Wall Street Review New York, Aug. 27.-The developments in financial circles to-day were generally of a favorable character, but they exerted no influence on speculation, which is particularly dead, at the time being. The McKinley letter of acceptance was received with favor, at least that part which referred to the currency question. More important than this, so far as the street is concerned, was the announce-ment of the engagement of additiona amounts of gold in Europe for shipmen to New York and the further weakening in Sterling exchange. Posted rates for sixty days' bills were reduced half cent to 43814, while demand bills actually sold as low as 4834,a484. So far as known nearly \$19,000,000 gold have been engaged for im portation to this country, and good au thorities estimate the inflow during the next thirty days at twice this amount On the arrival of this fresh capital money rates ought to weaken, and this usually is a bull argument. Today money on call ranged from 6 to 15 per cent, until near the close, when unemployed balances were offered at 1 per cent. J. P. Morgan & Co. were responsible for the break in the rate from 15 to 1 per cent., while the marke for stocks was in a state of uncertainty the undertone was steady. The marke closed uletq and steady in tone, with prices generally Ma% per cent. above yes terday's final quotations. Total sales were only \$3,259 shares.
