That National politics interfere with trade is known to every American, and at no time in the nation's history has this fact been so apparent as now. Banks refuse the ordinary courtesies and accom-modations to their best customers, gilt-edge securities go begging for loans, and commercial papers, loans, and commercial papers, which under ordinary conditions would be as good as gold, is worth would be as good as gold, is worth tess for immediate use, and the money question is the cause of it all. Under these conditions, when manufacturers or jobbers are pinched, there is but one help for them, and that is to realize for spot cash in their stocks so that they tide over the present awful

Ex-President Harrison Begins His Tours of the State of Indiana.

IS RECEIVED WITH ENTHUSIASM

Immense Crowds Greet the Speaker Everywhere -- The Fallacies of the Cheap Dollar Craze Are Pointed Out in Plain Language and In-Yield to Fake Notions Regarding Inflation.

Spencer, Ind., Oct. 20.—General Ben-jamin Harrison this morning began the first of the tours he will make over Indiana soil during this campaign and was favored with beautiful weather. His train consisted of two private cars, loaned by R. B. F. Pierce, of the Clover Leaf road, and with the ex-president were a number of prominent Indianapwere a number of prominent Indianapolis citizens and personal friends. The train was cheered as it left the station at Indianapolis at 9 o'clock and the day's work began before the party had gotten fairly out of town.

At the Belt crossing, west of this city, several hundred people had gathered and the train was stopped for them. Mr. Harrison was lustily cheered as he appeared at the rear platform. Among other things he said:

"You will not expect me to speak perhaps further than to say to you that

haps further than to say to you that this is another campaign in which very singular notions are being promulgated. I speak here to men who have gathered from these industrial establishments about the suburbs of Indianapolis. The effort this year is to persuade them that the dollar they get every week is too good and that they ought to have one not quite so good. I ask you if that is not the sum of the whole argument. It is very plain, it seems that the silver dol-iar, if the relative value of gold and silver remains what it is, and silver is

solver remains what it is, and silver is coined freely, will not buy as much as a gold dollar. How much less nobody can tell—that is guess work. "It will be fluctuating like the mer-cury in the thermometer. I have lifted my voice for thirty years in Indiana to my voice for thirty years in Indiana to the laboring man and the farmer and I have had just this message, in green-back and flat money times, and now, that of all the people in the world who will be injured by a cheap and fluctuat-ing money the workingman is the one who will be worst hurt.

AN OVATION AT MOORESVILLE. The next stop was at Mooresville, where a crowd of about 800 people had where a crowd of about 800 people had gathered and the station was gay with flags and bunting. General Harrison appeared and was given an ovation. He plunged at once into his subject. He reviewed the fight the Democratic party had been making for some years for cheapness while the Republicans have been contending that fair prices were more conducive to prosperity and happiness and called attention to the entire change of front made by the Democrats in this campaign. They had abandoned the fight for cheapness and succeeded in their campaign in 1892, had elected a president and congress of their own way of thinking and had prought in an era of cheap things. The armer had gotten the cheapest coats he had ever bought, and purchased them with the cheapest wheat he had ever sold. He declared that Mr. Bryan the same principles. He appealed to the farmers of Indiana, not to be tempted by the "fake" notion that they could make themselves rich by declar-

ing a half dollar a dollar. THE CROWDS AT MARTINSVILLE. At Martinsville a crowd of about 5,-000 people was gathered to greet General Harrison and a gayly decorated stand had been erected near the station. To this General Harrison was led amid loud cheering. In his speech General Harrison paid his respects to that plank of the Democratic platform denouncing the interference of federal troops in state affairs and recalled the Chicago riots that had brought forth this plank. He called attention to Mr. Bryan's defense of this plank, and de-clared that great evils were likely to come from the election of a man who entertained such ideas of the preservation of public order. At the Hamlet of Paragon, several hundred people stopped the train and General Harrison came out long enough to greet them with a word. He noticed many women in the crowd and admonished them to see that their husbands did their duty At Spencer he was greeted by about 6,000 people, and made an address of about fifteen minutes, devoted entirely to the siler question. At Worthing-ton a crowd of equal proportions had gathered and the enthusiasm ran high.

