Improvement of Cedar Avenue at the Meadow Brook Breaker Delayed. To Arrest the Disturbers.

The widening of Cedar avenue under the trestle of the Meadow Brook breaker will not materialize this year. General Manager Silliman of the Traction company is willing to stand the other expense if the stone wall is moved back by William Connell & Co. The improvement was suggested too late to begin at it this year, but Councilmen Coyne and McGrail expect to start it as soon as the weather permits next year. At present there is more or less danger to vehicles from the narrowness of the driveway. A street car is liable to collide with a wagon if great care is not always exercised by the motorman. The first collision has yet to occur, but that is not saying that there were not many narrow escapes. It is one of the most dangerous spots along the roadway from Scranton to Pittston.

THEY WILL BE ARRESTED.

MARKETS AND STOCKS

Wall Street Review

New York, Aug. 31.—A more confident tone chareterized the railway and miscellaneous share speculation and business was also on a larger scale. The transactions in stocks reached a total of 214,355. At the opening there was a slight period of hesitancy, cables having reported American securities slightly lower there. An announcement of the further engagement of 25,25,26,000 gold abroad for shimment to of \$3.520,000 gold abroad for shipment to New York soon brought about a decided change in sentiment and the market ruled strong until late in the day. There was extensive covering of shorts throughout and even commission houses had a little more to do. The great factor at work, however, was the importation of gold the however, was the importation of gold, the amount now on the way and the arrivals of last week footing up the large total of \$18,000,000. This, it is expected, will relieve the tension in money and some operators in consequence were disposed to cover up their short contracts and assume risks on the bulk side. No clearing house lean certhe bull side. No clearing house loan certificates were called for and from present appearance it is not likely that any will be issued. This is also having its influence with the trading element. The rise in prices ranged from 1/2 to 3% per cent. the latter in Tobacco, which advanced to 60%. Manhaitan, Sugar, the Grangers, Lake Erle and Western Preferred and Lackawanna gained 1¼ to 2½ per cent. During the afternoon trading was less acburing the atternoon training was less active and near the close money jumped to 12 per cent, bid. At the same time Sterling exchange showed a tendency to strengthen. Actual rates recovered fractionally, thus reducing profits on gold imports. The result was that some of the smaller bulls on stocks decided to take their profits and their sales, brought about a general reactheir sales brought about a general reaction of %al% per cent. At the close, however, the market was firm in tone. Net changes show advances of %a2% per cent. on the day. Louisville and Nashville lost % per cent. on selling for London account.
