

BACKACHE.

A Very Significant Indication of Organic Derangement.

The back, "the mainspring of woman's organism," quickly calls attention to trouble by aching. It tells with other symptoms, such as nervousness, head-ache, pains in limbs, and weight in lower part of body...

"I have taken one-half dozen bottles of Lydia E. Pinkham's Vegetable Compound for twenty years has been the one and only effective remedy in such cases. It speedily restores the cause and effectually restores the organs to a healthy and normal condition..."

TOMORROW'S EVENTS.

The Scranton Y. M. C. A. will bring a Strong Team. The first meeting of the Carbondale athletes and those representing the Y. M. C. A. of Scranton, will take place tomorrow afternoon at Alumni Park.

Field day should be a boom to Carbondale athletes which have been sadly neglected in the past to the detriment of full physical development in the young man. Now that athletes are brought more into prominence it is hoped that many will take advantage of the opportunity which is offered by the directors of Alumni Park and improve themselves by mainly sports.

Field day should be a success and needs with the approval of the people, the event will be an annual one, two field days being held each year, one at Scranton and one at this place. The prizes will arrive today and are handsome ones, well worth a good hard fight. For the relay race there will be a silk banner to be contested for annually.

lar machine on the west platform had been treated in the same manner. Mr. Smith at once telegraphed to Detective Mart Crippen, who soon arrived and is now trying to find some trace of the thieves.

The robbery is certainly a very bold one considering the fact that a vigilant watchman is on duty all night. Masters, the watchman, says that he heard no unusual noise during the night and no one was seen near the depot upon whom suspicion could be thrown.

It is not known how much the machines held, but the one inside the depot must have had quite a sum, the other being emptied a few days ago. The thieves had knocked the strong locks of the machine inside and it was easy to get the money. How the locks were broken without making any noise will remain a mystery however.

Deepening the River Channel. Working men are engaged in deepening the river channel in the vicinity of Sixth avenue. There will be much commendation of the work now being done.

At an invitation by the Young Men's McKimley and Hobart clubs, Mr. Maxey delivered an oration last Monday evening at their headquarters. The Hornellville Daily Times of Tuesday devoted more than a column to the address delivered. In part it said: "From the moment that Mr. Maxey began his address, the large audience, which included many of the apostles of free silver, free trade and the fallacies of the Chicago platform, were entranced by the young man's earnestness and by the forcible arguments which he presented. At many times the applause was so great, and prolonged that the speaker was forced to wait for it to cease before he could proceed. The mastery manner in which he presented the issues of the present campaign, would do credit to a man many years his superior in age. His address was replete with pith and he related the few arguments of Mr. Bryan in his rhetorical oration on Saturday in a manner which would reflect great honor to a man many years his senior in years and experience. After the address Mr. Maxey was tendered a reception and supper."
