The disengaged actor then got off the prison wall and staggering toward the footlights exclaimed: "It's all up! I've swallowed the file!" and fell prone to the stage amid the laughter and applause of the audience.—Answers.

MARKETS AND STOCKS

Wall Street Review. New York, Aug. 25.—Stock market movements today, as of late, were dull and uninteresting, the market closing up only 94.25 shares. Stocks started off weak, but the declining tendency was checked by the announcement that the steamship Teutonic, sailing from Liverpool tomorrow will take out \$500,000 gold consigned to a New York firm and by a further decline of 1/2 cent in the posted rates of sterling exchange. The fact that there has been no necessity to issue clearing house loan certificates as yet and that one of the city banks was the heaviest lender of money on call today assisted the recovery in prices. The bank in question was the First to suggest the issuance of loan certificates and made the application simply for the purpose of assisting other institutions in case of need. The corporation is one of the strongest down town. In regard to gold imports it was stated that the bank and the foreign exchange syndicate had decided to bring twenty millions of the metal from Europe. This report first gained currency when the banks restored the treasury reserve to the hundred million mark some weeks ago, and was denied at that time. There has been no new development since although it is believed that the movements of gold to this country will keep at least for a month or six weeks longer. Near the close the early gain of 1/4 per cent was generally lost and report had it that McKinley's letter of acceptance would give more prominence to the tariff than generally looked for here. This had some influence in certain quarters, and accounts for the reactionary tendency. The selling was of light proportions and the impression on values insignificant. Speculation closed weak. Net changes show losses of 1/4 per cent.
