possesses the rare charm of novelty which few care to set aside lightly, for the days have come when thoughtful women no longer accept unquestioningly a certain weave or patiern, because she knows or has heard that it is fashionable.

This is an age of individual fancies, a sort of go-as-you-please period, when personal requirements and tastes are consulted independently of the fashion plate; consequently the buying matter of much difficulty, and entails an endless amount of thoughtful care. Of course we have had long years of experience to guide us, and being perfectly in touch with the requirements of the local trade in every de-Aci, we bought liberally, and we be-lieve safely. As the following list will show, we have consulted no individual taste merely, but have catered to all with a lavishness hitherto unknown in

Regarding styles, we have little to say. Both fabrics and gowns show a radical change, but seeing is believ-ing, and we therefore ask the favor of a call during the opening days, which

Senator Blackburn says: "The free silver sentiment on the eastern shore of Maryland is carrying everything by storm. The senator also spoke of a visit to West Virginia, "where he found in a former gold standard stronghold many Republicans who had changed iews and would now support Bryan." tain neither the treasury department nor any sub-treasury has ever been called upon to redeem silver dollars in gold. At the sub-treasury in San Francisco it often happens that silver dollars are paid out in exchange for silver dollars in small amounts, but this sim-ply occurs in the ordinary transaction of business at the place and for the purpose of accommodating the public with money of small denominations. It is not in any sense of the term a redemption of the silver dollars in gold, or of the gold in silver. The result of all these transactions at that sub-treasury is that the government gains much more gold than it loses.

Very truly yours.

feet the United States. "Legally we have a double standard in Mexico," said Mr. Limantour, "but there is no gold in circulation. Every ounce of gold we produce is immediately drawn out of our country by foreign nations. We coin silver at the ratio of 161/2 to 1. We do not coin gold, but as quick as it assumes its bullion form. It leaves Mexico or is locked up in our vaults as the property of foreigners.

"Mexico has had four gold bond issues since 1888, and a number of domestic sliver bond issues. The gold bond issues aggregate about \$100,000,000. Most of the bonds bear 6 per cent. interest. The interest on the gold bonds amounts to about \$6,000,000 in gold annually, but when the time comes around to pay the interest we have to give up \$12,000,000 of our money. So we really pay double interest on our loan. Then, the question presents Itself, what amount will it take to redeem the bonds at maturity? It is a guess now as to what we will owe at the time of redemption. If silver goes up we will owe less; if it goes down, it will take so much more of our money and all are welcome to roam at will to pay our creditors. It's all according

REFORM DEMOCRATS.

New York Gold Men Meet at Syracuse and Organize-Bryan and Chicago Platform Denounced.

Syracuse, Aug. 31.—The Democratic reform organization held a state convention here today and elected delegates to the Indianapolis convention. An adjournment was taken until Sept. 24 to meet in Brooklyn, when electors and a state ticket will be nominated. Ex-Secretary of the Treasury Fairchild was permanent chairman.

Mr. Fairchild's denouncement of the intention of the Buffalo Democratic convention to endorse the Chicago nominees in order to preserve the regularity of thir organization was enthusiastically commended. His declaration that true patriots should save the Chlcago leaders from their own unwise declaration was likewise well received. The platform repudiates the Chicago platform and the nominations of the Chicago convention; depleres the outburst of sectional hate which attended the adoption of that platform, and declares:

This pintform is accepted by the presidential nominee of the convention in the spirit in which it was adopted.
