MOOSIC.

The zither concert given by Professor J. Franklin Crowell on Tuesday evening in the Moosic Presbyterian church was a delightful affair. Notwithstanding the inclement weather a large and appreciative audience greeted him. His selections on the zither were largely of the classical order and most artistically rendered.

"Grand Army Memories" revealed the wonderful capacity of the zither. The strains of the Union and Rebel forces, the beating of drums, the peal of musketry, and roar of cannon brought before the audience war scenes which were heretofore thought impossible by the zither. "Love's Dreams Fantasia" deserves

How many happy marriages are daily cut asunder by the grim destroyer, death. How many women go radiantly to the altar, and then go down a few short months of agony and pain, and then go down to the grave.

There is one cause of this ever-recurring tragedy. No woman should enter the marriage state without some knowledge of the physiology of the female organs of reproduction, and of the necessity of keeping them always healthy and vigorous.

Ignorance on these points digs graves for thousands of happy brides, but a few months' journey from the altar. There is a sure and speedy remedy at hand.

The most marvelous medicine ever discovered for women is Dr. Pierce's Favorite Prescription. It is the discovery of a most eminent and skillful specialist, Dr. R. V. Pierce, chief consulting physician to the Invalid Hotel Surgical Institute, at Buffalo, N. Y.

It acts directly on the delicate organs that make wifehood and motherhood possible. It makes them healthy and strong. It cures all weakness and disease of the system.

During the expectant period it insures a healthy baby and makes parturition easy and almost painless. Women who wish to know all about the "Favorite Prescription" should write to Dr. Pierce.

Mrs. W. Robinson, Springfield, Cumberland Co., Nova Scotia, writes: "I feel that I cannot say enough about your Favorite Prescription. I was confined about thirty minutes in all. I can truthfully say that your medicine worked wonders in my case. Although the physician was in the home I did not seem to require his aid. I am going to keep a girl three months till I was able to do my work. I recommended the medicine to a lady friend of mine and she is taking it. She expects a mother next month."

Constipation if neglected will lead the most robust to the doctor's office. The blood gets loaded down with impurities which it deposits in every organ and tissue in the body. Serious illness is the inevitable result. Dr. Pierce's Pleasant Pellets cure constipation. They are prompt and pleasant in their action. They never grip. They cure permanently, and are not mere temporary palliatives. Druggists sell them. If you accept something said to be "just as good," you will regret it.

The resignation of Bishop Keane as a member of the board, tendered at the time he resigned the headship of the university at the request of the Pope, was declined. This action was of course, largely due to the personal regard in which the depositors of the board held him. Another vacancy had been caused in the board by the death of Bishop Martin, of St. Cloud, who, during his life was a strong adherent of the party opposed to Archbishop Ireland and it was supposed that his successor would hold similar views. Archbishop Riordan, of San Francisco, a friend of Archbishop Ireland, was elected and this, it is claimed, places a strong and influential member of the American party on the board.

The meeting was presided over by Cardinal Gibbons, as chancellor of the university. Among the other directors present were Archbishop Corrigan, of New York; Archbishop Williams, of Boston; Archbishop Ryan, of Philadelphia; Archbishop Ireland, of St. Paul; Archbishop Chapin, of Santa Fe; Bishop Foley, of Detroit; Bishop Horstman, of Cleveland; Bishop Farley, auxiliary bishop of New York; Father Thomas E. Lee, pastor of St. Mathew's church, of this city, and Mr. Thomas E. Waggoner, also of Washington.

Four were present also as ex-officio members of the board, who are not entitled to a vote on any of the questions presented. Archbishop Riordan, of Cincinnati; Knicker, of Milwaukee; Riordan, of San Francisco; Kay, of St. Louis; Gross, of Oregon, and Feenan, of Chicago.

Although the fact could not be ascertained with positiveness there is good reason to believe that the three names were agreed upon before the meeting adjourned today, for presentation to the pope, as successor to Bishop Keane. Those present refused absolutely to discuss the matter. The chairman so far named in connection with the rectorship are the following:

—Father Conroy, head of the Catholic Seminary of St. Joseph at Plattburgh, N. Y.; Father Brann, of St. Agnes church, New York; The Very Rev. Hewitt, of the Paulist congregation, New York; Edward P. Allen, head of St. Mary's seminary, Emmitsburg, Md.; Bishop Spaulding, of Peoria; Horstman, of Cleveland, and Becker, of Green Bay. Archbishop Chanale, of Santa Fe, and Dr. Garrigan, acting rector of the University.

BUTLER IN A BICYCLE RUNAWAY.

Populist National Chairman Covered with Bandages as a Result.
Washington, Oct. 21.—Mark Hanna will doubtless be accused by the silver men of another campaign outrage—that of conspiring with a bicycle-maker to disable Senator Butler of the Populist national committee.

About the time he opened the Populist headquarters here Senator Butler bought a bicycle. Last night he tried to come down Capitol hill. His feet slipped off the pedals and he lost control of the machine.

Fortunately for the Populist party he had a clear roadway and was able to keep in the saddle until he reached the bottom of the hill. There he fell, and he spent his Sunday in bed covered with arnica bandages.

No bones were broken, and he will be able to steer the Populist party through the remainder of the campaign.

The late ROBERT BARTHOLOMEW PROFESSOR OF MATERIA MEDICA, GENERAL THERAPEUTICS, and HYGIENE of JEFFERSON MEDICAL COLLEGE of Philadelphia, said in his last work on medical electricity: "The time is not far off when electricity for medical use will take the place of many drugs with the same phenomenal success that has marked the progress of this science in the moving of cars, lighting of streets and houses and for general motive power."

It was in 1780 that GALVANI discovered the action of galvanism on the nerves by experiment- ing on a frog. For his years galvanism has continued to grow in prominence as a cure for disease.

LET IT BE THOROUGHLY UNDERSTOOD that Dr. Green is a graduate in medicine and pharmacy, he has prescribed for thousands of patients who have never had an application of electricity, but experience and study has convinced him, and it has Marton, Rockwell, Massey and others, that electricity is the KING OF MEDICAL REMEDIES. Bear in mind that proper electrical treatment with first-class appliances, is NOT PAINFUL.
