five Thousand Dollars.

Sealed Proposals Will Be Received by the County Commissioners Until Noon on Tuesday, Sept. 15 -- The Third Story and Alterations to the Court House--Something About the **Building Operations.** 

County Commissioners John Demuth, illes-Roberts, and S. W. Roberts have decided to bond the county to provide funds for the third story addition and alterations to the court house, and they have advertised for bids for the sale of bonds. Sealed proposals will be received until 42 o'clock, noon, on Tuesday, Sept. 15, 1896.

Sixty-five thousand dollars in bonds will be issued, bearing interest at the rate of four per cent. payable semi-

annually at the office of the county treasurer. The bonds will be of the denomination of \$1,000 each and will be numbered consecutively from 1 to 65. They will date from Oct. 1, 1896, and those from 1 to 20 inclusive will mature in ten years, on Oct. 1, 1906; those from 21 to 40 inclusive will mature in eleven years, on Oct. 1, 1907; those from 41 to 60 inclusive will mature in twelve years, on Oct. 1, 1968; and those from 61 to 65 inclusive will mature in thirteen years on Oct. 1, 1909.

FREE FROM ALL TAXES.

The bonds will be free from all taxes, the county guaranteeing to assume that obligation. Both principal and interest will be payable at the office of the county treasurer. By floating bonds to pay for the much

needed improvement on the court hous the expense will be divided in an equitable proportion on the taxpayers for the next thirteen years and the burden of taxation will hardly be felt. The commissioners are not adopting this plan on the score of expediency, but believe that the people in future who derive the benefits of the improvement should do their share toward paying for it.

This year there will be available an amount'representing the difference between the amount of the bonds and what the improvement will cost. total contract is about \$80,000, \$60,000 for the masonry, finishing, and alterations, and \$20,000 for the iron work and roofing.

## It is expected that the main court

room will be ready for occupancy by October 1. Some delay has occurred in the arrival of the iron, but shipments are dally arriving now, and as Contractor Schroeder has made great progress with his part of the work and has left the structure in first class shape for the iron workers to begin, the latter can commence in a few days and they can proceed along with promptness and despatch. RAPID BUILDING WORK. There was practically no time lost

in the delay of the arrival of the iron as far as building operations are concerned. The Berlin Iron company was billed to begin on a certain date, but Bonds Are to Provide Funds for the did not. That fact, however, left the held clear to Contractor Schroeder's men and they went along swiftly. The iron workers will have the field clear when they begin and that will make it more satisfactory to them.
