Miss Anna James, of Wilkes-Barre, is the guest of Miss Bertha Kelley, of Eynon street.

FACTS ABOUT COINAGE.

The gold eagle weighs 270 grains. The \$5 gold piece weighs 125 grains. The \$3 gold piece weighs 135 grains.

The gold dollar coin weighs 25.8 grains. The silver 5-cent piece weighs 20.8 grains. The 2-cent bronze piece weighed 96 grains.

The silver 5-cent piece weighed 20.8 grains. The 2-cent bronze piece weighed 96 grains. The "dollar of our daddies" weighs 416 grains.

The 10-cent silver piece weighed 12.375 grains. The 5-cent nickel piece weighs 77.16 grains. The common quarter of silver weighs 194 grains.

The 2-cent fashioned copper piece weighed 264 grains. The fineness of our gold coins is about 90 per cent.

The quarter eagle, or \$2.50 gold piece, weighs 67 1/2 grains. The 2-cent nickel piece, now discontinued, weighed 30 grains.

The nickel 5-cent piece is exactly three-quarters of an inch in diameter. The silver 5-cent piece was authorized by act of congress in 1792 and its coinage was begun in 1794.

The 10-cent silver piece was authorized by act of congress in 1792 and its coinage was begun in 1794. The 5-cent piece was first coined in 1795, by virtue of an act of congress passed April 2, 1792.

The nickel cent was authorized February 21, 1857, and its coinage was begun the same year. The first regular silver coinage to be put into circulation in this country was in October, 1792.

The \$10 gold piece was authorized by act of congress April 2, 1792, and its coinage was begun in 1794. The silver quarter was authorized by act of congress in 1792, April 2, and its coinage was begun in 1794.

The quarter eagle, or \$2.50 in gold, was authorized April 2, 1792, and its coinage was begun in 1796. The 420 grain piece was authorized by act of congress March 3, 1849, and its coinage was begun in 1850.

The bronze cent was issued in accordance with a law passed in 1857 and its coinage was begun in 1846. The first purchase of copper to be used in the United States coinage was in 1792, in six pieces.

The cent takes its name from the Latin word "centum" (a hundred), this coin being a hundredth part of the dollar. The cent was first coined in 1792, after his accession to the throne, in 1860, had dollars of 412 grains coined for use in Scotland.

The dollar gold piece was authorized by act of congress March 3, 1849, and its coinage was begun the same year. The diameter of the silver dollar is exactly one inch and its thickness is nearly eighty-thousandths of an inch.

The "dollar of our daddies" was authorized by act of congress April 2, 1792, and its coinage was begun in 1794. The standard dollar was authorized by act of congress February 28, 1875, and its coinage was begun in the same year.

Oil Market.

Oil City, Pa., July 24.-The option oil market was quoted today at \$1.08; credit balances, \$1.06.

A CHAPTER ON MONEY MAKING. If a man takes a piece of steel worth 15 cents and makes it into watch springs worth \$10, that is skill.

If he takes a piece of paper worth 3 cents, and writes on it a poem that sells for \$5, that is genius.

If he takes a farm worth \$5 an acre, and by his labor and knowledge puts it in heart again and makes it worth \$20 an acre, that is work.

If a man buys a yearling at a trotting sale for \$15 that in its three-year form develops ability to make a mile at a 2:00 1/4 gait, that is judgment.

If a man buys a silver mine he has never seen, and it makes him a millionaire, that's luck.

If a man buys an article today for \$1.50 and sells it tomorrow for \$1.00, that's business.

But when a government takes 50 cents' worth of silver and coins it into a cart-wheel, and says legislatively that it is 100 cents, or a dollar, and pays it out as such to its creditors, that is not finance, but highway robbery-New York Sun.

Peruvian Bitters. Lafayette, Ind., Aug. 6, 1893. Aunt Rachel Beer: I have been using your Peruvian Bitters of late for malarial fever that I have not been entirely rid of for the past two years.