BIG DAY FOR WORTHINGTON. Evansville, Ind., Oct. 20.—It was a big day for Worthington, it being es-timated that 20,000 people were in town. In his address here General Harrison referred to Bryan's remarks about the Jekylls and Hydes. He said that he had no disposition to retaliate in the use of opprobrius epithets. This remark of Mr. Bryan showed that he had possibly lost his temper and was very sure that in making it he had lost his sense of the proprieties of the great position to which he aspired. After the Worthington stop, lunch

was served on the train, but it was not finished, for a crowd of about 1,500 coal miners had gathered at Bushrod, Sale Price, 75c and General Harrison appealed to them as wage earners and explained that in a time of fluctuation of values of currency the man who works for wages is always the one to suffer first and suf-

thousand people were addressed for a few minutes.

At Vincennes a tremendous crowd was encountered. A stand had been erected in an open field near the station and the crowd of 8,000 people surged over the top of three acres of ground in their efforts to get near enough to see and hear General Harrison spoke for thirty minutes, in the course of which he argued the silver question as thoroughly as the limited time would permit.

At Princeton, a couple of thousand people met the train at the station and followed General Harrison's carriage to the fair grounds, where from

and followed General Harrison's carriage to the fair grounds, where from 20,000 to 25,000 people had been waiting several hours. General Harrison's speech at this point was about forty minutes in length, and more elaborate than any he had made during the day. He reviewed not only the silver question, but the other issues brought up by the Chicago platform, and pointed out the dangers to public peace and order that might arise from its successful that might arise from its successful that might arise from its successful that might arise from the successful that there are 11.718 sick soldiers in the various military hospitals.

General Har-rison remained in his car and had supper. Later a big street demonstration was given with 5,000 men in line. General Harrison speke in Evans hall, the largest auditorium in the city, which was utterly inadequate. He was received with wild demonstrations was received with whit demonstrations of delight, when he appeared and was introduced by C. A. Debruler. In this the principal speech of the day, General Harrison addressed himself chiefly to an argument against cheap money in the effort to convince the people that values cannot be created by lexislation. values cannot be created by legislation. #### M'KINLEY'S QUIET DAY.

For a Brief Season He is Free from Visiting Del.gations and Speech. making--Visitors Expected Today.

Canton, O., Oct. 20 .- Major McKinley is enjoying a day of comparative rest, free from visiting delegations and speechmaking. Two delegations that had been scheduled for today have postponed their visit until next week. Major McKinley has found time by this respite to attend to a portion of his private correspondence and to prepare for the balance of the week's callers, The advance guard of the Chicago

people who are expected here in large numbers to swell the crowd on lilinois day, tomorrow, has arrived. There will be a parade in the afternoon, led by fifty black hussars from Chicago. The troopers are to bring their own horses with them.

#### PROSPERITY OR PANIC.

Andrew Carnegie's Opinion on the Results of Presidential Election.

Pittsburg, Oct. 20.—Andrew Carnegie eaves for New York tomorrow morning after spending several days in Pitts-burg attending to business matters. Before leaving Mr. Carnegie complied with the requests of the newspapers for an interview upon political and busi-ness matters. When asked for his opin-ion whether McKinley would be elected. he said: "Yes, I am quite sure of it, the only question is one of majority." "What do you think of the outlook for business."

"That depends upon the election of the candidate who represents honest money, law and order. If a man like Mr. Bryan and such men as would compose his cabinet, if elected, were placed pose his cabinet, if elected, were placed in charge of the nation by the Ameri-can people, there would be paralysis of business; but if McKinley is elected, I believe the country is going to have a period of prosperity that will rank with any in its history. The country has been depressed for some years, release for all commedities are low. prices for all commodities are low, visions are in demand: the country will gain nearly two hundred and fifty mil-lions of dollars over last year in its trade balances with other nations; the money of the world is lying idle anxwant higher priced things. They had succeeded in their campaign in 1892, ple have resolved to pay the same money as they have received, namely gold."

Mr. Carnegie said: "It is of no advantage to an employer to be able to pay his workmen with silver dollars. If every employer is able to do so, then had been one of the most ultra of the all are relatively in the same position free traders, who had brought about as before. The change from gold to this condition of things and that if silver would precipitate such a panic

#### INDIANA IS ALL RIGHT.

Poll of the State Shows a Clear Lead for McKinley of Nearly Thirty Thousand Votes.

