The club was organized September 15, 1893, Major McKinley addressed them very briefly.

MR. DEPEW INTRODUCED. At the conclusion of his remarks, Major McKinley introduced Chauncey M. Depew to the audience. Hundreds of Cantonians who had learned of Mr. Depew's visit to the Republican candi-date had assembled at the McKinley residence expecting a speech from the widely known orator and the crowd that surrounded the porch numbered a thousand. As Mr. Depew stepped forward some on proposed "three cheers for New York," and they were given with a great deal of year.

#### OVATION TO HARRISON. SENATOR TELLER

Republicans of Muncle Display Unusual Enthusiasm Upon His Arrival in the City.

Indianapolis, Ind., Oct. 30.—General Harrison started on his second stump-ing tour of the state at 9 o'clock this morning. During the day he stopped morning. During the day he stopped at and addressed large crowds at Greenfield, Knightstown, Anderson, Muncie, Winchester, Portland, Geneva, Decatur and Fort Wayne. Muncie, 1nd., Oct. 30.—At Muncie, where General Harrison's train arrived at 18 25 the streets were nacked all

at 12.30, the streets were packed all the way from the railroad to the court house square. The amouncement that Harrison was to speak from the stand at the court house, had drawn together a great crowd of people who had taken up packings, near the stand and were up positions near the stand and were holding them during the morning until he should come. With a foreknow-ledge of this condition of affairs, the Democrats had brough Eugene Debs to the steps. The intention was to have him speak from the same stand as Har-rison, but the Republicans guarded the stand and would not permit him to mount it. This ambuscade aroused the wrath as well as the enthusiasm of the Republicans and they were hardly ac-countable for the almost frenzied enthuslasm they displayed for Harrison upon his arrival. He was escorted through the crowded streets to the stand, where he found the big square packed with people cheering themselves hoarse. The ovation given him upon his appearance lasted five minutes.

#### ESTIMATE OF RESULTS.

Reports from State Committee Chairmen to National Chairman---Mc-Kinley's Prospects Are Bright.

Chicago, Oct. 30.—The Republican national committee received more re-ports today from state committee chairmen, in response to the call sent out by Chairman Hanna for the latest and most conservative estimates of the result, presidential, state and congres-sional. Following are extracts from the reports:

california—I have not the slightest doubt we will win the blectoral vote in this state.

Colorado—Bryan and Watson ticket will pool six to ten thousand votes. Bryan and Sewill 95,000.

Delaware—Result as to presidential electors doubtful.

North Dakota—McKinley 50,000.

Oregon—Confident Republicans will be elected by 5,000 majority. Populists and Democrats claim state by 3,000.

Oregon—Confident Republicans will carry state by 3,200.

Wyoming—We will carry Wyoming for our congressmen by 5,000 plurality and justice of the supreme court by same. The margin on electors too close and changeable to make a close estimate.

Michigan—Trend is all our way. I believe we are safe for 35,000 and we may get 40,000 or 50,000.

Florida—No doubt about Florida going for Bryan.

Idaho—Idaho's vote will be cast for Bryan.

Idaho-Idaho's vote win be 55,000 Repayan.

Iowa-Complete poll indicates 75,000 Republican plurality. Chances are it will go above this.

Pennsylvania-Pennsylvania will give McKinley 250,000 plurality. Bryan will get 400,000 votes.

Minnesota-The last poll shows a majority for McKinley of 35,000.

The Colorado Statesman Admits That McKinley Will Win.

STATEMENT IN A PRIVATE LETTER

He Sends a Communication to New Yor's City Conceding That There is No Chance for Bryan -- Denver People Making Plans for Business Enterprises to Follow the Election of McKinley.

New York, Oct. 30.—While Senator Henry M. Teller is busy denying in Chi-cago that the bottom has dropped out of the Bryan boom, he has privately admitted McKinley's election, and his friends in Colorado are making plans in regard to what they will do after McKinley is elected. The Senator's friends at home now

concede Bryan's defeat as a foregone conclusion, and are preparing to launch several big enterprises after McKinley's election.

These facts are brought out in a letter which was received a few days ago by Edward M. F. Miller, a Wall street

The letter came from a personal busi-ness friend in Denver. When Mr. Miller was asked about the letter to-night he admitted its re-ceipt, but said it had been destroyed.

ceipt, but said it had been destroyed.

Mr. Miller was reluctant to discuss
its contents. He said, however, that
the following extract, which was shown
to him, was substantially correct.

