GRAYS' EIGHT ERRORS.

Gave Scranton Eight Unearned Runs and the Game ... Johnson Was Well Supported.

Manager Murray and his old warriors and few young recruits must have had a very badnight during their quick jump from Providence to Scran-Knight, Lyons, Bassett and Murray himself surely ate things on Tuesday that didn't agree with them or else the throbbing of the engines on the night boat must have shaken their nerves. Something of that nature was the trouble, for the Gray's errors made possible all of Scranton's eight runs. If earned runs means anything Providence should have won in the casiest kind of a canter for they bunched their hits on Johnson and were entitheir hits on Johnson and were entitled to all but one of their six tallies.

Owing to Cooney's broken finger
Pitcher Friel was assigned to cover
they field for the ristory and by dethey field for the ristory and the ristory and by the ristory and by the ristory and short field for the visitors and be signalized his appearance in the strange position by fumbling three grounders in the early part of the game. Two of the errors were in lunings during which Scranton scored, and these two made possible Scranton's first five runs. One error each by Marray, Canavan, Knight and Lyons gave Scranton the three in the seventh. When it was all over we had made clant

Meanwhile, Scranton was making a good exhibition of field work. Menney and Gunson, especially, making diffithe ninth by one sensational put-out on bag and the most difficult running

sey's hit to right, O'Brien reaching third. The latter scored while Massey was being tagged between first and second. A two-baser, a single and Massey's poor throw to the plate after blocking the hit, gave the Grays their Baltimore 0 8 1 1 2 0 0 58-17 18 2 first tally. Score, 2-1.

SCRANTON RESTED.

Only three men faced Friel in the second, and in the last half, following Moss' fumble, the Grave were retired on a force hit, a strike-out and Lewis' nap off first after he had been given four balls. With two out in the third, Friel

missed Meaney's grounder and three unearned runs were netted off doubles by Hickey and O'Brien and Massey's single. Until the fifth no runs were made. The Grayg went down one, two, three in the third and fourth, thanks to Meaney's splendid running catch and Maguire's success in corralling a high In the fifth, with one out, Coogan

singled and Lewis went out at first. Canavan smashed one hard enough to send it over the fence. Score, 5-3. With two out in the sixth, Maguire hit one to left center which Lyons missed while on a dead run. The hit was good for three bases. Moss flew out to Canavan. A base on balls was all

to Canavan. A base on balls was all that fell to the lot of the Grays.

THREE MORE UNEARNED.
Gunson flew out to Lyons in the seventh. Murray muffed Johnson's fly and Lyons performed a similar favor for Griffin. Meaney's single and Knight's fumble scored Johnson and sent Griffin to third, Meaney getting to second on the error. The two came in on Hickey's drive to right. Hickey stole second. O'Brien flew out to Lyons and Hickey made third on the out. Massey got a walk and stole second. Coogan feinted to throw to second, but let the ball go to third and Hickey was tagged out after a merry chase. Score, 8-3.

In the eighth, with one out, Bassett singled and then three runs came in on Knight's force hit, Drauby's single,

Instead of exercising the legal right vested in the United States to redeem its bonds in either gold or silver the executive branch of the government has followed a precedent established by a former ad-ministration and surrendered the op-tion to the holder of the obligations This administrative policy leaves the government at the mercy of those who find a pecuniary profit in bond issues. on balls-Off Johnson 2, off Lewis 1. ARBITRATION.

I desire to give special emphasis to the plank which recommends such legislation as is necessary to secure the arbitration of differences between employers engaged in inter-State com-merce and their employes. Arbitra-tion is not a new idea-it is slopely an extension of the court of justice. The laboring men of the country have ex-pressed a desire for arbitration, and the railreads cannot reasonably object to the decisions rendered by an inter-tial tribunal. CUBA.

The people of the United States happy in the enjoyment of the blessings of free government feel a generous sympathy toward all who are endeavoring to secure like blessings for themselves. This sympathy while respecting all treaty obligations, is especially active and earnest when excited by the strug-gling of helghboring peoples, who, like the Cubans, are near enough to observe the workings of a government which deries all its authority from the con-

sent of the governed. THE CIVIL SERVICE. That the American people are not in favor of life tenure in the civil service is evident from the fact that they, as a rule, make frequent changes in their official representatives when those representatives are chosen by bailot. A permanent office-holding class is not in harmony with our institutions. A fixed term in appointive offices, except when the federal constitution now provides otherwise, would open the public service to a larger number of citizens without impairing its efficiency.

TERRITORIES.

The territorial form of government is temporary in its nature and should give way as soon as the territory is sufficiently advanced to take its place among the states, New Mexico, Okla-homa and Arizona are entitled to statehood and their early admission is de-manded by their natural and political interests. The demand of the platform that officials appointed to administer the government of territories, the Dis-trict of Columbia and Alaska should be bona fide residents of the Territor-ies or District, is entirely in keeping with the Democratic theory of home rule. I am also heartily in sympathy with the declaration that all public lands should be reserved for the estab

WATERWAYS.

The policy of improving the great waterways of the country is justified by the national character of these waterways and the enormous tonnage borne upon them, Experience has demonstrated that continuing appropria-tions are, in the end, more economical than single appropriations separated

TARIFF. It is not necessary to discuss the tariff question at this time. Whatever may be the individual views of citizens as to the relative merits of protection and tariff reform, all must recognize that until the money question is fully an enally settled the American people will d build not consent to the consideration of vaster any important question. Taxation preold or silver, at the option of the un sacrifice of personal opinion or po-overment, and not at the option of literal principles; but the crisis presented by financial conditions cannot be performed. Transculous results will follow the action taken by the United States on the money question and de-loy is impossible. The people of this nation, sitting as a bigh court must render judgment in the cause which greed is prosecuting against humanity. The decision will either give hope and insultation to those who toil, or 'the doors of mercy on mankind.' the presence of this evershadowing izsue, differences of opinion upon minor questions must be laid aside in order that there may be united action among those who are determined that progress toward a universal gold standard shall be stayed and the gold and silver standard of the constitution restored, W.
