NOW READY FOR ACTIVE WORK

First Voters Organized on a Permanent Basis.

ENDORSED THE REPUBLICAN TICKET

George to. Marshall, Jr. Was Chosen President -- Constitution and By-Laws Adopted, and the Organization Will Be Known as the Junior Republican Club .. Addresses Delivered By Attorney M. W. Lowery, J. M. Walker and Hon. A. T. Con-

A week ago a number of young men who will cast their first vote this elec-tion assembled at the Central Republi-can club rooms and formed a temporary organization. Last night they met for permanent organization, elected offi-cers to serve for the ensuing year, adopted a constitution and by-laws. and prepared to do active work for Re-publican principles for the rest of the campaign. They adopted "The Junior Republican Club" as a name. George W. Marshall, jr., was chosen president; William F. Decker, secre-

tary: P. Silas Walter, assistant secre-tary: Curtis Powell, treasurer. The by-laws provide that there shall be five vice-presidents and the appointment of them is vested in the president. Mr. Marshall will name them at the next meeting. Last night he appointed Geo. W. Millett captain. The committee on permanent organization suggested the name of "Young Men's Republican Clab," but that name belongs to an or-ganization recently formed. The name

adopted was taken instead. The resolution sets forth that the aim and object of the club is to advocate, premote, and maintain the principles or Republicanism, as enunciated by the representatives of the Republican party in national convention assembled: to concate and enlighten the young men of Lackawanna county in the principles of self-government and good citizen-ship and to oromote by all legitimate agencies the success of the Republican party and its candidates, thereby exerting a potent influence for good

residing in Lackawanna county, who is in sympathy with the principles of the Republican party and a supporter of its candidates, shall be eligible to

Then taking the chair Mr. Marshall thanked the members for the honor conferred and in an eloquent strain spoke as follows:

MR. MARSHALL'S REMARKS. As young men we are gathered to-cht to form an association of all those who are to east their votes this lai in the interests of American honor and American policy for William Melanley, of Onio. I believe that it is an important thing for a young man in starting in life to start right, and as this is the start in politics for most of us, it is of course important that we should start right in this. Some of us may have Democratic parents, or come from Democratic families, but after all that makes very little difference. I am sure that the main thing for us to consider this year is which of the parties is in the right. Many old Democrats all over the country, who have been voting the Democratic ticket for years, are going to change this fall and vote for McKinley, believing it to be the best thing. Now, if an old Democrat can do this after the habit of voting the other way, it ought to be a good deal easier for a young Democrat who has not as yet acquired that bad habit. I am going to vote for McKinley and the whole Republican ticket from top to bottom, because I believe the princitals of Republicanism to be right and because I believe that this country will never be prosperous again until after it gets back under Republican rule. One reason why I believe we all

should vote the Republican ticket this year, is because the hard times of which we are suffering and from which we have been suffering for the past three years are due in my opinion entirely to the success of the Democratic party four years ago. Of course they deny this, and claim that it is because of the gold standard, but as I look at the matter we had the same standard in 1892 that we now have, and times ver were better than they were then We have the same mills, the same facfories and the same farms that we had then, and still times are altogether dif-

CAUSE OF DEPRESSION.

"I believe the present depression was brought about because of the repeal of the McKinley act, and the passing the Witson bill in its place. Under protec-tion times got steadily better and we cere able as a nation to pay our debts Under Democratic rule times have been getting harder and the nation as well as individuals is suffering because of it. And I believe in my heart tonight that we will never be prosper-ous again until we get a Republican administration and a tariff bill which will protect the American labor against foreign competition and furnish enough revenue to pay the debts of this at nation without selling bonds. You all know that since the war has never been necessary to sell bonds to provide money for the nation, unde the Republican administrations. Tha also a strong reason why we should all cast our votes for William Connell, in order that this district may be represented in the next congress by man who knows our needs and who is willing to help enact a strong tariff law, which will be a benefit to our indust-

"Another strong reason why we should vote the Republican ticket is that a vote for Mr. Bryan means a vote reduce the value of the present dol-or. With the dollars as scarce as they now are, I don't want them cut down any. When a man does a day's work he is entitled to receive as his compensation the best kind of money, and if there are two kinds of money, one good, and the other poor, I am afraid that the poor man will get the poor money every time. But voting right is only a part of our work after all was only a part of our work after all, we must try and see that the people who we know also vote right. Some of us have been doing a litle work in the past to see that the voters get out and vote right. We want to do more than that this fall. We want not only to see that they get out and vote, but that when they vote they vote right. I am going to try and do my share of the work and I want every young man, and every old one for that matter, to do the same and if they do, there will be no ques-tion about the election of the whole Re-publican ticket in this county."

RESOLUTIONS ADOPTED. The following resolutions were adopted:

We the members of "The Junior R-publican club," in regular meeting as-sembled, do make the following declaration of principles:
We affirm our allegiance to the principles

of Republicanism, as defined by the na-tional platform, adopted at St. Louis, and the state platform, adopted at Harrisburg in April last.

We believe that the Republican policy

We believe that the Republican policy of protection and reciprocity is as necessary to the maintenance of a prosperous condition of the sound money principle is in maintaining its credit and honor.

We therefore, carnextly ask all young men of Lackawanna county, regardless of party affiliations to co-operate with us in the work of restoration of prosperity and security to the American people, by the election to the presidency of the United States of that gallant soldier, statesman and great champion of protection and sound money, the Hon, William McKinley, of Ohio, and his colleague, the Hon, Garrett A. Hobart, of New Jersey, to the vice presidency, believing that these met possess in a greater degree than any

of the other candidates asking for our suffrages, those rare qualities of broad, wise and patriotic statesmanship which it them for a successful administration of the affairs of the American people, and that the principles which they espouse more fully accord with our conception of that government policy, which secures the best government and the greater good to the greater number.

best government and the greater good to
the greater number.
We also invite the support of the young
men of this county, irrespective of party,
in the election to congress that man
whose independence of character and sympathic nature are only equalled by his
untiring industry, in behalf of his fellow
citizens, Mr. William Connell.
We also affirm our allegiance to the balance of the ticket named at the Republican county convention, viz.: Giles Roberts and S. W. Roberts, for county commissioners, and A. E. Kiefer and Fred L.
Ward, for county auditors.
We further pledge our united support
to the candidacy of Hon, Alexander Connell for representative from this legislative district.

Latimer Reese,

WILL MEET THURSDAY. The club will turn out in full force this evening to celebrate the banner raising in front of the rooms of the Central club. It will meet every Thurs-day until election and every member feels it a duty incumbent upon him to bring in as many new members as pos-

Addresses were given by Attorney M. W. Lowry, J. M. Walker and Hon. A. T. Connell. The latter was suffering from a painful attack of throat trouble and spoke only briefly. Mr. Lowry branched out into an interesting re-view of the political situation. He said that this campaign is not second even to that of 1861 when Lincoln was the candidate and the country was threat-ened and there was danger that it would be rent in twain. Today the in-tegrity, honesty, and credit of the na-tion is threatened.

The Republican party is advocating nothing new. It has always stood for

nothing new. It has always stood for prosperity and sound money. It is the Democratic party that has changed, bett Mr. Lowry thinks they are honest in their belief, only being misguided. The reason we have wages in excess of other countries is because the Republi-can party with its protective laws has fostered manufacture and trade. It is not more money we need now, but a greater circulation of that which we have, and which cannot be brought about except by starting our mills mines and factories going.

Any person who goes to Washington can find \$225,000,000 in silver stacked up in the treasury vaults now. The government has silver to burn, as it were, and there is more money per capita to-day in the United States than in any other country of the world except France. What we want is a restoration of confidence so that the men who have money will use it. We have the same money now we had between 1880 and 1892 and then the land was bloss

SOME STRONG RESOLUTIONS.

Adopted By the Greenwood McKinter and Hobart Club Wednesday.

At a meeting of the Greenwood Me-Kinley and Hobart club Wednesday night the following resolutions were adopted:

Whereas, The administration of affairs

Adopted:

Whereas, The administration of affairs by the party now in power in these United States has been a series of blunders at home and abroad, and.

Whereas, They have shown their incompetency to raise sufficient revenue to meet the expenses of the government in time of neace without issuing bonds to the amount of two hundred and skrytwo million soldars, and.

Whereas, Our country is in the midst of the greatest financial crisis and business depression of its history, the present campaign promising chaos and turmoil or the one side, and in our judgment prosperity and peace on the other; therefore, be it. Resolved, By all present that we have had experience enough with such a debirrating, business wreeking administration, and we deem it our duty to do all in our power to insure the election of that sturdy American and statesman, William McKinley, of Onio, to the high and honorable office of president of these United States, the champion of American dollars the world over and the protection of American industries. And Garrett A. Hobart, of New Jersey, for the honorable office of vice president with the fullest assurance in his ability and honesty of purpose to discharge the duties insumbent upon it. And be it further.

Resolved, That we heartily support our neighbor, William Connell, for congress from this district, as we know him to be a safe man to entrust the welfare of our local industries to, pending the legislation

Turnpike People Believe the City Is

Not Living Up to Its Promise. After the receipt of Mayor Bailey's notification that the city proposed to repair West Market street, the Turnpike company agreed to give the city until October 1 to carry out its prom-ise and if by that time it had not ful-filled its agreement, the Turnpike comoany would, it stated, renew its opera-

The city in fulfillment of its promise has had a gang of men working on the road, but their work is not and has not been satisfactory to the Turnpike people. The street commissioner's men have merely shoveled out the gutters and leveled off a few humps and have not as yet made any move towards making permanent repairs.

In view of this the Turnpike per-

pany is threatening to go on the road again and finish the macadamizing be-gan at the Leggett's creek bridge. President H. E. Paine to a Tribune re-porter said, yesterday, that the com-pany has not fully determined just what steps it will take but it is most what steps it will take, but it is most likely that it will refuse to approve of the work the city is doing and go on and do it itself.
