20.—When Mr. Bryan entered his library this morning to begin the day's work, he was appalled by the formidable array of letters and telegrams lying on his desk. Hard work on the part of Mrs. Bryan and himself and Dr. Schind, the temporary private secretary, has not made much of a hole in the small mountain of correspondence, and after seeing how matters stood, Mr. Bryan this morning drew up this statement which he handed to the United Press:

Lincoln, Neb., July 20.

To the Public: My daily mail has grown so large that I find it impossible to read all letters received and still more impossible to reply at length to each. Those who are interested in the success of our cause will appreciate the situation and pardon me for making the following suggestions:

First—As time will not permit a full discussion of political questions in so large a number of private letters, I shall, in order to avoid discrimination, reserve all such discussions for public occasions.

Second—All offers of services and suggestions as to the conduct of the campaign should be made to the national committee representing the various states and territories.

Third—All requests for campaign literature should be addressed to the secretary of the national committee at committee headquarters as soon as headquarters are opened.

If friends will be kind enough to observe the above suggestions, I shall be able to devote my time more fully to the work of the campaign.

W. J. Bryan.

Mr. Bryan took possession of his new office in the Lincoln hotel today. He has four communicating rooms at his disposal and will use them principally for consultation with delegations and other callers. He will continue to do most of his work at his residence. The necessity for a manager of the political end of his business is becoming apparent, and it is probable that the national committee will send him some competent person to handle his mail, look after visitors, arrange interviews and prepare schedules for his railway journeys.

SEVERAL HUNDRED LOAFERS DEFY THE RAILROAD CREWS AND AGENTS.

Omaha, July 20.—Railway men at Blair report that last night fully 200 tramps had congregated there. Many of them departed during the night on late trains, but many remained. Some were put off and walked back this morning. The agent at Blair reports that there are 100 additional tramps in the town, some having walked in, while others came in on trains. They assert they will ride to Sioux City despite the efforts of the railroad company and the town authorities to prevent them.

The first actual attack made by the tramps on a railroad employe was this morning, when they assaulted Agent Elsoffer, of the Omaha line, who had climbed on the train and ordered them to get off. The tramps, who were led by the gang, the two through freight trains on the Omaha line were run through stations, because at every small town there were gangs of the "tourists" that had walked out from Omaha or had been put off by the train agents. The small employes walked to Blair and there awaited the crowd.

YALE AGAINST SILVER.

Professors and Tutors Declare Hostility to the Chicago Ticket.

New Haven, Conn., July 20.—Yale professors and tutors, who are usually Democrats, are a unit in bolting the Chicago convention. Professor W. G. Sumner, head of the department of political economy; Professor Schwab and Professor Arthur Hadley of the same department; Professor Tracey Heck, head of the Latin department and Professor Andrew Phillips of the mathematical department, declare they cannot vote the ticket, and the minor professors assert that they will follow suit.

President Dwight, who has been accused of having misgung tendencies, has gone to Europe.

SHOT BY A TRAMP.

Reading, Pa., July 20.—Mrs. Isaac Rehr, aged 30, residing with her father, Daniel Yecker, near Exeter station, was shot by a tramp who entered her house and fired from her injuries. Three bullets were fired into her body. The county detective and a posse of men have started in pursuit of the man, who is said to be a cripple.