"People in Denver are beginning to
reconcile themselves to McKinley's
election, and are looking about to see
what the conditions for presenting will

what the conditions for prosperity will be under his administration. They find much of an encouraging nature, although the same people three months since stoutly maintained that without Bryan's election Denver would go to

when the campaign opened. Then it was hardly safe for a speaker to at-tempt the advocacy of sound money Now, however, Mr. Miller's correspondent is only one of many Colorado capitalists who are preparing to invest

in several big enterprises on the strength of McKinley's assured election.

Mr. Miller declined either to verify or deny that portion of the letter in which Senator Teller is said to have

admitted that Bryan would be defeated at the polls.

It was learned from other course, however, that the letter did contain such an admission by the Colorado sen-

ntor.

It further declared that Mr. Teller had given up the middle west, conceding that McKinley would carry the states in which the fight is now being

#### "POPS" GIVE FIGURES.

Election Day Probabilities as Viewed From Their Standpoint Must Be Discouraging to All Other Parties.

Chicago, Oct. 30.—The statement from the Populist side as to election day probabilities and expectations throughout the country was given tonight to the United Associated Presses by Chairman Washburn, of the Chicago headquarters:

In view of the fact that the people are anxlous to know what combinations of states are likely to win. I have grouped together several, any group of which is liable to be the correct one in our election. It is conceded that the Democratic gold defection was offset by the silver Republicans, which leaves the normal conditions of the two parties the same. Then add to the Democratic vote the two millions of Populist votes and it is apparent that Bryan must win. Fortunately, the Populist vote is largest in states in which it is most needed and while Bryan cannot win without it, he is sure to win with it and will get the full Populist vote. In view of the fact that the people are

in which it is most needed and while Bryan cannot win without it, he is sure to win with it and will get the full Populist vote.

In analyzing the vote of the country I have grouped as Bryan states the agricultural and mining states, where the gold Democratic defections and floating vote is smallest, and where the success of the ticket depends on the farmers, who have been educated on the silver question through school house and alliance meetings and who would feel insulted if offered a price for their vote or were coerced in any manner. Therefore, it is conceded that the 31 states west of the Mississippi and south of the Ohio rivers, representing 222 electoral votes—18 more than needed—are the states which Bryan is most likely to carry and the states which are comparatively sure for McKinley are the New England states, together with New Jersey and Pennsylvania, representing 81 electoral votes. The doubtful states are the middle western, including Illinois, Indiana, Michigan, Ohio and Wisconsin, together with New York, making 124 electoral votes. It is apparent to any political student that while Bryan can be elected by half a dozen different combinations, that on the other hand McKinley must carry every other state together with every one of the central western doubtful states in order to win. Therefore, he has one chance where Bryan has six. While Bryan cannot win without the doubtful states, his chances for carrying them are better than McKinley and should he get tnem all it would prove to be a veritable landslide, Of the 21 Bryan states the most doubtful are lowa, Kentucky, Delaware, and Maryland. We can lose lowa and Delaware, or Kentucky and Delaware, or Maryland and Delaware, or Maryland and Delaware, and then win. Of the doubtful states in the middle west. We can give McKinley and reports of Indiana, Illinois and Michigan give these three states to Bryan, New, concede the other three doubtful

# states—New York, Ohio and Wisconsin—to McKiniley and we can afford to lose Kentucky, Wyoming, Maryland, Delaware, Nebraska, North Dakota, Oregon, West Virginia, Minnesota and lowa, and still win. Again, we can carry Indiana and Michigan, which are sure for Bryan, and loose Illinois, Ohio, New York and Wisconsin, and in addition to all this give them Kentucky, Maryland, Delaware, North Dakota, West Virginia and lowa and all the eastern states and we will win. There are several other combinations which include states naturally for Bryan, and which in a like manner would enable him to win. "In Illinois Bryan will carry the state outside Chicago by between thirty and forty thousand majority. The uncertainty is Chicago, with its 100,000 unplaced votes. If Bryan carries the city he will carry the state and no combination can beat him in the rest of the states.

