ANOTHER PRESENTATION.

Mrs. Gunner, Miss Gunner and Miss Weidman Receive Gifts. Wednesday three of the members of the retiring force of the Anthracite Hotel were made the recipients of handsome gifts. In the evening five of the boarders at the hotel, Messrs. J. Meadley, George W. Dove, W. J. Hamilton, George Klotz and R. E. Moon, presented Mrs. Gunner with a handsome cut glass bowl which had been made especially for them at the factory of Clark & Co. in Honesdale. Mr. Hamilton made the presentation speech and said some very complimentary things to Mrs. Gunner. The donors were invited later to luncheon by J. W. Byrne.

Bolton Street to Be Paved.

Park & Co., who have taken the contract for paving Bolton street, have notified Commissioner Baker that the work will be ready for shipment. This is good news for those interested in this important improvement, for it was feared that the season would be too far advanced for work to be much longer delayed. The city officers now have the promise of the firm and it is expected that the work will soon begin.

Promenade Concert.

Wednesday evening in Burke's hall was held the first of a series of concerts and dances which will be given through the winter by the local band. The concert was continued until half past eleven o'clock and an enjoyable time was had by the large number present. The next concert will be held on October 24, when an admission fee of ten cents will be charged. The concerts will no doubt be well patronized this winter by dancers and lovers of music.

A New Coal Field.

There are many who believe that over the mountains east of this city will be found extensive beds of coal. The possibility has excited much interest. If coal is found here it is in a situation very favorable for transportation. But when will the question be decided? It is said that many thousands of dollars have been expended in experiments in seeking for anthracite. And yet the problem is not solved. Does the coal field extend beyond the mountains?
