Republican County Convention Call.

In pursuance of a resolution unanimously adopted by the Republican county committee at a regular meeting held on Thursday, July 18, 1896, the county convention will be held on Tuesday, August 4th, 1896, at 2 p. m., in Music Hall, Scranton, for the purpose of placing in nomination candidates for the following mentioned offices to be voted for at the next general election on Tuesday, November 3d, 1896, to wit: Congress (Eleventh congressional district), two county commissioners, two county auditors. Vigilance committees will hold delegate elections on Monday, August 18th, 1896, between the hours of 7 and 7 p. m. They will give at least two days' public notice of the time and place for holding said elections.

CITY NOTES.

Bernardino Burtano and Teresa Minichella were married by Alderman O. B. Wright yesterday. While the repairs are being made on the court house the weather signals will be displayed on the Postoffice building. The sheriff yesterday had the stock in the general store of Leon J. Osheski, on Pittman avenue, for \$29.75. Mrs. Helena Osheski was the purchaser. Registrar of Wills Hopkins yesterday admitted to probate the will of Bernarda Cawley, late of the borough of Lackawanna and granted letters testamentary to Peter Cawley. The first party for Block Island, which leaves Scranton at 8 o'clock for Lackawanna and Western railroad, at 8 o'clock next Monday morning, expects to reach Block Island in time for dinner Tuesday. The African Methodist Episcopal church fair will close tonight with a cake walk. Every person admitted will receive a chance on a barrel of flour, which is to be given to the person holding the lucky ticket. Jane Brady, Mary Ann Leach and Sarah Tiplin yesterday began an action in court against John Gogoban to recover an undivided one-fourth interest in a lot of land in the Second ward of this city consisting of three square feet. Scarcely a day goes by that does not bring an anonymous letter to Mayor Bailey. Complaints of every conceivable character are made, but the names of the writers are not given. All such communications will hereafter go into the wastebasket. David McDonald, of 511 Wyoming avenue, has resigned his position as shipping foreman of the Lackawanna, and in a few days leave for Lima, O., where his son, Thomas McDonald, is superintendent and stockholder in an oil concern. Mr. McDonald has been in the employ of the Diskon Manufacturing company for a number of years. Major Henry Belin, Jr., of Scranton, who is at Lafayette, is a leading citizen of that thriving town, and the representative throughout the anthracite coal regions of the Du Ponts of Wilmington, as stated last night that the mining industry has started out now in splendid shape with every indication that it will continue in good condition until Christmas. In view of this the miners are anticipating a prosperous time and are not talking at all in Lackawanna county of Pullin ideas and the Chicago ticket. Major Belin has been a resident of Scranton at most since the time when it was Slocum Hollow, a little furnace patch in Luzerne county. He has seen it grow from an insignificant hamlet to a great city of almost 100,000 people, and he has participated in the prosperity which has come to many people who tied to the growing town—Philadelphia Inquirer. It May Interest You. Saturday we offer special bargains in Ladies' muslin underwear. Ladies' blue thread hose. Ladies' shirt waists. Ladies' gloves and mitts. Ties, ribbons and summer corsets. Mears & Hagen. Ocean Grove, Asbury Park, and all points on the sea shore, take the Central Railroad of New Jersey. Train leaving Scranton at 8.20 a. m., Wilkes-Barre at 9 a. m., arrives at Ocean Grove and Asbury Park at 4 p. m., without any change of cars. Elegant coaches are run on these trains. Passengers will find this the most pleasing and desirable route to the sea shore.

IS ALTOGETHER TOO MUCH LIGHT

Councils Want Crystal Company's Bills Reduced One-Half.

THERE WAS A HEATED ARGUMENT

It All Wound Up in Harmony When Chief Hickey Explained the Exact Condition—Contractor Williams' Bill—New Resolutions Adopted. Good Deal of Routine Business Transacted by Common Council.

There was a tempest in a tea pot at last night's meeting of the common council over the amount of bills for lighting the Crystal Engine Company's house on Linden street. At the last meeting of select council a resolution was passed directing the chief engineer of the fire department to rearrange the lights in the building in some way that would cut down the cost of lighting one-half.

When this resolution came before the common council last night for action Mr. Zedler, of the Sixteenth ward, moved to lay on the table. This motion was strongly objected to and drew forth a spirited debate. Mr. Zedler again took the floor and declared that there was too great a tendency to antagonize the fire department all of which was very proper. He believed in getting the freest display of light and did not think the Crystals were wilfully burning light when there was no need of it.

