MARKETS AND STOCKS

Wall Street Review. New York, Oct. 26.—The temper of speculation at the Stock Exchange was speculation at the Stock Exchange was unmistakably bullish today and at the end of the session prices showed an advance of 14a2% per cent. in practically the entire list. Heavy purchases to cover short covers. to cover short contracts contributed to the strength of the market, but the apward movement was accelerated by buying for the long account for certain capitalists who are impressed with the heavy exports of wheat and other products and the influx of gold and who also believe in the success of the sound money advocates at the coming elections. At intervals reactions occurred in consequence of the sale of 15 to 20,-000 shares for foreign account, the set-back met with by the bull specula-tion in wheat and the advance in the rates of interest here to Sal0 per cent., but after each decline stocks were taken freely with the result of causing substantial rallies. The transactions aggregated 259,225 shares, the largest total for some time. The great featotal for some time. The great rea-ture of the day's speculation was the jump in Sugar, which on purchases of 62,400 shares rose to 115 and closed at 11434 against 11234 on Saturday. Bur-lington and Quincy ranked second with 25,900 shares; St. Paul third with 24,200 and Deadler fourth with 23,300 shares 25,900 shares; St. Paul third with 24,200 and Reading fourth with 23,300 shares. The important advances follow: Sugar preferred, 13; Tobacco, 13; Burlington and Quincy, 17; Chicago Gas, 17; Northwest, 1; St. Paul, 7; Rock Island, 14; Delaware and Hudson, 13; General Electric, 13; Lead, 17; preferred, 13; Jersey Central, 1; Reading, 1; Tennessee Coal, 14; and Leather preferred, 14. Socculation closed er preferred, 14. Speculation closed strong with prices at or near the best

BEST OF THE CAMPAIGN. Thursday night's demonstration in the Frothingham thea-Harry Hall, apt in anecdote and illustration; and Mayor Warwick, of Philadelphia, who for Democrats as well as Re-

AS VICE PRESIDENT.

the Office in the Years That Are Gone.

From the Omaha Bee.

The office of vice-president of the United States is one of distinction and honor. In the early years of the republic it was considered worthy of the aspirations of the most distinguished statesman. The roll of vice-presidents includes the names of such eminent men as John Adams, Thomas Jefferson, George Clinton, John C. Calhoun, John C. Breckinridge and Henry Wilson, while there were others who had a prominent part in the events of their time and achived an enduring place in the country's history. It is only in late years that the vice-presidency has come to be thought of so little consequence, from the view point of polities, as to be unworthy the consideration of men in public life who have attained a prominence that warrants them in aspiring higher. From the Omaha Bee.

them in aspiring higher.

It is true that the position carries with it little patronage, the vice-president having but few places in his gift with which to reward political friends.

It is also true that the incumbent of the vice-presidery does not as a reliable to the vice-presidery does not a vice-presidery the vice-presidecy does ont, as a rule, exert a very great innuence upon poli-tical affairs. Unless he enjoys the most intimate relations with the administration—and in recent years this has not been the case—his views are not sought and he gets little more opportunity than he would have had as a private citizen to give shape and direction to political events. He has practically no voice in the government, and must take his share of the responsibility for his party's mistakes and failures without having anything to say regarding the framing of policies or the administration of affairs. If he preside over the senate with dignity, fairness and impartiality he is commended, but has little chance beyond this to win the approbation of his fellow citizens. Add to all this the fact that but few viceintimate relations with the administra-

hogsheads, 3%ac, country do., 2%a3%c, as to quality, and cakes, 3%c.

Chicago, Ill., Oct. 28.—The net appreciation in the price of wheat today was one cent, but the market was nervous and in a position to be "worked." Business probably amounting to special to in the price of wheat today was one cent, but the market was nervous and in a position to be "worked." Business mass on a much reduced scale, not only in wheat, but in the other grains and provisions. In a general way it was a build market without bull news. As is usual on Monday the trade had important statistics, but they did not leave their mark. There was a disposition to follow leaders or guess what the market might do next regardless of natural influences, and this developed a scalping trade. The December option in wheat opened at 8%%c, and the highest price for the day was an excitement during the day's business for the reason, perhaps, that there was an excitement during the day's business for the reason, perhaps, that there was nothing in the information received to warrant it.

Chicago Grain and Provision Market.

drawn and not at all discreditable to a young man of 23 years of age. Its imper-sonator showed that he possessed gifts Chicago Grain and Provision Market.

Chicago, Ill., Oct. 28.—Futures ranged as follows: Wheat—October, 673.c., 683.c.; December, 685.c., 704.c.; May, 743.c., 15c. Corn—October, 253.c., 254.c., December, 253.c., 254.c.; December, 184.c., 173.c.; December, 184.c., 185.c.; May, 243.c.; May, 243.c., 243.c.; Mess Pork—December, 81.0, 81.05; January, 81.87.c., 81.90.

