MILLION patriotic voters have recognized the confusion of our public politics, and are determined toinform themselves, and stand like patriots in the hour of their peril and vote to the best of their knowledge, for the best interests of the common people of the whole country. It means further that every voter wants to know, not only the doctrines of his own party, but the views of all other parties and the reason for the differences-Gold, Silver, Tariff and Free Trade. To this end we have secured a complete handbook of public political information, edited by Lawrence F. Prescott, WHICH WE WILL PRESENT TO THE PURCHASER OF ANY MEN'S SUIT.
