

FLOOD OF SILVER IN DUTCHESS

The Boy Orator, Free, Independent and Unlimited.

MONEY QUESTION AN EASY ONE

It May Be Solved by More Money.

Billy Bryan's Eloquence Sweeps Like a Hurricane Over the Pasture Fields--The Manner in Which Silver May Be Raised to \$1.29.

Barrytown, N. Y., Aug. 23.—William J. Bryan yesterday at Madalin, a town in Dutchess county, delivered the first actual campaign speech since his nomination. Mr. and Mrs. Perrine, drove over to Madalin at 3 o'clock from Upper Red Hook. A number of houses along the five miles of road were decorated with flags, and the town of Madalin and the adjacent village, Tivoli, were also made attractive by a display of bunting. At the outskirts of Madalin a reception committee and a brass band greeted the candidate, and with the band in front a procession was formed for the entry into the town. Fifteen hundred persons were situated in a large pasture used in all campaigns for political meetings.

Mr. Bryan was again the old black alpaca coat in which he was attacked when he made the famous Chicago speech. His voice, after his long rest, was clear and strong. In the course of his address Mr. Bryan spoke as follows: I am going to call your attention to a few things for you to consider when you are trying to make up your mind what you ought to do. You take the gold-standard Democrats. Some of them say they ought to come out openly and endorse the Republican candidate so as to be sure to elect him, and others say "No, that would be dangerous, because unless we have a candidate of our own, why, there would be a great many Democrats who would be foolish enough to vote for the Republican candidate of the common people." (Laughter.) And there they are divided. They all want the same object—they all want to elect a Republican candidate because they think that will be accomplished through Republicanism. (Laughter.) But, as I say, they are divided as to the means of getting it, and I think that that is the real danger. I am going to call your attention to a few things for you to consider when you are trying to make up your mind what you ought to do. You take the gold-standard Democrats. Some of them say they ought to come out openly and endorse the Republican candidate so as to be sure to elect him, and others say "No, that would be dangerous, because unless we have a candidate of our own, why, there would be a great many Democrats who would be foolish enough to vote for the Republican candidate of the common people." (Laughter.) And there they are divided. They all want the same object—they all want to elect a Republican candidate because they think that will be accomplished through Republicanism. (Laughter.) But, as I say, they are divided as to the means of getting it, and I think that that is the real danger.

WILL RAISE SILVER TO \$1.29. They say our dollar will be a 50-cent dollar. Well, my friends, they refuse to apply to the silver that is produced in the world the law of supply and demand. We say, increase the demand, and that, acting with the demand now in existence, will operate upon the price of silver. We say that that new demand will be sufficient to consume all the silver now in the world, and being sufficient will raise the value of silver bullion to \$1.29 throughout the world. (Applause.) We have a reason for our belief. They simply say that we are to have a 50-cent dollar. Well, my friends, they refuse to apply to the silver that is produced in the world the law of supply and demand. We say, increase the demand, and that, acting with the demand now in existence, will operate upon the price of silver. We say that that new demand will be sufficient to consume all the silver now in the world, and being sufficient will raise the value of silver bullion to \$1.29 throughout the world. (Applause.)

ASKED A LEADING QUESTION. But I have spoken beyond the time I expected to. I simply want to say this: If there is any person here who is in favor of the gold standard, I want to know what he can get more work out of his gold than the silver miner. We are going to have a flood of money and that you will be drowned in it. We cannot appeal for your support. But if there is any person here who is in favor of the silver, I want to know what he can get more work out of his silver than the gold miner. We are going to have a flood of money and that you will be drowned in it. We cannot appeal for your support. But if there is any person here who is in favor of the silver, I want to know what he can get more work out of his silver than the gold miner. We are going to have a flood of money and that you will be drowned in it. We cannot appeal for your support.

Well, then, you will hear other men; if two men speak on the same position, one of them will probably speak, and there has been no fall in prices and he will denounce the people who are complaining that gold has risen in price, and after he has proven that the world will have prices fall. Now, these two are not consistent, but it follows all the way through. Why is it? Because no party in the history of the country has ever declared in favor of a gold standard, and they do not dare to do it. The gold standard is a bad thing and then tell 700,000 of liberty-loving people that they have got to suffer until some foreign nation brings them relief. (Cries "That is right!") My friends, I want you to remember that in the discussion of this money question there are certain fundamental principles, and when you understand these principles you understand the money question.

THE WATER-SWELL END OF THE TICKET IS CAUSING TROUBLE.

BRYANITES ARE BADLY Muddled

JONES CAUGHT IN HIS OWN TRAP

His Scheme to Film-Film the Populists is Already Bearing Bitter Fruit--There Are No Roses in the Western Pathway of Billy Bryan.

Harris Still Has Possession of the Democratic Cadaver in Pennsylvania.

