### NEW COURSES OF STUDY.

A Big Advancement Made in the High School.

The school board has decided upon a new course of studies at the high school which will be a big advancement over the old course and graduates will hereafter he well fitted to take a college entrance examination without spending an additional year in preparation.

The new con-e has been needed for many years for the old one though good, is not up to the standard which a city of this size requires. The compite list of studies for three years have been decided upon and they differ litthe from that used at the Harrisburg high school. The fourth year studies will be determined upon later as the needs of the students are found.

The citizens, of Carbondale, should now feel moud of the educational system in this city. It is unusually good and with the corps of good teachers there is no excuse for sending the young people out of the city for their educa-