Mr. Flanagan, the member from the Eighth, spoke in the same vein. He felt that the city can afford to be liberal with the fire in the Crystal house, but that he understood there was a leakage of electricity in the building and it was to do away with this that the resolution was aimed.

MR. OLIVER'S REMARKS.

In the meantime Mr. Oliver of the Fifteenth, had delivered himself of several speeches. He was opposed to the large bills for lighting the Crystals house and said very emphatically that there was no good reason why they should pay from \$20 to \$25 a month for lighting that building when the bills for the other houses were only \$6 an ill. Mr. Neals agreed with this view of the case. At this point in the interest of harmony it was suggested that Chief Hickey, who was present, make a statement of the situation at the Crystal house.

The chief said that thirty lights were being used in the building and as they are not controlled by separate switches they burn all night. By taking out some of the lights and properly controlling others he thought the bills could be reduced to \$10 or \$12 a month which is enough to properly light the building in his estimation.

It is in this case, I'm in favor of the resolution," said Mr. Zedler as soon as the chief had concluded. The other objectors were of the same opinion and the resolution passed and quiet was restored.

BILL OF MR. WILLIAMS.

The bill of Contractor E. S. Williams for work done on Nay Eng Engine house to date, \$4,000, approved by the architects, Brown & Morris, drew forth another kick. It had been presented to the auditing committee and Mr. Williams asked permission to amend the bill and have it passed. There was some lively objection to the irregularity of the proceedings but eventually the bill was ordered paid.

Resolutions were passed authorizing the city solicitor to file the claim of Thomas Jordan for damages caused by the grading of Twelfth street for \$30,000, requesting the sewers and drains committee to visit the court south of Prospect avenue, between Beech and Maple streets, and report to council on the possibility of constructing a pipe drain from rear of lot owned by Patrick Donnelly to Maple street to connect with the pipe drain now laid to said point; directing the city engineer to give grade, stakes in Schmitt street, between Birch and Willow streets, the said court being in an unsanitary condition and dangerous to the health of the community.

WEST SIDE SEWER.

An ordinance for construction of a sewer system on the West Side in the vicinity of Robinson street was introduced and referred to committee.

A select council ordinance for paving Wyoming avenue, between Linden and Mulberry streets, was referred to a committee and reported favorably forthwith.

The following ordinances were reported favorably from committee: That the flashing grade on Third avenue; that electric light at Gibson street and Taylor avenue; narrowing the roadway and widening the sidewalk on Wyoming avenue, between Linden and Mulberry streets; narrowing the roadway and widening the sidewalk on Wyoming avenue, between Mulberry and Vine streets; for an electric light on the corner of Cumberland avenue and Hollow street.

The public building committee reported resolutions awarding the contract for the two cages for women in the police station to Fred Maffey for \$250. The contract for the plumbing work for the same was awarded to P. Connell & Son for \$99.

BIDS FOR A PIPE DRAIN.

The following bids for the Hampton street pipe drain were received: Hart & Gibbons, \$1.15 per lineal foot; Peter F. Mulligan, \$1.15; Nicholas & Co., \$1.74; Dunn Construction company, \$1.15; T. J. McNulty, \$1.10 per lineal foot.

A communication addressed by the street commissioner to the mayor was read. It called attention to the fact that Roger Quinnan, while employed by the city, sustained a broken leg, and while the commissioner did not think he had a legal claim against the city for damages, still he thought it would be well to furnish him with some financial relief and devise some means of relief for himself and family. The communication was referred to the select council.

Action of select council in adopting a resolution inviting the national convention of letter carriers to meet in this city in 1897 was concurred in.

A resolution appropriating \$100 to pay Scranton's share of the cost of the municipal convention was passed, and an ordinance introduced by Mr. Flanagan appropriating \$409 to pay for paving of Spruce street was referred to a committee. Mr. Neals' motion to meet next Thursday night was defeated and a few minutes later the meeting broke up rather unceremoniously to witness the test of the fire department.

MR. JOHNSON'S GOODS FOUND.

They Are Down in North Carolina, All But the Whiskey. Word was received by Alderman Howe yesterday afternoon that the goods stolen from the Oriental club

AN APPLICATION FOR A RESPITE

Made to the Governor in the Interest of Joseph Boscino at Lewistown.