Bureau of the Tribune, No. 501 14th street, N. W., Washington, Aug. 23.

The political pot has only been simmering for the past week, but it will soon come to the boiling point. All parties are set for the fight. The Republican managers seem to be the best equipped for battle. They have no side issues to bother them like their Democratic-Populist opponents have, and who seem to be all at sea everywhere. In the setting, when they are expected to meet the solid electoral vote for Bryan, they are at sixes and sevens. The Populists, whom the Democrats expect to catch by placing Tom Watson on their vice presidential ticket in the southern states only, are up in arms against the plan, and threaten to bolt the entire outfit. Shipplougher Seawell is not taken off the ticket. Senator Jones, chairman of the Democratic national committee, who set up the job at the St. Louis Populist convention, is very much disturbed over the outlook, and has set the alarm. He is in danger of being caught in it himself instead of ensnaring the Populists for whom it was intended. Before he left for Chicago early this week, Senator Jones stated to his Democratic friends here that he anticipated no end of "franktalkerous Pop," as he calls them.

Information comes from several of the southern states, where Populism is very strong, that unless Mr. Seawell is withdrawn the Populists will fuse with the Republicans on state and congressional tickets, and thus endanger the election of Bryan and Watson electors. Tom Watson knows he is only being used as a stool pigeon by the Democrats, and that he stands no more chance of election than he does of going to heaven in a balloon. Watson was formerly a Democrat, but there is no person whom he hates worse than a member of that party now. He is particularly bitter towards Mr. Seawell, and all other Democrats who are tainted with plutocracy. He despises a man who has more money than he has. And yet this is the kind of a man the Democratic leaders are trying to placate. It is said that Senator Jones is willing to promise him anything—a cabinet job or a good foreign mission—if he will only behave himself in this campaign. But Watson will accept no verbal contract, and as Candidate Bryan refuses to make any promises in writing, Chairman Jones finds it a mighty difficult job to shut Watson's mouth.

NO SOLD SOUTH. The outlook for Democratic success in the South is anything but promising at this writing. There are at least half a dozen states south of Mason and Dixon's line which are more likely to cast their electoral votes for McKinley and Hobart. They are Kentucky, Tennessee, North and South Carolina, Florida and Virginia. Senator Quay will have charge of the Republican campaign in the south, and he is expected to get down to hard work upon his return from Florida. Quay is a native-born politician in the south. He knows the people down there. He has made a study of southern politics and the methods used at the polls in those states. There he has the confidence of the southern leaders. He knows the intricacies of their working harness. If under Senator Quay's guiding hand, the Republicans cannot break into the solid South then they might as well throw up the sponge. Other leaders have tried their hand, but with little or no success. It is not for Senator Quay to see what he can do with the South.

Candidate Bryan's path in the West is not strewn with roses, as his managers would have the people of the East believe. He will not carry his own state, Nebraska; neither can he carry Kansas, Oregon, Washington and California. From the best information received at Republican congressional headquarters those states will not only send a large majority of sound money members to the next congress, but they will cast their electoral votes for McKinley and Hobart, but they will send a large majority of sound money members to the next congress. All the talk about Bryan carrying the West is a mere bubble. The Mississippi river is the merest twaddle. It is only done for effect in the East. Well, the East will have none of it. Not only every eastern state but every middle and western state, Indiana, Illinois, Wisconsin and Michigan, will cast their electoral votes for McKinley, honest money and protection, all the blowing of the Altoids, Jones, Shanklins and the other windy free silverites to the contrary. The defeat of poor old Horace Greeley in 1872 will be nothing compared to the laying out of Bryan and his outfit in next November. The tidal wave of which threatened a few weeks ago to carry everything before it is rapidly subsiding, and by the time election day rolls around there will be nothing left of the Bryan boom but wind and there won't be enough of it to blow a straw hat off your head.

HOKE SMITH IS SAID. Secretary Hoke Smith, the only member of the Cleveland cabinet who is supporting the Chicago ticket, to visit down into North Carolina and Georgia a week or so ago to feel the public pulse, has returned a sadder but much wiser man. Instead of getting the "glad hand" as he expected, he was given the "marble heart." He was given to understand that he would be under suspicion of not being loyal to the Chicago ticket unless he came out squarely for the platform, too. That is more than Hoke can swallow at one gulp. To support the ticket, he thinks, is enough to ask of a man who stumped his state against free silver, and to do that much he will have to put a clothes pin on his nose when he goes to the polls. Secretary Smith's resignation is still in the hands of the president, but he is not urging its acceptance. This is another thing which has a political bed-fellow. I shall not say that Hoke Smith is sincere for the Chicago ticket, but he ought to insist upon the president accepting his resignation. Secretary Smith is, indeed, between wind and water just at present. He is under suspicion with both factions of the Democratic party.

THE WATER-SWELL END OF THE TICKET IS CAUSING TROUBLE.
