E. P. KINGSBURY, Pres. and Gen'l. Man. E. H. RIPLEY, Sec'y and Treas. L. W. RICHARDSON, Editor.

SCRANTON, OCTOBER 6, 1896.

THE REPUBLICAN TICKET.

NATIONAL. President—WILLIAM MCKINLEY. Vice-President—GARRET A. HOBART.

STATE. Congressmen—G. GALUSHA, A. GHOW, SAMUEL A. DAVENPORT.

COUNTY. Congress—WILLIAM CONNELL, Commissioners—S. W. ROBERTS, GILES ROBERTS.

LEGISLATIVE. Senate, 21st District—COL. W. J. SCOTT.

The grand excursion to Canton next Friday will leave Wilkes-Barre from the Pennsylvania railroad station at 9 o'clock p. m.

Welcome to Endeavorers.

Before speaking to the guests of the hour the word of welcome common to such occasions, it is not inappropriate to contrast the Christian Endeavor convention soon to open in this city with certain other state conventions.

We have been privileged during recent years to entertain a goodly number of assemblies of eminent Pennsylvanians representing different interests.

Says Senator Quay: "The drift is all our way. Let us trust that it will keep on going our way. But a national battle is never won until it is actually won."

Wheat and Silver. The relation between the price of wheat and the price of silver claimed by Bryan and his party does not appear in the facts as to prices noted last week in the market reports.

The clearest symptom of the immaturity of Bryan's judgment was shown when he affected to despise the opposition of the sound money press.

The Situation in Nebraska.

An intelligent review of the conditions which have made for Populism in Nebraska—a state fairly typical of the disaffected western country in general.

Steel Freight Cars.

Shippers by lake have already learned to appreciate the structural and economic advantages of the wheel-back type of freight vessel—notably its cheapness, low resistance to waves and large percentage of available room.

ONLY A RETURN VISIT.

From the Scranton Truth. The excursion from this region to Major McKinley's home at Canton this week will simply be in the nature of a return visit.

THERE ARE OTHERS.

From the Newark Advertiser. Our respected fellow citizen, Robert Figgimmons, does rank injustice to Bryan when he says that Corbett is "the wisest talker in the world."

reason that there is no present means of verifying them. In many townships there are not 5 voters to the square mile; both parties after an ineffectual effort to take a poll of the state abandoned the undertaking as impracticable.

One fine point about William McKinley is that he has never and will never think of himself as of some especially superior being far above the common people.

A Business Proposition.

It is manifestly to the advantage of the city of Scranton to have in the next legislature as the representative of the district which contains Lackawanna Hospital, the Oral school, the Home for the Friendless, and other institutions which need state aid a Republican familiar with legislative methods and qualified by experience to see that no point whereby the city might benefit is overlooked.

This subject should be looked at largely from a business standpoint. Anyone familiar with Harrisburg affairs knows that the people of the other large cities of the state, notably Philadelphia and Pittsburg, keep their good representatives in the legislature term after term and thus secure the benefit of their increased experience and knowledge of legislative practices.

If it were not a political matter; that is to say, if it were understood by all to be simply a choice of the most effective instrument for the securing of appropriations and legislation needed by the people of the Second district, we doubt whether a voter in the district would hold that Mr. Connel could not perform the work better than Mr. Koehler could.

The government presses at Washington are still at work printing final tabulations of the 1890 census. The reason for this delay is to be found in the fact that every decade the whole census work has to be mapped out anew and entrusted to the execution of green hands appointed mainly through political pull.

THE NEXT POPULAR VOTE.

Major Handy, in Times-Herald. William McKinley will not only have a large majority in the electoral college, but will receive more ballots for president and electors than any other man on the popular vote than any man who ever ran for the presidency.

It is timely to review the votes by which the several presidents obtained the office, premising with the obvious reminder that the popular vote has kept pace with the growth in population.

In order to win the minority place on the next board, Mr. Burke, one of the Democratic candidates for county commissioner, has to assail the work done by Mr. Demuth, his colleague on the Democratic ticket and Mr. Demuth, in self defence, has to strike back.

LABOR AND ITS RELATION TO LAW.

From the Post-Express. In the effort to defend the plank of the Chicago platform denouncing arbitrary interference by federal authorities in local affairs as a violation of the constitution of the United States and a crime against the people, some of the Bryan campaign orators are outdoing Bryan himself.

It need hardly be said that the decision will stand no such interpretation. The court unanimously affirmed, enumerated certain things which the defendants might not do, and these things were all in themselves of a nature which would not be forbidden the defendants to induce employees to refuse to perform their duties as employees of railroads engaged in interstate commerce.

No man can have a greater interest in the preservation of the law of the land secure against all attack, than the man who lives by daily toil. Even effective laws lessen the inequality of power between the employer and the employee.
