THE JEFFERSONIAN DEMOCRACY BOOMS

Chairman W. B. Given Has Just Given Out Some Startling Figures.

THE BUCKNERITES NUMBER 22,000

His List of 800 Sound Money Democrats Has Grown Under Careful Manipulation in a Surprising Manner--Expects to Astonish the Populocrats on Election Day--No Democratic Votes Needed for McKinley in Pennsylvania.

Philadelphia, Oct. 8.--"What is known as the preliminary work of the campaign," said State Chairman William B. Given this evening, "is now practically finished by all the political parties of the state. Never in the history of Pennsylvania has her voters been inundated with such a flood of campaign literature."

"When I sat down for the first time at my official desk, four weeks ago, I was handed a list of possibly 800 sound money Democrats in Pennsylvania. Communication with this list furnished a larger list and so we have been working by letters directed to individuals until today we are mailing letters to over 2,000 Palmer and Buckner Democrats in the commonwealth of Pennsylvania. We have county organizations in more than one-half of the counties of the state and there is scarcely an election precinct in which some devoted Democrat is not urging his neighbors to vote for Palmer and Buckner."

The level of true Democracy injected into the canvass by the Jeffersonian party is fast permeating the whole Democratic party. Look at the result in the Young Men's Democratic association of this city. Four weeks ago the friends of sound Democracy were not sure enough of their strength to force a contest with the Bryanites. On Tuesday last the vote was 101 for Palmer and Buckner and 42 for Bryan and Sewall. Another example, the West End German Democratic association four weeks ago voted to endorse Bryan. Last Saturday night by a vote of 4 to 1 they reconsidered their former resolution and voted to endorse Palmer. All over the state the sound money Democratic cause is gaining strength and unless I have mistaken the signs we shall astonish the Populocrats by the size of our vote.

EXPECT FUTURE RESULTS.

"This work is not being done for this campaign alone. We must save for our country a Democratic party, rich in patriotic traditions, fundamentally honest in its principles and true to the American institutions which it knows the question arises in true Democratic hearts--can we not best serve the cause of sound money by voting directly for McKinley? Let us consider this question. The Republican party of Pennsylvania has made a complete canvass of the entire state, a house to house registration of political preferences. I am informed, and I believe from a reliable source, that this canvass shows in round numbers 150,000 Democrats in Pennsylvania who will not accept Bryan and Populism, and that it further shows that McKinley will sweep Pennsylvania by an unprecedented majority, without regard to how these 150,000 Democrats may vote. There can be no question but that this is true. We appeal to these 150,000 sound money Democrats to vote for sound money Democratic nominees. If they will vote for Palmer and Buckner they will vote their convictions not only on the money question but on the tariff and all other vital political questions, and will assist in preserving a Democratic organization for future usefulness to their country.