I find that the Republicans are circulating among Catholic citizens the charge that I am or have been a member of the A. P. A. I have also learned that I have been accused of being a member of a society which I think is known as the Junior Order of American Mechanics. At the same time I have been accused from other quarters of being opposed to the public school system and of having voted against the teachings of the English language in the public schools of New Mexico. While I have attempted to confine my discussion of public issues to the questions raised by my platform and have considered the money question as paramount to all others, I take this opportunity to explain my position upon the religious controversy which has been raised and ask the United Associated Presses to give the matter publicity.

discharge of the duties of public office. I am a believer in the public school system. I attended public schools myself and my children are now attending public school. While I recognize the right of parents to send their children to private schools and colleges, if they so desire, I believe that the free public school must remain a part of our system of government in order that means of education shall be within the reach of every child in the land. The Democratic members of congress who voted against a proposed amendment to the constitution of New Mexico which compelled the teaching of English lansuage in the public schools, not because Democrats were opposed to public schools or to the teaching of the English language in such schools, but because they did not deem it necessary or wise to require a pledge from the people of New Mexico which had not been required of the people of the other territories seeking admission. I trust that what I now say may reach all of the voters, because it is the only opportunity I shall have of meeting these miserepresentations. I trust that those who support the policies set forth in the Democratic platform will not allow themselves to be allenated from my support by any affidavits which may be circulated by political enemies. I have tried so far as I could to conduct this campaign in an open and honorable way and have insisted that those who are with us should refrain from personal criticism of my opponent and leave the people to pass judgment upon the principles which we represent.

The Condition of Affairs During the Chicago Strike Explained.

AS TO INTERSTATE COMMERCE

Trains Side-Tracked and Passengers Held Prisoners -- It Was the President's Duty to Protect the Interstate Commerce and Property Belonging to or in Charge of the Government.

Washington, Oct. 30.—In reply to statements in Governor's Altgeld's speech in Cooper union, New York, October 17, in relation to the Debs riots in Chicago, wherein he said that United States troops were ordered to be in readiness five days in advance of any trouble, with a view to force employes to work for their employers, a statement is made, with the approval of ment is made, with the approval of General Miles, who commanded the United States forces on the occasion in question, and with his endorsement of its accuracy, as follows:

in question, and with his endorsement of its accuracy, as follows:

The hordes, or so-called armies of Coxey, were organized in Kansas, Colorado, California, Oregon and other states, and swarmed across the country, in some cases selzing trains for their transportation and living upon the people of towns, villages and communities in their route. Fellowing this the employes of the Northern Pacific struck and practically held possession of that road when it was not earning its running expenses. The same thing was done on the Great Northern, the strikers holding possession of the property for weeks, regardless of law or the rights of the property owners. Then strikes occurred in nearly all the coal mines between the Alleghenies and the Rocky mountains. In many instances the property was seized and unlawfully held regardless of civil authorities. Following this, in May, 1894, a strike was ordered in the Pullman works in Chicago, and when that business was paralyzed, a sympathetic strike was ordered on all the railroads, over which the Pullman cars moved. This was in June and according to Governor Altgeld's own statement, published in his Cooper Union speech, all freight trains in certain portions of Illinois were abandoned by the employes and prohibited from moving by the strikers. Trains were ordered side-tracked by the hundreds, and the passengers were practically held prisoners for weeks.

The inter-state commerce of the entire country west of Chicago was suspended by the end of June. A few mail trains were allowed to run, but in many instances every window was mashed. In some instances the operators were brutally treated.

The PRESIDENT'S DUTT.

of public issues to the questions faised by my platform and have considered the money question as paramount to all others, I take this opportunity to explain my position upon the religious controversy which has been raised and ask the United Associated Presses to give the matter publicity.

I am not and never have been a member of the American Protective association or of the Junior Order of American Mechanics or of any other society hostile to any church, religion or race, nor have I ever applied for membership in any such organization. While I am a member of the Presbyterian church, I have always believed that there should be no religious test applied in the holding of public office and I have not allowed religious differences to affect my conduct in the discharge of the duties of public office. I am a believer in the public school system. I attended public schools myself and my children are now attending nucleic schools. THE PRESIDENT'S DUTY.

jurisdiction of the United States authorities. At the same time the leaders publicity declared that "it was no longer a strike, but a rebellion." When the United States marshals under the protection of the federal troops had opened the lines of interstate commerce and mail routes, and protection had been obtained for the property under the jurisdiction of the United States, the troops were removed to their former stations, July 18. Hence they were in Chicago only fifteen days, and did not in any way interfere with the municipal or state authorities. The strike, however, was not ordered off until two weeks later. This demonstrates clearly that the federal authorities had nothing whatever to do with the so-called strike. Neither had they anything whatever to do with the questions between capital and labor.