REASONS THAT ARE ADVANCED

It is Claimed That Recent Developments Present Old Facts in a New Light—What Governor Hastings Has to Say About the Request—Will Be Considered Next Week.

At Camp John Gibbon, Lewistown, yesterday afternoon papers were presented to Governor D. H. Hastings asking him to grant a respite to Joseph Boscino, who will be hanged on August 6 for the murder of Frank Conforti at Dunmore, unless the governor interposes.

OVER TEN THOUSAND.

Board of Trade's Twin Shaft Fund Keeps Crawling Upward—Those Who Contributed Yesterday.

The Scranton board of trade Twin shaft fund has passed the \$10,000 mark and is still crawling upward. The amounts received yesterday were:

Acknowledged \$5,514 25 Employees of Lackawanna Coal company 465 50 Employees of Johnson Coal company 339 45 Charles Chandler 2 09 THROUGH SIMPSON & WATKINS. Bryant Furniture company 5 00 Total \$10,317 29

Secretary D. B. Atherton has already turned \$4,600 over to the general committee at Pittston and today will hand to the committee about as much more.

At the meeting of the permanent committee of the Twin shaft fund association, it was found that the fund now aggregated \$25,000.

The rules which were adopted to govern the association say that the trustees of the fund shall not use any of the money to their personal use either directly or indirectly. The trustees shall meet the first Monday of June, September, December and March. The treasurer shall act as general distributing agent, keep an accurate account of the money transactions and give bonds to the association.

The trustees shall publish the auditors report annually in two daily newspapers of Wilkes-Barre, once a week for three weeks, stating amount of the fund, the sum in hand in cash, the amount of the securities, the character of investments, the amount paid out.

Thomas Mangan resigned from the office of treasurer and M. W. Boyle was elected in his place.

MIKADO AT THE FROTHINGHAM.

Well Sung by Wilkes-Barre Amateurs Last Night. Wilkes-Barre is vindicated. Her generosity and her musical ability were demonstrated by a single coup which occurred at the Frothingham last night. The fund for the relief of those who are rendered destitute by the Pittston mining horror was enriched by more than \$200 as a consequence, and a large audience was incidentally pleased.

That most quaint and useful of comic operas, "The Mikado," was the means through which all of this pleasure was afforded and this money secured and right merrily and musically it was interpreted. Applause was generous and frequent, and the number of encores responded to amounted to something more than a score.

Joseph P. Burns, formerly of this city, was the directing spirit of the affair, and the "Peep Show" of the opera, "The Mikado," and Francis O'Neill as "Pish Tush," did good work.

Miss Kittie McCabe was a winsome, tuneful and clever "Yum Yum." She sang with a wealth of expression and a purity of tone which indicated positive operatic talent. Misses Mae Kenney, as "Pitt Ling," was chic and thoroughly at home in the part. The "Peep Show" of Miss Sallie Bowman was delightful. Miss Etta Sleigh was a capital "Kathleen."

The chorus was strong, well balanced and well drilled. The finale of the second act was particularly strong.

WOULD LIKE TO COME HERE.

Letters Received by Secretary Atherton of the Board of Trade.

Secretary D. B. Atherton received two letters yesterday from men who are anxious to locate promising industries in this city. One of them is a resident of Paterson, N. J., and is an experienced twine and rope manufacturer. He holds patents pertaining to the making of twine which he says are very valuable and wants to embark in the making of that article in this city if a suitable site and \$25,000 capital are forthcoming. His factory would turn out two thousand pounds of twine a day which he says could be disposed of at a fair profit. To manufacture on that scale he would employ fifty hands and require 5,000 feet of floor space.

An Albany man wants to locate a factory for repairing boilers and machinery. The factory is now located in Albany but another site is being sought and Secretary Atherton was asked if he thought Scranton possessed the field he is looking for. The letters will be referred to the manufacturers committee.

WARNING TO BICYCLISTS.

Those Who Ride Recklessly Will Be Arrested Hereafter.

So many complaints have been made to Mayor Bailey about the reckless high rate of speed at which many wheelmen go along the busy streets of the city, that he has given explicit orders to the police to arrest every offender hereafter.

The mayor is disposed to give all the latitude that accords with common sense to the wheelmen, but he is determined that pedestrians will not have to take the risk of their lives in crossing the street.