The meeting of the Inter-State Homoe pathic Medical society in Scranton this week will not only be an event of interest to members of the fraternity in north-eastern Pennsylvania and southern New York, but will also be of importance as another advertisement of the enterprise of the Electric City. The Inter-State convention, which will bring to Scranton some of the most prominent physicians of the homoeopathic school from New York and Philadelphia will in many respects and Philadelphia, will in many respects be a preliminary session of the state convention which will be held in this city at a later date. The State Homocopathic Medical convention has heretofore oscillated between Pittsburg and Philadelphia and has never been held in any other city the mean test of the mean test. in our great commonwealth. The decision of the body to hold the next annual meeting in Scranton is a recognition o the importance of Scranton as well as of the talent and enterprise of the homoeopathic physicians of the city and vicinity,

By the way, have you ever noticed the increase in the flood of mediocre and maudiin stuff that is tolerated on the stage today? There is scarcely a combination save the exponents of tragedy that does not contain one or more alleged bal-lad singers who profane true sentiment and shock the nerves of musically-inclined people by renditions of ear-splitting compositions set to wretched verse. Forty-line stanzas descriptive of the adventures of a dry goods drummer or the woes of the maiden who strayed from the paths of virtue at an early age and never at the Frothingham thea-ditionally terrible by the piping voice of the soubrette or the bray of the basso in a hand-me-down dress suit. Horse music and doggerel poetry are bad enough when confined to humorous topics, but when tion and sound money. The the enerts of the "inspired" are turned to subjects that should be avoided in ordinary conversation they become positively painful. It is to be regretted that the army of descriptive ballad writers seems to be on the increase and that an and witty; General Reeder, indulgent public continues to allow them to not only revel in indecency, but also scholarly and effective; Colonel at times introduce subjects that should too sacred to come within the range of a modern song writer.

I notice that the craze for the queer in literary fields has reached Scranton and that the city can boast of a weird publithat the city can boast of a wered publication of the order of the "Philistine" and "Chap Book." The new magazine, known as the "Pheon," presents the proper appearance printed in red and black, and is delivered to the reader folded in a 3x9 inch wad. It caters to the highest element only in society and literature in Scran-ton. For the present the magazine will doubtless be able to cover the entire field without being unfolded.

Many Men of Distinction Have Filled INCREASING OUTPUT OF GOLD.

The continuously increasing production of gold is knocking the props from under the claim of the silverties that the precious metal is getting so scarce that "there isn't enough to go around," and that the world's currency is contracting. Notwithstanding the fact that the total output of gold has doubled during the last ten years, the estimates for the present calendar, given to the public a few days ago by our mint director, Mr. Preston, one of the highest authorities in the world, fixes the total so high that it will be nearly double that of 1890. Here are some of the totals since 1875 and the estimate for 1896; WORLD'S GOLD PRODUCTION.

the totals since 1875 and the estimate for 1896;

WORLD'S GOLD PRODUCTION.

1770 \$220,000,000,1891 \$130,650,000
15 5 202,000,000 1890 118,545,000
1891 180,620,100 1885 103,435,000
1892 140,845,100,1855 103,435,000
This means a larger addition to the world's monetary stock than was made in the years when the mints were open to free coinage of both gold and silver, and it is pleasant to note that the United States will again head the list of producing countries, with an output of at least fifty millions.

If there was any reason for the claim that gold is appreciating because of its scarcity, that claim has long since lost its reason.

## THE SPRING BROOK WATER SUPPLY COMPANY

THIRTY YEAR 5 PER CENT. FIRST MORTGAGE GOLD BONDS, FREE FROM TAXES.

INTEREST PAYABLE APRIL 1 AND OCTOBER 1

The Spring Brook Water Supply Company offers to the pub-He one hundred thousand dollars of the above described bonds. The company furnishes the entire water supply of the Lackawanna and Wyoming Valleys, from Scranton to Nanticoke, including, among others, the following cities and boroughs, to wit:

Wilkes-Barre, Pittston, West Pittston, Avoca, Duryea, Wyoming, Luzerne, Kingston, Edwardsville, Parsons, Miner's Mills, South Wilkes-Barre, Ashley, Sugar Notch, Warrior Run, etc. The bondt are secured by mortgage on the entire system.

The company has no hesitation in offering and recommending the bonds as a safe and desirable investment. The history of the companies in the system shows that water companies are free from the fluctuations and disturbances that affect industrial and railroad enterprises. A thorough investigation of the Wilkes-Barre Water system, covering a period of forty-five years, shows an annual increase over the previous year, without exception, and this through a period covering several financial panics and the Civil War.

The company is taking care of the increased growth of the valley in its demand for a good and pure water supply, a sufficient number of bonds being held in the treasury for this purpose.

Sealed proposals will be received for the whole, or any part of the bonds offered, until Wednesday, October 28th, 1896, at 10 o'clock a. m., at its office, at Scranton, or any of the following banks, where further information, 15. 25. 35 and 40 Cents a Yard if desired, may also be obtained:
