MARKETS AND STOCKS

Wall Street Review.

New York, Oct. 27.—After a rather irregular opening the stock market resumed its upward course and for a time the feeling was characterized by buoyancy. The feverishness at the start was the result of London selling higher for wheat. Before 10 o'clock the entire list displayed renewed activity and the market was the great feature and moved up to within a fraction of 1%. The market met with a serious setback around noon when a rumor from Washington was put about to the effect that General Fitzhugh Lee had sent a cable to the president, saying that the president would call on him at a special session of Congress to act on the matter. Money worked up to 12% and the market advanced. Sugar, cotton, and other commodities were also active. The market closed with a gain of 1/8%.