Chicago, Oct. 20.—As a result of Na-tional Chairman Hanna's call for a re-port of the exact condition of affairs in the different states and a consultation of the several state chairmen, a statement has been received from Indiana. It shows a surprising gain for the Republican ticket, and predicts a

plurality of at least 29,000 for McKin-ley in that state. The poll for fifty-four counties shows the remaining thirty-eight (there being ninety-two in the state) show a net gain of 15,000, making a total of 36,000 Republican gain in the state. In 1892 the Democratic plurality was 7,-000, which, deducted from the net gain, leaves a plurality for McKinley of 29,-6.0 in round numbers. It is to be remembered that ex-Presi-

dent Harrison is to make 32 speeches in Indiana during the last week of the

#### WILL FOLLOW BRYAN.

Ex-Congressman Marion Will Endeavor to Neutralize the Evil.

Chicago, Oct. 20.-The Illinois com-Chicago, Oct. 20.—The Illinois committee of the Republican party decided today to send ex-Congressman William E. Marion, of this city, in a special train after Candidate Bryan in his final tour of Illinois, Iowa and Nebraska, ending at Omaha on the night before ending at Omaha on the night before election day, in addition to having Mr. Marion speak close to the Bryan meet-ing blace in Chicago. The plan is for Mr. Marion's train to follow the Bryan special as close as the railway com-panies will allow for safety, stop at all the places Mr. Bryan stops and if reathe places Mr. Bryan stops, and if pos-sible speak to the crowds which will gather to hear the silver nominee. The Right Rev. George F. Seymour, bishop of the Quincy diocese of the Episcopal church, Quincy, Ills., has come out with an open letter urging voters to stand by the cause of honest money. The address is on the lines of Archbishop Ireland's manifesto. Bishop Seymour has not participated in political discussions before for thirty

years. Ben Lee Will Remain at Cuba. Havana, Oct. 20.—The report that Consul General Lee would return for a time to the United States on account of ill health is incorrect. He has not been sick since his arrival in Havana, and he has no intention of leaving his post at present. It is officially reported that there are 11,718 sick soldiers in the various military hospitals.

Washington, April, 1890.

Dear General Wells:
Your letter of importance begging me to use my influence to secure a pension for Sigourney, Colonel Silloway, who was a brave officer, as you well say; and for Mrs. Mann, I can only say that I decline to do so, and if bills are introduced I shall do all I can to defeat them. I do not believe in granting pensions to British and Irish hirelings who came here, enlisted and received large bounties and good pay. In the ense of Silloway, though, you say he sayed President Lincoln from being captured. He received his reward by promotion, and he is well able to earn a living for many years to come. The governor's record as a brave soldier and his record of standing in season and out of season upon all occasions by these brave men who gave their services and their lives to their country has never been ques-tioned or doubted. It is too late to start any stories now."

of the Fiftieth Anniversary Begins With Impressive Exercises.

Princeton, N. J., Oct. 20 .- The great

celebration of Princeton's one hundred and fiftieth anniversary was opened this morning by a commemorative re-ligious service in Alexander hall. Long before the time set for the exercises arrived, the campus was resplendent with the orange and black, so dear to the heart of every son of Nassau. Groups of under-graduates loitered beneath the old elms and gazed with admiration while the distinguished representatives of other institutions, each decked in the gay colors of his alma mater, wandered here and there about the campus. At 10.30 interest became centered in Marquand chapel, where the academic processional composed of the trustees, and faculty of Princeton and the delegates from other colleges, was forming, preceded by a body of the under-graduates, they proceeded to Alexander hall, where they were received by the audience rising to their feet. #### BUTLER EXPLAINS.

His Head is as Clear as an Icicle on the Rise in Wheat-Has Not Heard from Tom Watson.

