We demand that henceforth mod ern and liberal policies towards Ameri-can shipping shall take the place of our imitation of the restricted statutes of the eighteenth century which have been abandoned by every maritime power by the United States, and which, to the nation's humilation have driven American capital and enterprise to the use of alien flags and alien crews, have made the stars and stripes an almost unknown emblem in foreign ports and have virtually extinguished the race of American seamen. We oppose the pre-tence that discriminating duties will te shipping, that scheme an in vitation to commercial warfare upon the United States, un-American in the light of our great com-mercial treastles, offering no gain whatever to American shipping, while greatly increasing ocean freights on our agricultural and manufactured on our agricultural and mandactured products. The experience of mankind has shown that by reason of their natural qualities, gold is the necessary money of the large affairs of commerce and business while silver is conveniently adapted to minor transactions and the most beneficial use of both toand the most beneficial use of both to-gether can be secured by the adop-tion of the former as a standard of monetary measure and the mainten-ance of silver at a parity with gold by its limited coinage under sultable safe-

Thus the largest possible enjoyment of both metals is gained with a value of both metals is gained with a value universally accepted throughout the world which constituted the only practical bimetallic currency, assuring the most stable standard and especially the best and safest money for all who earn their livelihood by labor or the produce of husbandry. They cannot suffer when paid in the best money known to man, but are the peculiar and most defenseless victims of a debased most defenseless victims of a debased and fluctuating currency, which offers continual profits to the money changer at their cost. Realizing the truths demonstrated by long and public in-convenience and loss, the Democratic party, in the interests of the masses and of equal justice to all, practically estalished by the legislation of 1834 and 1853 the gold standard of monetary measurement and likewise entirely divorced the government from banking and currency issues. To this long es-tablished Democratic policy we adhere and insist upon the maintenance of the gold standard and of the parity there with of every dollar issued by the government, and are firmly opposed to the free and unlimited coinage of silver to the compulsory purchase of silver bullion. But we denounce also the further maintenance of the present costly patch work system of national paper currency as a constant source of injury and peril. We assert the neces-sity of such intelligent currency reform as will confine the government to its legitimate functions, completely sep-arated from the banking business and afford to all sections of our country a uniform safe and elastic bank currency under governmental supervision, measured in volume by the needs of

The fidelity, patriotism and courage with which President Cleveland has fulfilled his great public trust, the high character of his administration, its wisdom and energy in the maintenance of civil order and the enforcement of the laws, its equal regard for the rights of every class and every section, its firm and dignified conduct of foreign affairs and its sturdy persistence in upholding the credit and honor of the nation, are fully recognized by the Democratic party and will secure to him a place in history beside the fathers

We also commend the administration for the great progress made in the re-form of the public service and we en-dorse its effort to extend the merit system still further. We demand that no backward step be taken, but that the reform be supported and advanced till the undemocratic spoils system of ap-pointments shall be cradicated. Mr. President, before such a body as this no argument can be deemed necessary to the full understanding of the principles set forth in the platform which is proposed for your consideration. Therefore, with true recognition of all the circumstances of the hour, I shall make no argument, but will proceed directly to the discharge of the office which the committee has impered upon me and move the adoption of the resolutions.

The convention was impatient at the speech, but was ready to declare the nomina-tion, and the chair put the question and declared that General Buckner was the nominee of the National Democratic party for vice president of the United States.
