SILVER BARONS' STAKE ON BRYAN

HIS ELECTION MEANS MILLIONS.

The Yearly Profits of American Silver Miners Would Amount to \$40, 000,000 -- Records of Some Millionaires -- The Deep Interes of Senators Teller and Jones in the Silver Cause Explained.

Washington, Aug. 14.-Chairman Faulkner, of the Democratic Congressional committee, says that this cam paign is one of the masses against the classes. To prove his assertion he calls attention to the published list in the free coinage papers of a score or more New York millionaires, whom, he maintains, are contributing heavily to the Republican cause.

The managers of the Republican Congressional committee have frequently called attention to the fact that the free silver propaganda is sustained by the silver mine owners. They have prepared a partial list of these silver kings, to who the free coinage of silver means a yearly bonus of \$40,000,000 to \$50,000,-000 upon their product. This list off-sets that which Chairman Faulkner and his colleagues have caused to be published and shows that the interest to be served is much more selfish than that which would prompt contributions

to the sound money cause.

As Senator Elkins, of West Virginia has said, free coinage of silver means a benefit alone to the silver producers, charge of the Democratic machine and and paying these producers \$1.29 an ounce for their product, when it is sel-ling in the open market at less than 70 wealthy men as St. John, the banker; cents, means a heavy bonus that must be taken out of the pockets of the

ANOTHER MAN'S RECORD.

Another active promoter of presiden tial figureheads in the interest of the silver syndicate, who was particularly active during the Chicago convention, is S. T. Hauser. Mr. Hauser was formerly a resident of Missouri and is a bosom friend of Senator Vest. Mr. Bland was once a silver miner in Montana and was formally put in nomination at the Chicago convention by Hauser's friend, Vest.

Then comes L. E. Holden, of Clevevation of the country depends on the ture. colnage of his product at the ratio of 16 to 1.

SUCCESS MEANS MILLIONS. "To the silver mine owners the election of Bryan and of a free silver Democratic house means millions. Placing the product of their mines at 54,000,000 ounces a year, though it would soon be 100,000,000 ounces and the government paying them at the rate of \$1.20 an ounce, and granting, for the sake of argument that it cost them 68 cents an ounce to mine it, the people of the United States would pay into the pockets of the silver miners \$41,000,000 a year and make gigantic monopolists of the very men who are crying out against monopolies in their platform.

"This is an unduly conservative estimate of the profits of the silver barons; the actual figures would more likely be \$75,000,000 a year. It will thus be seen at a glance what is involved in the election of Mr. Bryan, not counting the evils that would flow from the up the records and found that all of the retirement of upward of \$600,000,000 of gold, upon which the credit of the nation is founded."
