Large Increase of Pupils in the Schools of This Part of the City—Accommodations for Them.

Superintendent of Schools George Howell, in conversation with a Tribune reporter last evening, stated that beginning at this morning's session of the West Side schools every pupil will be comfortably seated. The compulsory education act has created a vast number of old school attendants this year. If it were not for the several old buildings which have been supplied by new ones, the great throng of children could not be accommodated.

MR. REYNOLDS' COAT.

The Franklin's met last night but nothing startling was done. No new names were proposed as was rumored to be the intention of the majority. There was much heated discussion and it was stated that John H. Reynolds would legally proceed against those members who invaded his home. Reynolds would even attempt to take from it a quantity of goods. It seems that Thomas Allen and William Kline, of the company, swore out a search warrant before Alderman John for certain parts of a fireman's paraphernalia, which Mr. Reynolds refused to surrender to the company when he was expelled at a former meeting.

Posing Dogs is Again the Rage in the Twentieth Ward—Miss Hoefflinger's Surprise Party.

Every now and then places become greatly annoyed from the number and undesirable kind of dogs. Emma Luther found on the streets. Not long ago some one undertook to exterminate with poison all the dogs he believed it would be a service to rid the community of. Meat on which large doses of strychnine were sprinkled, he would have in convenient places for them to eat, but he took particular pains to spread some daily for one particular dog owned on Pittston avenue in the Twentieth ward. But the time went on and the brute is still alive, although it must have swallowed enough poison to kill a car load of horses.

MARKETS AND STOCKS

Wall Street Review.

New York, Sept. 15.—The stock market opened decidedly stronger on the Maine election and higher cables from London. The prominent issues advanced about a point, the shorts being the largest purchasers. When the demand from this source abated the traders who were bearishly inclined for the moment started in to sell. In the absence of support they had little difficulty in bringing about a lower range of prices. There was also considerable selling by holders who were disappointed on account of the rather feeble response made by the market to yesterday's election in Maine and this was especially true of the large manipulators. Tobacco bore the brunt of the attack and fell to 25%. Sugar fell nearly 2 per cent on the declining tendency of the market for raws, while Chicago Gas was adversely influenced, dropping 15 by Chicago advices that the Attorney General had refused to renew the fight against the company. The Granger group lost 1/2%, the latter in Burlington and Quincy, Manhattan fell 2. Western Union 1/4, and Missouri Pacific 1. Rumors of an advance in the Bank of England rate of discount on Thursday and the consequent embarrassment of a big dry goods firm in this city were used against the market. The reports of trouble in the dry goods trade however could not be confirmed. At the decline there was moderate buying of the dividend payers, due to statements that the conference in New England were improving report said that a number of mills employing about 12,000 hands intended starting up shortly. This was not without its influence in some quarters. In the late trading the Grangers weakened again under pressure and speculation closed barely steady in tone. Net changes show losses of 3/4% in part.

THE GREAT CAMPAIGN OF 1896.

13 MILLION patriotic voters have recognized the confusion of our public politics, and are determined to inform themselves, and stand like patriots in the hour of their peril and vote to the best of their knowledge, for the best interests of the common people of the whole country. It means further that every voter wants to know, not only the doctrines of his own party, but the views of all other parties and the reason for the differences—Gold, Silver, Tariff and Free Trade. To this end we have secured a complete handbook of public political information, edited by Lawrence F. Prescott, WHICH WE WILL PRESENT TO THE PURCHASER OF ANY MEN'S SUIT.
