#### SOLEMN REQUIEM MASS.

Celebrated at St. Mary's Church, Pittston for Repose of Souls of the Victims of Twin Shaft Disaster.

A notemn high mass of requiem was elebrated in St. Mary's church, Upper Pittston, yesterday morning for the repose of the souls of the men entombed in the Twin shaft. Just a month ago yesterday the dreadful accident happened. It is conceded beyond the possibility of a doubt that the men are dead, and that there is little hope of ever recovering the bodies.

Of the fifty-eight men, nearly all were Catholies, and many belonged to St. Mary's parish, of which Rev. J. J. Greve is pastor, and which was recently formed out of St. John's parish, over which Rev. John Finnen presides. The church is located on a hill not far from the Twin shaft. Heavy black folds enshrouded the

main altar and in the center aisle a catafalque was placed with three large candlesticks on either side. Every seat in the church was occupied and the aisles and vestibules were filled. Many were kneeling on the steps at the entrance. The wives, mothers, fathers, orphans, brothers, sisters and relatives of the entombed men had places reserved in front.

PRIESTS PRESENT. At 10.20 Right Reverend Bishop O'Hara, Right Reverend Bishop Hoban and the following priests entered the sanctuary: Rev. The choir of St. Dominic's church Parsons, sang the Gregorian requiem mass, Miss Margaret Kearney, of Pittston, was soprano soloist, and Proessor William Kelley was baritone soloist. The music was inspiring. grief of the bereaved ones was intense during the mass and their lamentations filled the church.

Right Reverend Bishop O'Hara pronounced the final benediction. The sermon was preached by Right Reverend Bishop Hoban. He was sent to Pittston after ordination, but he would pre fer to have Father Finnen, who is so well qualified to speak, having known the entombed men, having joined many of them in wedlock, and baptized their children, preach the sermon, but he was ill at home and could not come. In the course of his touching sermon

THE BISHOP'S REMARKS.

"We are Catholics, and we mourn not as those without hope. We believe that Jesus Christ died and that he arose again and that we inherit the fruits of the Redemption. The death of these men came suddenly, but in the mercy of God they may have had time to ay one prayer for mercy; they may have been able to say 'God forgive me, and all merciful God heard and forgrave. You will meet them no more in this world, but in the brighter and better world, there you shall meet, hus-

#### MANY USES FOR GLASS.

Rails, Sleepers, Dresses and Othe Things Made from It.

From the Hartford Times. There was once a time when glass we used only for window panes and mirror but since then it has developed in many different fields. By means of valuable toughening process, recenti discovered, glass may now be molde into lengths and used as railway sleep ers. Glass rails are also produced by

the same toughening process. It is therefore possible to have a complete

glass rallway. The glass rails are turned out in izes and shapes similar to those of the ordinary steel rails. They are far ougher and resist the action of the dements more successfully than steel. There is reason to believe before long that we shall be able to ride in glass cars or glass rails laid on glass sleep-

The manufacture of a glass dress n Toledo is probably one of the most curious uses to which glass has been put. This garment is described as beextraordinarily beautiful. Its foundation is a silk warp, woven with ine strands of glass. In each strand there are 250 almost invisible threads. One of the latest uses of glass is in illing teeth. This method is said to be sarticularly effective with the front ceth, where it is less conspicuous then old, being indistinguishable from the ooth surface.
