

WONDERS OF THE QUEEN'S DOMINION

Eighth Letter of Travel Through the Northwestern Country.

ENROUTE FROM BANFF TO CALGARY

Charming Mountain Scenery, Beautiful Waterfalls, Picturesque Grazing Lands and Interesting Frontier Settlements That Lead a Human Factor to the Panorama-Cowboy Life in British Columbia.

Special Correspondence of The Tribune. Banff Hot Springs, Canada, Sept. 10. Banff has one of the finest mountain climates in America, bright, clear, bracing and health-giving and the traveler is invariably loath to leave this restful place...

HOTEL ADVANTAGES. It is only just to say that this big summer hostelry, where Lilly Matthews receives his guests, is fully equal to Hotel Vancouver, where his brother is the manager, and for situation far more commanding...

INDIAN TRIBES. The region about Calgary is the native grounds of the warlike Blackfoot Indians and here in the saddle, clad in bright blankets and mounted on small piebald and parti-colored ponies...

AGAIN ON THE MOVE. The ride from Banff to Calgary, eighty-two miles is a novel as well as an instructive experience. The railway rejoins the Bow river and follows it eastward through the forested valley for five miles to the great station, properly named, for here are the great anthracite coal mines and vast deposits of coal penetrating a spur of the Fairholme mountains...

THE SCENERY ALONG THE BOW IS strikingly grand. The pass here narrows suddenly to four miles in width and each curve of the road brings into view endless peaks, rising on each side, with ranges towering one above another...

THE THREE SISTERS. We exit from the Canadian National Park through the Bow river gap on approaching Canmore, at an elevation of 4,230 feet. Canmore is a divisional point of the railway and from the station we have not only wonderful mountain scenery, but a beautiful level valley at our feet...

MUSICAL NOTES. William C. Carl, an eminent concert organist, has been engaged by Walter Damrosch to appear with the Symphony orchestra, at Carnegie hall, New York, Nov. 8. Mr. Carl will play two organ works by Gullmatt, for orchestra and organ.

THE ISLE OF CHANGERS. The Isle of Changers is to be translated to England, and will soon be presented at one of the outlying theaters of London. Of late the English have been very timid about making such voyages...

Lillian Blauvelt. Lillian Blauvelt, who is touring in concert for a while, will appear at the Grand Opera House, New York, on Nov. 13.

Camillo Segard, soprano of the Theater de la Monnaie, is to give concerts in the United States this season. Edgar Stillman Kelley is to be professor of harmony and composition at the New York College of Music.

grazing on the cliffs far above, near the snow line. I want to say that these mountains would be oppressive in their grandeur, their solemnity, and their solitude, but for an occasional mining town or a sportsman's tent which give a human interest to the scene.

CALGARY TOWN. Calgary is charmingly situated at an altitude of 3,388 feet on a hill-side plateau at the junction of the Bow and Elbow rivers, overlooked by the snowing and wind-swept hills of the Bow population of the Rockies, with a population of 100,000.

Not less than seven full stage illustrators will be given to the city during the celebration in this city, in addition to a budget of novel experiments in slight of hand, at which the audience will be kept in suspense.

THE MATTER OF CAMPAIGN FUNDS

Enormous Recent Increase in the Cost of Presidential Making.

HOW IT HAS BEEN OCCASIONED Expense Accounts for '96 Estimated at \$5,000,000--All to Be Raised by Voluntary Subscriptions--The Collection a Political Science.

Globe-Democrat's Washington Letter. Competent judges predict that not less than \$2,000,000 will be spent by the two candidates in the great political battle now at hand.

Expense Accounts for '96 Estimated at \$5,000,000--All to Be Raised by Voluntary Subscriptions--The Collection a Political Science. The use of large sums of money by national committees began with the two committees that managed Grant's canvasses in 1868 and 1872, and so rapidly did the extravagance increase that in 1884, at the time of Garfield's election, the national committee expended...

NOT USED CORRUPTLY. The charge that the greater part is used to corrupt voters and purchase votes through often means is a false and silly one. Nearly all, if not all of the money collected are anticipated by the legitimate expenses of the campaign...

Propaganda shows the cabinet scenes of the spiritualists in its true light for Kellie accomplishes all of their manifestations with a little candle, and a large enough to contain a doll. The "Simla Scam" exposes the famous articles of the Davenport brothers and shows how they deceived the public.

At Davie's theater next week, an organization will appear, which has only been before the public for a short time, but which has made a name for itself...

John W. Isham's "Oriental America" will be the attraction at the Academy of Music on October 24th. The handsome scenery is brought with the company which together with the beautiful costumes has established the company as one of the most handsomely mounted in the country.

Next Friday and Saturday night James Young, of Baltimore, a young tenor, is his first winning game for himself, will be seen at the Academy of Music.

Daniel Sullivan's Impersonation of O'Brien, the contractor, in his play "The Millionaire" brings into view a beautiful and tender girl, the actress, as sincerely, as well as a courageous manliness, that arouses sympathetic interest and raises the spectator quite above mere theatrical conventions.

The management of the Frothingham has been successful in securing the greatest American actress, Ada Rehan, for a next performance at that theater next Friday evening, Oct. 24, when she will be seen in her renewed creation of Katherine in Shakespeare's merriest comedy "Taming of the Shrew."

Our--Boy doesn't lie. Dog doesn't bark. Cat doesn't steal. Girl doesn't cheat. Firm doesn't cheat. Party's sure to win.

As we proceed, Round mountain is on the right, nearly 10,000 feet high, behind which lie the Hot Springs just visited, while in front of us, the snow-capped peaks are, apparently, but a stone's throw distant, rising an enormous mass boldly to meet us.

As the train leaves the station, we get a parting view of these monarchs, their bases deeply tinted in purple and gold, while in the mists above are distant snow-capped peaks.