Washington, Oct. 20.—Senator Marion Butler, of North Carolina, chairman of the Populist committee, this morning, still insisted that he knew nothing whatever about the letter of accept ance of Thomas E. Watson, candidate for vice president on the Populist ticket, but he gave out for publication the following as to the cause of the in the price of wheat:

"The jump in wheat is simply another evidence of what the American public has known for years, that is that the market to a certain extent is controlled by speculation, and that the price of any product thus controlled can be temporarily lowered or raised at will by those who hold the calls for future delivery. It is well known that the purpose of the proposed anti-option law was to prevent speculation from thus "bulling and bearing" the market price of American staple products. This law was fought by those who have made immense fortunes in speculation upon the products produced by American labor. If a proper and just anti-option bill had been passed, and we had an honest financial system, and equitable transportation rates, this present false and delusive spurt in wheat, for campaign purposes, would not have oc-

"While this anti-option law was be fore congress more than one grain spec-ulator on Wall street was forced to admit before congressional investigat-ing committees that the combined speculators known as bulls and bears, had it in their power to reverse the natural law of supply and demand, regulating prices, and to even force up prices in the face of an increased crop, or to decrease prices in the face of a short

interest to do so.
"No one denies today that a few men control the money market and some of these men have boasted that they could produce a panic at pleasure, and we have had sad experience to prove that they could make good their boast. The same kind of combinations today, to a certain extent, controls the prices of farm products. When a money panic farm products. When a money panic occurs it is simply proof of the power of the manipulators in money so when a spurt on products occurs it is simply a proof of the power of the speculators who never produce a bushel of wheat or corn or oats, or a pound of cotton, to control prices of farm products, produced by farm labor.

control prices of farm products, pro-duced by farm labor.

"The effect of the rise in wheat will have upon votes, in my opinion, will only be to increase Bryan's vote. The farmers understood the evil effects of speculation controlling the price of their products when they petitioned congress for the anti-option law; and they also thoroughly understand who prevented them from getting it. They understand the evil effects of a corner in money when they are now joining in sections. in money when they are now joining in fighting McKinley and the gold standard and supporting Bryan. A panic in the money market and the sale of more United States bonds would today clearly be in Bryan's favor as this unparalleled speculation in wheat will be in his favor. In short our reports for the favor. In short, our reports for the last two weeks have been showing an unusual rise in Bryan stock, especially the grain producing states of the cen-tral west, and this object lesson of Wall street speculation in their products will cause Bryan stock to keep pace with the rise of wheat."

#### WHEAT'S HIGHEST POINT

The Record of the Present Year Broken **Excitement of the Recent** Bulge is Repeated.

Chicago, Oct. 20.—Wheat closed today at the highest point thus far for the year. The trend of the market was downward until within half an hour o the close when prices steaded and the strengthened. The excitement of the recent bulge was repeated. The price of December rose from 75% to 78. Trad-ers had been looking for Bradstreet's report to add impetus to the earlier de-clining movements by showing a heavy increase in stocks, but it was announced toward noon that the report would not be issued today, upon learning which, those who had possessed of unusual temerity and had ventured to sel short, quickly changed front and in frantically endeavoring to cover, put prices to where they were around the

opening.

Reported sales of 300,000 bushels at New York for export to Lisbon and the importation of \$5,000,000 in gold, hastened the action of buyers and added to the bull sentiment. Within a few minutes of the termination of the session, an other bulge placing prices a full cent over the opening quotations took place.
It was a wild scramble, every broker
wanting to buy and none to sell. A
slight reaction took place subsequently,
but the close found the buil fever fully rehabilitated. The range on December was 3% and the close within %c. of the outside at 78%, one cent higher than

To have an EXQUISITE FIGURE and learn what a PERFECTLY FITTING CORSET really is.

MRS. A. RUTH.

The Expert Fitter of Her Majesty's Corset commences one week's engagement at our store, on Monday, Oct. 19th, and ending on Saturday, Oct. 24th.

It will give her great pelasure to explain the many merits of this celebrated Corset, and give littings, thus illustrating without doubt the exquisite figure and long graceful waist it will create.

We also desire to call special attention to Her Majesty's Corset made in extra long waist, which is without doubt the longest waisted and most exquisitely formed Corset ever produced.

We desire it to be distinctly understood that ladies will not be expected to purchase a Corset after a fitting is made unless they so desire.

Engagements for fittings can be made with Mrs. Ruth by mail or telegraph.

We keep a complete assortment of Her Majesty's Corsets in all qualities, also in High and Low Bust and Extra Long Waist.

We also have on exhibition a line of Her

Waist.
We also have on exhibition a line of Her Majesty's Corsets, made of satin of the most beautiful designs; these goods are very light in weight and comfortable.
We highly recommend this Corset, and feel confident that ladies will receive from wearing it, Perfect Satisfaction.
